NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. CORPORATE INFORMATION

Century Properties Group, Incorporated, formerly East Asia Power Resources Corporation (“EAPRC”), (“CPGI” or the “Company” or “Century”) was originally incorporated on March 23, 1975 as Northwest Holdings and Resources Corporation. In September 26, 2011, the Board of Directors of CPGI approved the change in the Company’s corporate name to its present name, as well as the change in its primary business purpose from power generation to that of a holding company and real estate business. Between May and November 2011, Century Properties Inc (“CPI” or “Parent Company”) entered into a series of transactions with EAPRC, a corporation organized under the laws of the Philippines and listed on the Philippine Stock Exchange, whereby, among other things, CPI acquired 96.99% of EAPRC’s Common Shares and EAPRC acquired all of the subsidiaries of CPI.

Century is one of the leading real estate companies in the Philippines with 28 years of experience. Currently, the Company has five wholly-owned subsidiaries namely Century City Development Corporation, Century Limitless Corporation, Century Communities Corporation, Century Properties Management, Inc. and Century Properties Hotel and Leisure, Inc. (collectively known as the “Subsidiaries”), and an associate called A2 Global, Inc. through its Subsidiaries and Associate, Century develops, markets and sells residential, office and medical properties in the Philippines. The Company, likewise, develops investment properties such as office and retail mall, as well as manages residential and commercial properties in the Philippines.

Starting 2010, the company has completed 6 buildings totaling 5,009 units and 354,313 GFA up to September 30, 2014. This is in addition to the 19 buildings totaling 3,768 units and 518,634 GFA that were completed prior to 2010 by the founding principals’ prior development companies, the Meridien group of companies. The Company also completed the Century City Mall in 2013, its initial foray into retail development.

Residential Projects	Location	Type	GFA (with parking) sq. m.	Units	Year Completed
Grand SOHO Makati	Makati City	Residential	29,628	360	2010
Gramercy Residences	Makati City	Residential	121,595	1,432	2012
Knightsbridge Residences	Makati City	Residential	87,717	1,328	2013
Rio	Parañaque City	Residential	42,898	758	2013
Santorini	Parañaque City	Residential	36,215	553	2013
St. Tropez	Parañaque City	Residential	36,260	580	2013
Total			354,313	5,009	

Currently, the Company is developing six master-planned communities that is expected to have 42 condominiums and commercial buildings condominium and commercial units and 934 single detached homes, with a total expected GFA of 1,934,561 sq.m.

The Company’s land bank for future development consists of properties in Quezon City and Batangas that cover a site area of 1,922,899 sqm.

The Company, through Century Properties Management, Inc. (“CPMI”) also engages in a wide range of property management services, from facilities management and auction services, to lease and secondary sales. Through CPMI, the Company endeavors to ensure that the asset values of properties managed are maintained or improved and are safe and secure. There are currently 51 projects with 2.56 million square meters of GFA under the management of CPMI, 86% of the contracts are with third-parties. Notable third-party developed projects under management include the Asian Development Bank in Ortigas, BPI Buendia Center in Makati City, Philippine National Bank Financial Center in Pasay City, Pacific Star Building in Makati City, Makati Medical Center in Makati City and three Globe Telecom buildings in Cebu, Mandaluyong and Makati City, respectively.

Century's aim is to enhance the overall quality of life of Filipinos and foreign nationals by providing distinctive, high-quality and affordable properties. Century focuses on differentiation to drive demand, increase our margins and grow market share. In particular, Century identifies what the Company believes are the best global residential standards and adopts them to the Filipino market. CPGI believes that it has earned a reputation for pioneering new housing concepts in the Philippines. One of Century's significant contributions is the Fully-Fitted and Fully-Furnished ("FF/FF") concept, which is now an industry standard in the Philippines. CPGI also employs a branding strategy that focuses on strategic arrangements with key global franchises to help capture and sustain consumers' awareness. To date, CPGI has entered into agreements with Gianni Versace S.P.A., The Trump Organization, Paris Hilton, Missoni Homes, Yoo by Philippe Starck, Forbes Media Group LLC, Giorgio Armani S.P.A, among others.

Century has marketed and sold to clients in more than 50 countries and, as a result, a significant portion of its residential properties are sold to Filipinos living abroad. International pre-sales accounted for approximately two-thirds of the total pre-sales, in terms of value, for each of the last three years. CPGI conduct its sales and marketing through the Company's extensive domestic and international network of 3,506 agents and brokers as of December 31, 2013.

For 2011, 2012 and 2013, our revenue was P4,702.5 million, P9,611.2 million and P10,809.1 million respectively, and our net income was P866.2 million, P1,849.8 million and P1,844.7 million, respectively. As of September 30, 2014, we had total assets of P30,419.8 million, and total equity of P12,840.2 million.

1.2 RECENT TRANSACTIONS

On October 31, 2013, the Company signed a Memorandum of Agreement with Eagle I Landholdings, Inc. to develop 5 hectares of land within the 44 hectare site named "Manila Bay Resorts". The 5 hectare site will potentially include luxury residential and retail properties that will total over 300,000 sq m of gross floor area upon completion.

In addition, CPGI entered into an investment agreement with Eagle I whereby Century will be issued with 432,000,000 preferred shares representing 36% of Eagle I's pro forma capital stock subject to terms and conditions from both parties.

In line with this transaction, CPGI disclosed that on April 1, 2014, in connection with the Petition for Interim Measures of Protection filed on March 31, 2014 against the Okada Group and docketed as Civil Case No. 14-359 before the Regional Trial Court, Makati City Branch 66 (the "Court"), the Court issued an Order granting application by CPGI for the issuance of an immediately executory 20-day Temporary Order of Petition for another 20 days. On April 30, 2014, the Court issued an order dated April 23, 2014 extending the Temporary Order of Petition for another 20 days. Finally, on May 29, 2014, CPGI disclosed that the Court issued an order dated May 13, 2014 denying and dismissing the Petition for Interim Measures of Protection for lack of merit.

Further to the disclosures made by CPGI relative to the case against the Okada Group, CPGI was notified by its legal counsel on closing of business hours of July 28, 2014 of a Court Order dated July 25, 2014, which granted CPGI's application for preliminary prohibitory injunction against the Okada group in Civil Case No. 14-359, filed with the RTC Branch 66, Makati City entitled, "Century Properties Group, Inc. vs. Eagle I Landholdings, Inc., et al." This is in response to the Motion for Reconsideration filed by CPGI questioning the earlier ruling of the Court denying the injunctive relief prayed for by CPGI."

In its July 25, 2014 ruling, the Court ordered the issuance of injunction prohibiting the Okada group:

(1) from giving effect to the termination of their Agreements with CPGI and from committing any acts that will render the Agreements or any portion thereof unenforceable or ineffective or render any part of the dispute moot and academic;

(2) from dealing with any party with respect to any sale, disposition or original issuance of any class of the shares of stock of Eagle I and refrain from any sale, disposition or original issuance of any class of the shares of stock of Eagle I; and

(3) from dealing with any other party for the development of the commercial/residential land and the commercial/residential project itself as contained in said agreements.”

CPGI further undertakes that it shall inform the Honorable Exchange with regard to other material information relative to these transactions.

Pursuant to the requirements of the Securities Regulation Code, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

1.3 SUBSIDIARIES AND ASSOCIATE

Below is the Company’s percentage of ownership in its Subsidiaries and Associate as of the filing of this report.

	Percentage of Ownership as of the Filing of the Report	
	Direct	Indirect
Century Communities Corporation (CCC)	100	-
Century City Development Corporation (CCDC)	100	-
Century Limitless Corporation (CLC)	100	-
Century Properties Management Inc. (CPMI)	100	-
Century Properties Hotel and Leisure, Inc. (CPHLI)	100	-
A2Global Inc.	49	-

CPGI conducts its operations through five wholly-owned Subsidiaries, Century Communities Corporation (“CCC”), Century Properties Management, Inc. (“CPMI”), Century City Development Corporation (“CCDC”), Century Limitless Corporation (“CLC”) and Century Properties Hotel and Leisure, Inc. (“CPHLI”).

Century Communities Corporation

CCC, incorporated on March 15, 1994, is focused on horizontal house-and-lot developments. From the conceptualization to the sellout of a project, CCC provides experienced specialists who develop and execute the right strategy to successfully market a project. CCC is currently developing Canyon Ranch, a 25-hectare house-and-lot development located in Carmona, Cavite.

Century City Development Corporation

CCDC, incorporated on December 19, 2006, is focused on developing mixed-use communities that comprise of residences, office and retail properties. CCDC is currently developing Century City, a 3.4-hectare mixed-use development along Kalayaan Avenue in Makati City.

Century Limitless Corporation

CLC, incorporated on July 9, 2008, focuses on developing high-quality affordable residential projects. Projects under CLC will cater to first-time home buyers, start-up families, and retirees seeking safe, secure, and convenient homes within close proximity of quality healthcare facilities.

Century Properties Management, Inc.

CPMI, incorporated on March 17, 1989, is one of the largest property management companies in the Philippines, by total gross floor area under management. CPMI has 51 projects in its portfolio, covering a total GFA of 2.56M sq.m as of September 30, 2014. CPMI is the first independent and local property management company to introduce international standards in the Philippine property market. CPMI has been awarded 18 safety and security distinctions from the Safety Organization of the Philippines.

Century Properties Hotel and Leisure, Inc.

CPLHI, incorporated in March 27, 2014, is a newly formed wholly-owned subsidiary of CPGI. CPLHI shall operate, conduct and engage in hotel business and related business ventures.

A2Global Inc.

Incorporated in 2013, CPGI has a 49% stake in A2Global, Inc., a company shall act as a sub-lessee for the project initiatives of Asian Carmakers Corporation (ACC) and Century Properties Group Inc. in the development and construction commercial office in Fort Bonifacio.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation

The accompanying consolidated financial statements include the financial statements of the Company and its subsidiaries (the Group). The accompanying consolidated financial statements have been prepared on a historical cost basis, except for investment properties and available-for-sale (AFS) financial assets that are measured at fair value. The consolidated financial statements are presented in Philippine Peso, the Group's functional currency. All values are rounded to the nearest peso except when otherwise indicated.

Statement of Compliance

The consolidated financial statements of the Group have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Group as at September 30, 2014 and December 31, 2013 and for each of the nine months in the period ended September 30, 2014 and 2013.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date when such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. All intra-group balances, transactions, unrealized gains and losses resulting from intra-group transactions and dividends are eliminated in full.

Non-controlling interests (NCI) represent the portion of profit or loss and net assets in subsidiaries not wholly owned and are presented separately in the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of financial position, separately from total equity attributable to owners of the Company. Losses within a subsidiary are attributed to the NCI even if that results in a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary, the carrying amount of any NCI and the cumulative translation differences, recorded in equity.
- Recognizes the fair value of the consideration received, the fair value of any investment retained and any surplus or deficit in profit or loss.
- Reclassifies the Company's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate.

Changes in Accounting Policies and Disclosures

The accounting policies adopted in the preparation of the Group's financial statements are consistent with those of the previous financial years except for the following amended standards, which were adopted as of January 1, 2014. The nature and the impact of each new standard and amendment are described below:

- *PAS 32, Financial Instruments: Presentation - Offsetting Financial Assets and Financial Liabilities (Amendments)*
These amendments to PAS 32 clarify the meaning of "currently has a legally enforceable right to set-off" and also clarify the application of the PAS 32 offsetting criteria to settlement systems (such as central clearing house systems) which apply gross settlement mechanisms that are not simultaneous. The amendments affect presentation only on the Group's financial position or performance. The amendments to PAS 32 are to be retrospectively applied for annual periods beginning on or after January 1, 2014.
- *PAS 36, Impairment of Assets - Recoverable Amount Disclosures for Non-Financial Assets (Amendments)*
These amendments remove the unintended consequences of PFRS 13 on the disclosures required under PAS 36. In addition, these amendments require disclosure of the recoverable amounts for the assets or cash-generating units (CGUs) for which impairment loss has been recognized or reversed during the period. These amendments are effective retrospectively with earlier application permitted, provided PFRS 13 is also applied. The amendments are not expected to have an impact on the Group's financial position or performance.
- *Investment Entities (Amendments to PFRS 10, PFRS 12 and PAS 27)*
These amendments provide an exception to the consolidation requirement for entities that meet the definition of an investment entity under PFRS 10. The exception to consolidation requires investment entities to account for subsidiaries at fair value through profit or loss. It is not expected that these amendments will have an impact to the Group.
- *Philippine Interpretation IFRIC 21, Levies*
IFRIC 21 clarifies that an entity recognizes a liability for a levy when the activity that triggers payment, as identified by the relevant legislation, occurs. For a levy that is triggered upon reaching a minimum threshold, the interpretation clarifies that no liability should be anticipated before the specified minimum threshold is reached. The Group does not expect that IFRIC 21 will have material financial impact in future financial statements.

- PAS 39, *Financial Instruments: Recognition and Measurement - Novation of Derivatives and Continuation of Hedge Accounting (Amendments)*
These amendments provide relief from discontinuing hedge accounting when novation of a derivative designated as a hedging instrument meets certain criteria. The Group does not expect this amendment to have an impact on the Group financial position and performance.

Future Changes in Accounting Policies

The Group will adopt the following relevant standards and interpretations when these become effective 2015.

- PAS 19, *Employee Benefits - Defined Benefit Plans: Employee Contributions (Amendments)*
The amendments apply to contributions from employees or third parties to defined benefit plans. Contributions that are set out in the formal terms of the plan shall be accounted for as reductions to current service costs if they are linked to service or as part of the remeasurements of the net defined benefit asset or liability if they are not linked to service. Contributions that are discretionary shall be accounted for as reductions of current service cost upon payment of these contributions to the plans. The amendments to PAS 19 are to be retrospectively applied for annual periods beginning on or after July 1, 2014.
- PFRS 2, *Share-based Payment - Definition of Vesting Condition*
The amendment revised the definitions of vesting condition and market condition and added the definitions of performance condition and service condition to clarify various issues. This amendment shall be prospectively applied to share-based payment transactions for which the grant date is on or after July 1, 2014. This amendment does not apply to the Group as it has no share-based payments.
- PFRS 3, *Business Combinations - Accounting for Contingent Consideration in a Business Combination*
The amendment clarifies that a contingent consideration that meets the definition of a financial instrument should be classified as a financial liability or as equity in accordance with PAS 32. Contingent consideration that is not classified as equity is subsequently measured at fair value through profit or loss whether or not it falls within the scope of PFRS 9 (or PAS 39, if PFRS 9 is not yet adopted). The amendment shall be prospectively applied to business combinations for which the acquisition date is on or after July 1, 2014. The Group shall consider this amendment for future business combinations.
- PFRS 8, *Operating Segments - Aggregation of Operating Segments and Reconciliation of the Total of the Reportable Segments' Assets to the Entity's Assets*
The amendments require entities to disclose the judgment made by management in aggregating two or more operating segments. This disclosure should include a brief description of the operating segments that have been aggregated in this way and the economic indicators that have been assessed in determining that the aggregated operating segments share similar economic characteristics. The amendments also clarify that an entity shall provide reconciliations of the total of the reportable segments' assets to the entity's assets if such amounts are regularly provided to the chief operating decision maker. These amendments are effective for annual periods beginning on or after July 1, 2014 and are applied retrospectively. The amendments affect disclosures only and have no impact on the Group's financial position or performance.
- PFRS 13, *Fair Value Measurement - Short-term Receivables and Payables*
The amendment clarifies that short-term receivables and payables with no stated interest rates can be held at invoice amounts when the effect of discounting is immaterial.

- PAS 16, *Property, Plant and Equipment - Revaluation Method - Proportionate Restatement of Accumulated Depreciation*

The amendment clarifies that, upon revaluation of an item of property, plant and equipment, the carrying amount of the asset shall be adjusted to the revalued amount, and the asset shall be treated in one of the following ways:

- a. The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset. The accumulated depreciation at the date of revaluation is adjusted to equal the difference between the gross carrying amount and the carrying amount of the asset after taking into account any accumulated impairment losses.
- b. The accumulated depreciation is eliminated against the gross carrying amount of the asset.

The amendment is effective for annual periods beginning on or after July 1, 2014. The amendment shall apply to all revaluations recognized in annual periods beginning on or after the date of initial application of this amendment and in the immediately preceding annual period. The amendment has no impact on the Group's financial position or performance.

- PAS 24, *Related Party Disclosures - Key Management Personnel*

The amendments clarify that an entity is a related party of the reporting entity if the said entity, or any member of a group for which it is a part of, provides key management personnel services to the reporting entity or to the parent company of the reporting entity. The amendments also clarify that a reporting entity that obtains management personnel services from another entity (also referred to as management entity) is not required to disclose the compensation paid or payable by the management entity to its employees or directors. The reporting entity is required to disclose the amounts incurred for the key management personnel services provided by a separate management entity. The amendments are effective for annual periods beginning on or after July 1, 2014 and are applied retrospectively. The amendments affect disclosures only and have no impact on the Group's financial position or performance.

- PAS 38, *Intangible Assets - Revaluation Method - Proportionate Restatement of Accumulated Amortization*

The amendments clarify that, upon revaluation of an intangible asset, the carrying amount of the asset shall be adjusted to the revalued amount, and the asset shall be treated in one of the following ways:

- a. The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset. The accumulated amortization at the date of revaluation is adjusted to equal the difference between the gross carrying amount and the carrying amount of the asset after taking into account any accumulated impairment losses.
- b. The accumulated amortization is eliminated against the gross carrying amount of the asset.

The amendments also clarify that the amount of the adjustment of the accumulated amortization should form part of the increase or decrease in the carrying amount accounted for in accordance with the Standard.

The amendments are effective for annual periods beginning on or after July 1, 2014. The amendments shall apply to all revaluations recognized in annual periods beginning on or after the date of initial application of this amendment and in the immediately preceding annual period. The amendments have no impact on the Group's financial position or performance.

Annual Improvements to PFRSs (2011-2013 cycle)

The Annual Improvements to PFRSs (2011-2013 cycle) contain non-urgent but necessary amendments to the following standards:

- **PFRS 1, *First-time Adoption of Philippine Financial Reporting Standards - Meaning of 'Effective PFRSs'***
The amendment clarifies that an entity may choose to apply either a current standard or a new standard that is not yet mandatory, but that permits early application, provided either standard is applied consistently throughout the periods presented in the entity's first PFRS financial statements. This amendment is not applicable to the Group as it is not a first-time adopter of PFRS.
- **PFRS 3, *Business Combinations - Scope Exceptions for Joint Arrangements***
The amendment clarifies that PFRS 3 does not apply to the accounting for the formation of a joint arrangement in the financial statements of the joint arrangement itself. The amendment is effective for annual periods beginning on or after July 1, 2014 and is applied prospectively.
- **PFRS 13, *Fair Value Measurement - Portfolio Exception***
The amendment clarifies that the portfolio exception in PFRS 13 can be applied to financial assets, financial liabilities and other contracts. The amendment is effective for annual periods beginning on or after July 1, 2014 and is applied prospectively. The amendment has no significant impact on the Group's financial position or performance.
- **PAS 40, *Investment Property***
The amendment clarifies the interrelationship between PFRS 3 and PAS 40 when classifying property as investment property or owner-occupied property. The amendment stated that judgment is needed when determining whether the acquisition of investment property is the acquisition of an asset or a group of assets or a business combination within the scope of PFRS 3. This judgment is based on the guidance of PFRS 3. This amendment is effective for annual periods beginning on or after July 1, 2014 and is applied prospectively. The amendment has no significant impact on the Group's financial position or performance.

The Group will adopt the following relevant standards and interpretations when these become effective.

- **PFRS 9, *Financial Instruments***,
PFRS 9, as issued, reflects the first phase on the replacement of PAS 39 and applies to the classification and measurement of financial assets and liabilities as defined in PAS 39, *Financial Instruments: Recognition and Measurement*. Work on impairment of financial instruments and hedge accounting is still ongoing, with a view to replacing PAS 39 in its entirety. PFRS 9 requires all financial assets to be measured at fair value at initial recognition. A debt financial asset may, if the fair value option (FVO) is not invoked, be subsequently measured at amortized cost if it is held within a business model that has the objective to hold the assets to collect the contractual cash flows and its contractual terms give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal outstanding. All other debt instruments are subsequently measured at fair value through profit or loss. All equity financial assets are measured at fair value either through other comprehensive income (OCI) or profit or loss. Equity financial assets held for trading must be measured at fair value through profit or loss. For FVO liabilities, the amount of change in the fair value of a liability that is attributable to changes in credit risk must be presented in OCI. The remainder of the change in fair value is presented in profit or loss, unless presentation of the fair value change in respect of the liability's credit risk in OCI would create or enlarge an accounting mismatch in profit or loss. All other PAS 39 classification and measurement requirements for financial liabilities have been carried forward into PFRS 9, including the embedded derivative separation rules and the criteria for using the FVO.

The Group has not conducted its full impact evaluation on the possible financial implications of the adoption of PFRS 9 hence the Group has opted not to early adopt PFRS 9 for its 2014 financial reporting.

- **Philippine Interpretation IFRIC 15, *Agreements for the Construction of Real Estate***
This Interpretation covers accounting for revenue and associated expenses by entities that undertake the construction of real estate directly or through subcontractors. The Interpretation requires that revenue on construction of real estate be recognized only upon completion, except when such contract qualifies as construction contract to be accounted for under PAS 11, *Construction Contracts*, or involves rendering of services in which case revenue is recognized based on stage of completion. Contracts involving provision of services with the construction materials and where the risks and reward of ownership are transferred to the buyer on a continuous basis will also be accounted for based on stage of completion. The SEC and the Financial Reporting Standards Council (FRSC) have deferred the effectivity of this Interpretation until the final Revenue standard is issued by International Accounting Standards Board (IASB) and an evaluation of the requirements of the final Revenue standard against the practices of the Philippine real estate industry is completed.

The adoption of this Philippine Interpretation may significantly affect the determination of the revenue from real estate sales and the corresponding costs, and the related trade receivables, deferred tax liabilities and retained earnings accounts. The Group is in the process of quantifying the impact of adoption of this Interpretation.

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three (3) months or less from dates of placement and are subject to an insignificant risk of change in value.

Financial Instruments

- a) **Date of recognition** – The Group recognizes a financial asset or a financial liability in the parent company statement of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date. Derivatives are also recognized on a trade date basis.
- b) **Initial recognition of financial instruments** – All financial assets and financial liabilities are initially recognized at fair value. Except for financial instruments at fair value through profit or loss (FVPL), the initial measurement of financial assets and liabilities includes transaction costs.

The Group classifies its financial assets in the following categories: financial assets at FVPL, held-to-maturity (HTM) financial assets, AFS financial assets and loans and receivable. The Group classifies its financial liabilities into financial liabilities at FVPL, derivative liabilities and other financial liabilities. The classification depends on the purpose for which the investments were acquired and whether they are quoted in an active market. The Group determines the classification of its investment at initial recognition and, where allowed and appropriate, re-evaluates such designation at every reporting date.

The Group's financial assets and financial liabilities are of the nature of loans and receivables, AFS financial assets, and other financial liabilities, respectively.

- c) Determination of fair value – The fair value for financial instruments traded in active markets at the reporting date is based on their quoted market price or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs. When current bid and asking prices are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has been no significant change in economic circumstances since the time of the transaction.

For all other financial instruments not listed in an active market, the fair value is determined by using appropriate valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist, options pricing models, and other relevant valuation models.

- d) Day 1 difference – Where the transaction price in a non-active market is different than the fair value from other observable current market transactions of the same instrument or based on a valuation technique whose variables include only data from observable market, the Company recognizes the difference between the transaction price and fair value (a ‘Day 1’ difference) in profit or loss unless it qualifies for recognition as some other type of asset. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the ‘Day 1’ difference amount.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments and fixed maturities that are not quoted in an active market. These are not entered into with the intention of immediate or short-term resale and are not designated as AFS or financial assets at FVPL. This accounting policy relates to the Group’s statement of financial position captions “Cash and cash equivalents”, “Receivables” (excluding receivables attributable to employees) and “Due from related parties.”

After initial measurement, loans and receivables are subsequently measured at amortized cost using the effective interest rate method, less allowance for impairment losses. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. The amortization, if any, is included in profit or loss.

The losses arising from impairment of loans and receivables are recognized in profit or loss under “Provision for impairment losses” account.

AFS financial assets

AFS financial assets are non-derivative financial assets which are designated as such or do not qualify to be classified as designated as at FVPL, HTM, or loans and receivables.

Financial assets may be designated at initial recognition as AFS if they are purchased and held indefinitely, and may be sold in response to liquidity requirements or changes in market conditions. AFS financial assets include equity investments.

After initial measurement, AFS financial assets are measured at fair value. The unrealized gains and losses arising from the fair valuation of AFS financial assets are in other comprehensive income and are reported as “Unrealized gain on AFS financial assets” in the Group’s statement of financial position.

When the security is disposed of, the cumulative gain or loss, previously recognized under "Unrealized gain or loss on AFS financial assets" is recognized in profit or loss under "Other income" account or "Miscellaneous expenses" account. Where the Group holds more than one investment in the same security, these are deemed to be disposed of on a first-in, first-out basis. The losses arising from impairment of such investments are recognized in profit or loss under the "Miscellaneous expenses" account.

Other financial assets are classified as current assets when the Group has the contractual right to receive cash or another financial asset from another entity within twelve (12) months from the reporting date.

As of September 30, 2014 and December 2013, AFS financial assets comprise of quoted equity securities.

Other financial liabilities

Other financial liabilities pertain to issued financial instruments that are not classified or designated as financial liabilities at FVPL and contain contractual obligations to deliver cash or other financial assets to the holder or to settle the obligation other than the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares. After initial measurement, other financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the effective interest rate.

This accounting policy applies primarily to the Group's "Accounts and other payables", "Due to related parties", "Long-term debt", and other obligations that meet the above definition (other than liabilities covered by other accounting standards, such as income tax payable and pension liabilities).

Other financial liabilities are classified as current liabilities when it is expected to be settled within 12 months from the financial position date or the Group does not have an unconditional right to defer settlement for at least 12 months from the reporting date.

Impairment of Financial Assets

The Group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Loans and receivables

For loans and receivables carried at amortized cost, the Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of loss is charged to the profit or loss. Interest income continues to be recognized based on the original effective interest rate of the asset. Receivables, together with the associated allowance accounts, are written off when there is no realistic prospect of future recovery and all collateral has been realized. If, in a subsequent year, the amount of the estimated impairment loss decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in profit or loss, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

If the Group determines that no objective evidence of impairment exists for individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses for impairment. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognized are not included in a collective assessment for impairment.

For the purpose of a collective evaluation of impairment, financial assets are grouped on the basis of such credit risk characteristics as type of counterparty, credit history, past due status and term.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the Group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Group to reduce any differences between loss estimates and actual loss experience.

AFS financial assets

For AFS financial assets, the Group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired.

In the case of equity investments classified as AFS financial assets, this would include a significant or prolonged decline in the fair value of the investments below their costs. Where there is evidence of impairment, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in other comprehensive income - is removed from other comprehensive income and recognized in profit or loss. Impairment losses on equity investments are not reversed through profit or loss. Increases in fair value after impairment are recognized directly in other comprehensive income.

In the case of debt instruments classified as AFS financial assets, impairment is assessed based on the same criteria as financial assets carried at amortized cost. Future interest income is based on the reduced carrying amount and is accrued based on the rate of interest used to discount future cash flows for the purpose of measuring impairment loss. Such accrual is recorded as part of "Interest income" in profit or loss. If, in subsequent year, the fair value of a debt instrument increased and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss is reversed through profit or loss.

Derecognition of Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- a) the right to receive cash flows from the asset has expired;
- b) the Group retains the right to receive cash flows from the asset, but has assumed as obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- c) the Group has transferred its rights to receive cash flows from the asset and either (i) has transferred substantially all the risks and rewards of the asset; or (ii) has neither transferred nor retained the risk and rewards of the asset but has transferred the control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a "pass-through" arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Derecognition of Financial liability

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Group's statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Real Estate Inventories

Real estate inventories are carried at the lower of cost or net realizable value (NRV).

Cost includes those costs incurred for the development and improvement of the properties such as amounts paid to contractors for construction, capitalized borrowing costs, planning and design costs, costs of site preparation, professional fees for legal services, property transfer taxes, construction overheads and other related costs.

NRV is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale such as commissions.

Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

The interest capitalized is calculated using the Group's weighted average cost of borrowings after adjusting for borrowings associated with specific developments. Where borrowings are associated with specific developments, the amounts capitalized is the gross interest incurred on those borrowings less any investment income arising on their temporary investment. Interest is capitalized from the commencement of the development work until the date of practical completion. The capitalization of finance cost is suspended if there are prolonged periods when development activity is interrupted. Interest is also capitalized on the purchase cost of a site of property acquired specifically for development, but only where activities are necessary to prepare the asset for the development are in progress.

Interest in Joint Venture

Interest in joint venture is limited to jointly controlled operations entered into by the Group to various landowners for the development of the relevant real estate properties. A jointly controlled operation involves the use of assets and other resources of the Group and such landowners rather than the establishment of a corporation, partnership or other entity. The Group and such third parties recognize in their financial statements the assets that it controls and the liabilities that it incurs, the expenses it incurs and the share of income that it earns from the sale of goods or services by the joint venture. Accordingly, the Group recognized in the consolidated financial statements the relevant assets and liabilities to the extent of its contribution to the joint venture.

Investment Properties

Initially, investment properties are measured at cost including certain transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the reporting date. The fair value of investment properties is determined by independent real estate valuation experts based on recent real estate transactions with similar characteristics and location to those of the Group's investment properties. Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the period in which they arise.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of change in use. For a transfer from investment property to inventories, the change in use is evidenced by commencement of development with a view to sale. When the Group decides to dispose of an investment property without development, it continues to treat the property as an investment property until it is derecognized and does not treat it as inventory. Similarly, if an entity begins to redevelop an existing investment property for continued future use as investment property, the property remains an investment property and is not reclassified as owner-occupied property during the redevelopment.

For a transfer from investment property carried at fair value to inventories, the property's deemed cost for subsequent accounting shall be its fair value at the date of change in use.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation and amortization and any impairment in value.

The initial cost of property and equipment consists of its purchase price, including import duties, taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property plant and equipment have been put into operation, such as repairs and maintenance are normally charged against operations in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property plant and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment.

Depreciation and amortization of property and equipment commences once the property and equipment are put into operational use and is computed on a straight-line basis over the estimated useful life of the property and equipment as follows:

	<u>Years</u>
Office equipment	3 – 5
Computer equipment	3 – 5
Furniture and fixtures	3 – 5
Transportation equipment	5
Construction equipment	5

Leasehold improvements are amortized on a straight-line basis over the term of the lease or the estimated useful life of the asset of five (5) years, whichever is shorter.

The useful lives and depreciation and amortization method are reviewed periodically to ensure that the period and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

When property and equipment are retired or otherwise disposed of, the cost and the related accumulated depreciation and amortization and accumulated provision for impairment losses, if any, are removed from the accounts and any resulting gain or loss is credited to or charged against current operations.

Fully depreciated assets are retained in the accounts until they are no longer in use and no further depreciation and amortization is charged against current operations.

Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the profit or loss in the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the expense category of the profit or loss consistent with the function of the intangible asset.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Group's statement of comprehensive income when the asset is derecognized.

As of September 30, 2014 and December 31, 2013, the Group's intangible assets consist of software costs and trademarks.

- a) Software costs – Intangible assets include costs associated with developing or maintaining computer software programs are recognized as an expense as incurred. Costs that are directly associated with identifiable and unique software controlled by the Group and will generate economic benefits exceeding costs beyond one year, are recognized as intangible assets to be measured at cost less accumulated amortization and accumulated impairment, if any.

Expenditures which enhance or extend the performance of computer software programs beyond their original specifications are recognized as capital improvements and added to the original cost of the software. System development costs, recognized as assets, are amortized using the straight-line method over their useful lives, but not exceeding a period of 5 years. Where an indication of impairment exists, the carrying amount of system development costs is assessed and written down immediately to its recoverable amount. Otherwise, such costs are recognized as expense as incurred.

- b) Trademarks – Licenses for use of intellectual property have been granted for a period of ten (10) years by the relevant government agency. The trademarks provide the option of renewal at little or no cost to the Group. As a result, those licenses are assessed as having indefinite useful life.

Impairment of Non-financial Assets

The Group assesses as at reporting date whether there is an indication that its non-financial assets (i.e., property and equipment and intangible assets) may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is calculated as the higher of the asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. Impairment losses of continuing operations are recognized in the expense categories in profit or loss consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of accumulated depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as revaluation increase. After such a reversal, the depreciation and amortization charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Equity

Capital stock is measured at par value for all shares issued. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax.

Retained Earnings

Retained earnings represent accumulated earnings of the Group less any dividends declared, if any.

Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the amount of revenue can be reliably measured. The Group assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The Group has concluded that it is acting as principal in all of its revenue arrangements. The following specific recognition criteria must also be met before revenue is recognized:

- a) Real estate sales – the Group assesses whether it is probable that the economic benefits will flow to the Group when the sales prices are collectible. Collectibility of the sales price is demonstrated by the buyer's commitment to pay, which in turn is supported by substantial initial and continuing investments that give the buyer a stake in the property sufficient that the risk of loss through default motivates the buyer to honor its obligation to the seller. Collectibility is also assessed by considering factors such as the credit standing of the buyer, age and location of the property.

Revenue from sales of completed real estate projects is accounted for using the full accrual method. In accordance with Philippine Interpretations Committee (PIC) Q&A No. 2006-01, the percentage-of-completion method is used to recognize income from sales of projects where the Group has material obligations under the sales contract to complete the project after the property is sold, the equitable interest has been transferred to the buyer, construction is beyond preliminary stage (i.e., engineering, design work, construction contracts execution, site clearance and preparation, excavation and the building foundation are finished), and the costs incurred or to be incurred can be measured reliably. Under this method, revenue is recognized as the related obligations are fulfilled, measured principally on the basis of the estimated completion of a physical proportion of the contract work.

Any excess of collections over the recognized receivables are included in the "Customers' advances and deposits" account in the "Liabilities" section of the consolidated statement of financial position.

If any of the criteria under the full accrual or percentage-of-completion method is not met, the deposit method is applied until all the conditions for recording a sale are met. Pending recognition of sale, cash received from buyers are presented under the "Customers' advances and deposits" account in the "Liabilities" section of the consolidated statement of financial position.

- b) Interest income – Interest income is recognized as it accrues (using the effective interest method that is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset).
- c) Income from cancelled sales – Income from cancelled sales is recognized when the deposits from potential buyers are deemed nonrefundable due to prescription of the period for entering into a contracted sale. Such income is also recognized, subject to the provisions of Republic Act 6552, *Realty Installment Buyer Protection (Maceda Law)*, upon prescription of the period for the payment of required amortizations from defaulting buyers.
- d) Commission income – Commission income is recognized by reference to the percentage of collection of the agreed sales price or depending on the term of the sale as provided under the marketing agreement.
- e) Dividend income – Dividend income is recognized when the Group's right to receive the payment is established.
- f) Management fees – Revenue from property management and other services is recognized when the related services are rendered.
- g) Other income – Other customer related fees such as penalties and surcharges are recognized as they accrue, taking into account the provisions of the related contract.

Cost and Expense Recognition

- a) Cost of real estate sales – Cost of real estate sales is recognized consistent with the revenue recognition method applied. Cost of condominium units sold before the completion of the development is determined on the basis of the acquisition cost of the land plus its full development costs, which include estimated costs for future development works, as determined by the Group's in-house technical staff.
- b) Commission and other selling expenses – Selling expenses such as commissions paid to sales or marketing agents on the sale of precompleted real estate units are deferred when recovery is reasonably expected and are charged to expense in the period in which the related revenue is recognized as earned. These are recorded as "Deferred selling expenses" under "Prepayments and other current assets" account. Accordingly, when the percentage of completion method is used, commissions are likewise charged to expense in the period the related revenue is recognized.
- c) General and administrative expenses – General and administrative expenses constitute costs of administering the business and are expensed as incurred.

Pension Cost

Retirement cost is computed using the projected unit credit method. This method reflects services rendered by employees up to the date of valuation and incorporates assumptions concerning employees' projected salaries. Actuarial valuations are conducted with sufficient regularity, with an option to accelerate when significant changes to underlying assumptions occur. Pension cost includes current service cost, interest cost, expected return on any plan assets, actuarial gains and losses, past service cost and the effect of any curtailment or settlement.

The liability recognized by the Group in respect of the defined benefit pension plan is the present value of the defined benefit obligation at the reporting date together with adjustments for unrecognized actuarial gains or losses and past service costs that shall be recognized in later periods. The defined benefit obligation is calculated by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using risk-free interest rates of government bonds that have terms to maturity approximating to the terms of the related pension liabilities or applying a single weighted average discount rate that reflects the estimated timing and amount of benefit payments.

Actuarial gains and losses are recognized as income or expense when the net cumulative unrecognized actuarial gains and losses of the defined benefit plan at the end of the previous reporting year exceeded 10% of the higher of the present value of the defined benefit obligation and the fair value of plan assets at that date. These actuarial gains or losses are recognized over the expected average remaining working lives of the employees participating in the defined benefit plan.

The past service cost is recognized as an expense on a straight-line basis over the average period until the benefits become vested. If the benefits are already vested immediately following the introduction of, or changes to, a retirement plan, past service cost is recognized immediately.

Operating Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at inception date, whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease only if one of the following applies:

- a) There is a change in contractual terms, other than a renewal or extension of the arrangement;
- b) A renewal option is exercised or extension granted, unless the term of the renewal or extension was initially included in the lease term;
- c) There is a change in the determination of whether fulfillment is dependent on a specified asset; or
- d) There is substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment for scenarios (a), (c), or (d) and at the date of renewal or extension period for scenario (b).

Leases where the lessor retains substantially all the risks and benefits of the ownership of the asset are classified as operating leases. Fixed lease payments are recognized on a straight-line basis over the lease while the variable rent is recognized as an expense based on the terms of the lease contract.

Income Taxes

- a) Current tax – Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as of the reporting date.
- b) Deferred tax – Deferred tax is provided, using the liability method, on temporary differences, with certain exceptions, at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, including asset revaluations. Deferred tax assets are recognized for all deductible temporary differences, carry forward benefit of unused tax credits from the excess of minimum corporate income tax (MCIT) over regular corporate income tax (RCIT), and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits from excess MCIT over RCIT and unused NOLCO can be utilized. Deferred tax, however, is not recognized on temporary differences that arise from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Foreign Currency Transactions

Transactions denominated in foreign currencies are initially recorded using the exchange rates prevailing at transaction dates. Foreign currency-denominated monetary assets and liabilities are retranslated using the closing exchange rates at reporting date. Exchange gains or losses arising from foreign currency transactions are credited or charged against current operations.

Segment Reporting

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. Financial information on the Group's business segments is presented in Note 4 to the consolidated financial statements.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Where the Group expects a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Earnings Per Share

Basic earnings per share (EPS) is computed by dividing net income attributable to common stockholders by the weighted average number of common shares issued and outstanding during the year and adjusted to give retroactive effect to any stock dividends declared during the period. Diluted EPS is computed by dividing net income attributable to common equity holders by the weighted average number of common shares issued and outstanding during the year plus the weighted average number of common shares that would be issued on conversion of all the dilutive potential common shares. The calculation of diluted EPS does not assume conversion, exercise or other issue of potential common shares that would have an antidilutive effect on earnings per share.

For purposes of the share swap transaction, the weighted average number of common shares outstanding (the denominator of the earnings per share calculation) is:

- a) the number of common shares outstanding from the beginning of the year to the transaction date shall be computed on the basis of the weighted average number of common shares of the CPI subs outstanding during the period multiplied by the exchange ratio established in the share swap agreement; and
- b) the number of common shares outstanding from the acquisition date to the reporting period shall be the actual number of ordinary shares of the Parent Company outstanding during that period.

The basic earnings per share for each comparative period before the share swap date presented in the consolidated financial statements following the share swap shall be calculated by dividing the profit or loss of CPI subs attributable to common shareholders in each of those periods by CPI subs's historical weighted average number of ordinary shares outstanding multiplied by the exchange ratio established in the share swap agreement.

As of September 30, 2014 and December 31, 2013, the Parent Company and CPI subs have no dilutive potential common shares.

Contingencies

Contingent liabilities are not recognized in the Group's financial statements but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the Group's financial statements but disclosed when an inflow of economic benefits is probable (see Note 17).

Events After the Reporting Period

Post year-end events that provide additional information about the Group's position at the reporting date (adjusting events) are reflected in the Group's financial statements. Post year-end events that are not adjusting events are disclosed in the Group's financial statements when material.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the Group's financial statements in compliance with PFRS requires the Group to make judgments and estimates that affect the amounts reported in the parent company financial statements and notes. The judgments, estimates and assumptions used in the accompanying Group's financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the Group's financial statements. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the Group's financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the Company's financial statements.

- a) Revenue and cost recognition – Selecting an appropriate revenue recognition method for a particular real estate sale transaction requires certain judgments based on, among others:
 - Buyer's commitment on the sale which may be ascertained through the significance of the buyer's initial investment; and
 - Stage of completion of the project.
- b) Collectibility of the Sales Price – In determining whether the sales prices are collectible, the Group considers that initial and continuing investments by the buyer of about 5% would demonstrate the buyer's commitment to pay as of September 30, 2014.
- c) Operating lease commitments (Group as lessee) – The Group has entered into contracts of lease with La Costa Development Corporation (formerly Penta Pacific Realty Corporation) and other unit owners of the Pacific Star Building for its administrative office location and model units for ongoing projects. The Group has determined that these are operating leases since it does not bear substantially all the significant risks and rewards of ownership of these properties. In determining significant risks and benefits of ownership, the Group considered, among others, the significance of the lease term as compared with the estimated useful life of the related asset.
- d) Distinction between investment properties and land held for future development – The Group determines a property as investment property if such is not intended for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. Land held for future development comprises property that is held for sale in the ordinary course of business. Principally, this is residential property that the Group develops and intends to sell before or on completion of construction.
- e) Distinction between investment properties and owner-occupied properties – The Group determines whether a property qualifies as an investment property. In making its judgment, the Group considers whether the property generates cash flows largely independent of the other assets held by an entity. Owner-occupied properties generate cash flows that are attributable not only to property but also to the other assets used in the production or supply process.

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions cannot be sold separately, the property is accounted for as an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgment is applied in determining whether ancillary services are so significant that a property does not qualify as investment property. The Group considers each property separately in making its judgment.

- f) Distinction between real estate inventories and land held for future development – The Group determines whether a land qualifies as land held for future development once the Group has a concrete plan on how the land shall be developed the following year. The Group shall then classify the land as part of the real estate inventories upon the commencement of the actual development of the land.
- g) Impairment of AFS financial assets – The Group treats AFS financial assets as impaired when there has been a significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists. The determination of what is ‘significant’ or ‘prolonged’ requires judgment. The Group treats ‘significant’ generally as 20% or more of the original cost of investment and ‘prolonged’ as greater than six (6) months for quoted equity securities. In addition, the Group evaluates other factors, including normal volatility in share price for quoted equities and the future cash flows and the discount factors for unquoted equities.
- h) Provisions and Contingencies – The Group is currently involved in various legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with outside counsel handling the defense in these matters and is based upon an analysis of potential results. The Group currently does not believe that these proceedings will have a material effect on the Group’s financial position. It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceedings.

Management’s Use of Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

- a) Revenue and cost recognition – The Group’s revenue recognition policies require management to make use of estimates and assumptions that may affect the reported amounts of revenue and costs. The Group’s revenue from real estate recognized based on the percentage of completion are measured principally on the basis of the estimated completion of a physical proportion of the contract work, and by reference to the actual costs incurred to date over the estimated total costs of the project. The rate of completion is validated by the responsible department to determine whether it approximates the actual completion rate. Changes in estimate may affect the reported amounts of revenue and cost of real estate sales and receivables. Carrying value of the real estate receivables amounted to P8,780.4 million and P8,091.8 million as of September 30, 2014 and December 31, 2013, respectively (see Note 6).

- b) Fair value of investment properties – The Group carries its investment properties at fair value, with changes in fair value being recognized in profit or loss. The Group engages independent valuation specialists to determine the fair value. For the investment property, the appraisers used a valuation technique based on comparable market data available for such properties. There was no gain or loss on changes in fair value of investment properties during the period ended September 30, 2014 and 2013. Carrying value of the investment properties amounted to P4,366.8 million and P4,080.8 million as of September 30, 2014 and December 31, 2013, respectively (see Note 11).
- c) Estimating allowance for impairment losses – The Group reviews its loans and receivables at each reporting date to assess whether an allowance for impairment should be recorded in the consolidated statement of financial position and any changes thereto in profit or loss. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of allowance required. Such estimates are based on assumptions about a number of factors. Actual results may also differ, resulting in future changes to the allowance.

The Group maintains allowance for impairment losses based on the result of the individual and collective assessment under PAS 39. Under the individual assessment, the Group is required to obtain the present value of estimated cash flows using the receivable's original effective interest rate. Impairment loss is determined as the difference between the receivables' carrying balance and the computed present value. Factors considered in individual assessment are payment history, past-due status and term. The collective assessment would require the Group to classify its receivables based on the credit risk characteristics (customer type, payment history, past due status and term) of the customers. Impairment loss is then determined based on historical loss experience of the receivables grouped per credit risk profile. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. The methodology and assumptions used for the individual and collective assessments are based on management's judgment and estimate.

Therefore, the amount and timing of recorded expense for any period would differ depending on the judgments and estimates made for the period.

As of September 30, 2014 and December 2013, the allowance for impairment losses on receivables of the Group amounted to P11.6 million (see Note 6).

The carrying values of these assets as of September 30, 2014 are as follows

Receivables (Note 6)	P	9,229.1
Due from related parties		125.4

- d) Estimating NRV of real estate inventories and land held for future development – The Group reviews the NRV of real estate inventories and land held for future development and compares it with the cost since assets should not be carried in excess of amounts expected to be realized from sale. Real estate inventories and land held for future development are written down below cost when the estimated NRV is found to be lower than the cost.

NRV for completed real estate inventories and land held for future development is assessed with reference to market conditions and prices existing at the reporting date and is determined by the Group having taken suitable external advice and in light of recent market transactions.

NRV in respect of inventory under construction is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete construction less an estimate of the time value of money to the date of completion. The estimates used took into consideration fluctuations of price or cost directly relating to events occurring after the end of the period to the extent that such events confirm conditions existing at the end of the period.

The carrying values of these assets as of September 30, 2014 are as follows:

Real estate inventories (Note 7)	P	8,902.3
Land held for future development (Note 8)		86.3

- e) Impairment of non-financial assets – The Group assesses impairment on its non-financial assets (e.g., property and equipment and intangible assets) and considers the following important indicators:
- Significant changes in asset usage;
 - Significant decline in assets' market value;
 - Obsolescence or physical damage of an asset;
 - Significant underperformance relative to expected historical or projected future operating results;
 - Significant changes in the manner of usage of the acquired assets or the strategy for the Group's overall business; and
 - Significant negative industry or economic trends.

The Group's intangible assets with indefinite life are tested for impairment annually. If such indications are present and where the carrying amount of the asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The recoverable amount is the asset's fair value less cost to sell. The fair value less cost to sell is the amount obtainable from the sale of an asset in an arm's length transaction while value in use is the present value of estimated future cash flows expected to be generated from the continued use of the asset. The Group is required to make estimates and assumptions that can materially affect the carrying amount of the asset being assessed.

The carrying values of the non-financial assets as of September 30, 2014 are shown below.

Property and equipment	P	123.3
Intangible assets		36.7

- f) Estimating useful lives of property and equipment and intangible assets – The Group estimates the useful lives of its property and equipment and intangible assets based on the period over which the assets are expected to be available for use. The Group reviews annually the estimated useful lives of these assets based on factors that include asset utilization, internal technical evaluation, technological changes, environmental and anticipated use of the assets tempered by related industry benchmark information. It is possible that future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned. A reduction in the estimated useful lives of these assets would increase depreciation and amortization expense and decrease noncurrent assets. Property and equipment amounted to P123.3 million and P157.8 million as of September 30, 2014 and December 31, 2013.

- g) Recognition of deferred tax assets – The Group reviews the carrying amounts of deferred tax assets at each reporting date and reduces the amounts to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. Significant judgment is required to determine the amount of deferred tax assets that can be recognized based upon the likely timing and level of future taxable income together with future planning strategies. The Group assessed its projected performance in determining the sufficiency of the future taxable income. As of September 30, 2014 and December 31, 2013, carrying values of these assets amounted to P149.4 million and P124.7 million, respectively.

As of September 30, 2014 and December 31, 2013, the Group has unrecognized deferred tax assets amounting to P109.08 million, which pertain to NOLCO and MCIT. Management believes that it is not probable that sufficient taxable income will be available to allow all of the deferred tax assets to be utilized.

- h) Estimating pension obligations – The determination of the obligation and cost of retirement benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include among others, discount rates and salary increase rates. While the Group believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect the pension obligations.

As of September 30, 2014 and December 31, 2013, the carrying value of the Group's pension liabilities amounted to P149.4 million and P142.7 million, respectively.

- i) Fair value of financial instruments – Where the fair values of financial assets and financial liabilities recorded in the Group's statement of financial position or disclosed in the notes cannot be derived from active markets; they are determined using internal valuation techniques using generally accepted market valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimates are used in establishing fair values. These estimates may include considerations of liquidity, volatility, and correlation.

- j) Capitalization of borrowing costs – The Group capitalizes the interest incurred on their borrowings that are directly attributable to the construction of its projects. These capitalized borrowing costs form part of the real estate inventories and are expensed out to cost of real estate sales.

The amount of borrowing costs capitalized amounted to P178.8 million and P238.4 million during the period ended September 30, 2014 and 2013, respectively.

4. SEGMENT REPORTING

Business segment information is reported on the basis that is used internally for evaluating segment performance and deciding how to allocate resources among operating segments. Accordingly, the segment information is reported based on the nature of service the Group is providing.

The segments where the Group operate follow:

- Real estate development - sale of high-end, upper middle-income and affordable residential lots and units and lease of residential developments under partnership agreements ·
- Property management - facilities management of the residential and corporate developments of the Group and other third party projects, including provision of technical and related consultancy services.

Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements. Details of the Group's operating segments as of and for the period ended September 30, 2014 are as follows:

	Real Estate Development	Leasing	Property Management	Adjustments and Elimination	Consolidated
Revenue					
Real estate sales, leasing, property management and other fees	P 7,534.0	P 106.0	P 217.3	(P 303.8)	P 7,553.5
Costs and expenses					
Cost of real estate sales and services	4,299.1	0.0	168.0	0.0	4,467.1
General, administrative and selling expenses	1,463.8	85.1	36.3	0.0	1,585.2
Operating income	1,771.1	20.9	13.0	(303.8)	1,501.2
Other income/(expenses)					
Interest and other income	1,269.2	0.0	0.0	(356.4)	912.8
Interest and other financing charges	(117.7)	(28.4)	(2.4)	13.8	(134.7)
Income before income tax	2,922.6	(7.5)	10.6	(646.4)	2,279.3
Provision for income tax	681.6	0.0	5.9	0.0	687.5
Net income	2,241.0	(7.5)	4.8	(646.5)	1,591.8
Net income attributable to:					
Owners of the parent company	2,241.0	(7.5)	4.8	(646.5)	1,591.8
Non-controlling interests	0.0	0.0	0.0	0.0	0.0
	2,241.0	(7.5)	4.8	(646.5)	1,591.8
Other Information					
Segment assets	40,354.6	2,535.9	131.8	(12,623.0)	30,399.3
Deferred tax assets	139.1	0.0	10.3	0.0	149.4
Total assets	40,493.7	2,535.9	142.1	(12,623.0)	30,548.7
Segment liabilities	21,772.4	1,187.8	121.6	(7,402.0)	15,679.7
Deferred tax liabilities	2,028.7	0.0	0.0	0.0	2,028.7
Total liabilities	P 23,801.1	P 1,187.8	P 121.6	(P 7,402.0)	P 17,708.4

5. CASH AND CASH EQUIVALENTS

This account consists of:

Cash on hand and in banks	P	756.3
Cash equivalents		<u>2,097.2</u>
	P	<u>2,853.5</u>

Cash in banks earns interest at the prevailing bank deposit rates. Cash equivalents are short-term, highly liquid investments that are made for varying periods of up to three (3) months depending on the immediate cash requirements of the Group, and earn interest at the prevailing short-term rates ranging from 1.5% to 4.5%

6. RECEIVABLES

This account consists of:

Trade receivables		
Real estate	P	8,780.4
Management fee		69.9
Auction fee and commissions		2.4
Receivable from employees		249.3
Advances to customers		23.8
Other receivables		<u>115.0</u>
		9,240.8
Allowance for impairment losses	(<u>11.6</u>)
		9,229.2
Noncurrent portion of real estate receivables		<u>3,213.1</u>
	P	<u>6,016.1</u>

Real estate receivables pertain to receivables from the sale of real estate properties including residential condominium units and subdivision house and lots. These are collectible in monthly installments over a period of one to five years and bear no interest. Titles to real estate properties are not transferred to the buyer until full payment has been made.

Management fees are revenues arising from property management contracts. These are collectible on a 15- to 30-day basis depending on the terms of the service agreement.

Auction fees and commissions are revenues earned by the Group in facilitating auction of properties and in marketing real estate properties developed by third parties and affiliates. Receivable from auction fees and commissions are due within 30 days upon billing.

Receivable from employees pertain to cash advances for retitling costs, taxes and other operational and corporate-related expenses. This also includes salary and other loans granted to the employees and are recoverable through salary deductions.

Advances to customers pertain to expenses paid by the Group in behalf of the customers for the taxes and other costs incurred in securing the title in the name of the customers. These receivables are billed separately to the respective buyers and are expected to be collected within one (1) year.

Other receivables pertain to the amount collectible from customers related to accruals made by the Group for VAT on real estate sales. These will be collected along with the monthly installments from customers over a period of one to five years. Other receivables are due and demandable and bear no interest.

7. REAL ESTATE INVENTORIES

This account represents the real estate projects for which the Group has been granted license to sell by the Housing and Land Use Regulatory Board of the Philippines. Details of this account follow:

Condominium units	P	8,774.5
<u>Residential house and lots</u>		<u>127.8</u>
	P	<u>8,902.3</u>

The rollforward of this account follows:

At January 1	P	7,178.0
Construction costs incurred		5,844.6
Borrowing cost capitalized		178.8
<u>Cost of real estate sales</u>	(<u>4,299.1</u>)
<u>At June 30</u>	P	<u>8,902.3</u>

General borrowings were used to finance the Group's ongoing real estate projects. The related borrowing costs were capitalized as part of real estate inventories. The capitalization rate used to determine the borrowings eligible for capitalization ranges from 4.9% to 9.0%.

Real estate inventories recognized as "Cost of real estate sales" amounted to P4,299.1 million. Such cost of sales is derived based on the standard cost for the current reporting period.

The Group has no inventories carried at fair value. Carrying amount pledged as security for liabilities totals P4,645.5 million.

8. LAND HELD FOR FUTURE DEVELOPMENT

Land held for future development consists of parcels of lot acquired by the Group for future real estate development. As of September 30, 2014, this account consists of land held by CLC and CCC.

9. ADVANCES TO SUPPLIERS AND CONTRACTORS

Advances to suppliers and contractors amounting to P629.2 million as of September 30, 2014 are recouped upon every progress billing payment depending on the percentage of accomplishment.

10. PREPAYMENTS AND OTHER CURRENT ASSETS

This account consists of:

Deferred selling expenses	P	572.7
Creditable withholding taxes		279.4
Input taxes		653.1
Prepaid expenses		19.2
Advances to land owners		236.8
Tax credit certificates		1.0
<u>Others</u>		<u>72.7</u>
	P	<u>1,834.9</u>

Deferred selling expenses pertain to costs incurred in selling real estate projects prior to its development. These capitalized costs shall be charged to expense in the period in which the construction begins and the related revenue is recognized.

Advances to land owners represent the minimum share of the lot property owners in relation to the joint venture projects of the Group. In accordance with the respective joint venture agreements, CCC and CLC advanced these shares in significant installments throughout the term of the project. The advances shall be deducted from the proceeds of the sales and collection of the land owners' units. Management has assessed that the settlement of these advances is within one year based on the pre-selling and development activities that are currently in progress. In addition, this includes the expenses shouldered by CLC that are attributable to the land owners in accordance with the joint venture agreement, which shall also be applied to the subsequent remittance on the land owners' share in the joint venture project.

Tax credit certificates pertain to the Group's claims granted by the Bureau of Internal Revenue in relation to income and value added tax refunds.

Creditable withholding taxes are attributable to taxes withheld by third parties arising from property management fees.

Input taxes are fully realizable and will be applied against output VAT. Tax credit certificates and creditable withholding taxes will be applied against income tax payable. Prepaid expenses mostly pertain to prepayments of insurance premiums which will be applied throughout the remaining term of the related contracts. Balances include prepayments pertaining to marketing expenses which will be expensed upon the recognition of the revenue on the related project.

11. INVESTMENT PROPERTIES

Movements in this account follow:

At January 1	P	4,080.8
Improvements		286.0
At September 30	P	4,366.8

Investment properties with an original cost of P170.8 million represent the portions CCDC lots that are intended to be developed for commercial and retail purposes and to be subsequently leased out to third parties. The Group's investment properties are classified as shown below:

Undeveloped land	P	4,058.0
Under construction		308.8
At September 30	P	4,366.8

Investment properties are stated at fair value, which has been determined based on valuations performed by Cuervo Appraisers, Inc., an accredited independent valuer, as of December 31, 2012. Cuervo Appraisers, Inc. is an industry specialist in valuing these types of investment properties. The value of the land was estimated by using the Sales Comparison Approach, an approach to value that considers the sales of similar or substitute properties and related market data and establishes a value estimate by processes involving comparison.

The Group implemented changes in the business plan for certain lots of the ISMI properties previously intended for leasing purposes during the following periods:

In 2010, one of the lots with a fair value of P427.9 million was utilized for the development of Centuria Medical Towers, a project of Centuria Medical Development Corporation, wherein the relevant units will be for sale. Such property was reclassified under the "Real estate inventories" with the latest fair value of the lot as its deemed cost.

In 2011, lots with fair value of P1,019.8 million and P339.1 million will be developed by the Group into a residential condominium building and commercial and office buildings, respectively, which will be available for sale.

Except for the change in the fair value investment properties, the Group did not earn any revenue from the use of the said real properties or incurred any direct operating expenses in relation to these investment properties.

12. OTHER NON-CURRENT ASSETS

This account consists of:

Rental deposits	P	57.3
Others		1,003.2
	P	1,060.5

Rental deposits mostly pertain to security deposits held and applied in relation to the Group’s lease contracts for their administrative and sales offices. The deposits are noninterest-bearing and are recoverable through application of rentals at the end of the lease term.

13. ACCOUNTS AND OTHER PAYABLES

This account consists of:

Accounts payable	P	3,351.6
Accrued expenses		52.7
Retention payable		74.2
Payable to related parties		22.9
	P	3,501.4

Accounts payable are attributable to the construction costs incurred by the Group. These are noninterest-bearing and are normally settled on 15-to 60-day terms. Accrued expenses consist mainly of utilities, marketing costs, professional fees, communication, transportation and travel, security, insurance, representation and taxes payable.

Retention payables are noninterest-bearing and are normally settled on a 30-day term upon completion of the relevant contracts.

14. CUSTOMERS’ ADVANCES AND DEPOSITS

The Group requires buyers of residential units to pay a minimum percentage of the total selling price as deposit before a sale transaction is recognized. In relation to this, the customers’ advances and deposits represent payments from buyers which have not reached the minimum required percentage. When the level of required payment is reached by the buyer, a sale is recognized and these deposits and down payments will be applied against the related installment contracts receivable.

The account also includes the excess of collections over the recognized receivables based on percentage of completion. As of September 30, 2014 customers’ advances and deposits amounted to P1,296.6 million.

15. SHORT-TERM AND LONG-TERM DEBT

Short-term Debt

Short-term debt consists of:

Bank loans - Philippine Peso	P	5.9
Trust receipts		564.6
	P	570.5

Trust receipts (TRs) are obtained for the purchase of construction materials for CCDC's and CLC's projects with a weighted average interest rate of 5.8% per annum payable monthly or quarterly in arrears and full payment of principal balance is at maturity of one year with option to prepay or partially pay principal before maturity.

Bank loans, pertain to short-term promissory note (PN) amounting to P5.9 million and P6.9 million as of September 30, 2014 and December 31, 2013, respectively, which was obtained in 2009 from a local bank for CPMI's additional working capital requirements. This was renewed by CPMI each year for the same terms and rates of interest. The PN has a term of one (1) year, the full payment of which is to be made at maturity date at a fixed interest rate of 6.74% per annum (p.a.).

Long-term Debt

Long-term debt consists of:

Subsidiaries:		
Payable under CTS financing	P	1,787.2
Bank loan - Philippine Peso		5,394.8
		7,182.0
Less current portion	(1,269.0)
	P	5,913.0

Payable under CTS financing

In 2014, CPGI, CCDC and CLC also obtained CTS financing from local banks amounting to P3,350.0 million. These loans bear fixed interest rates ranging from 6.0% to 8.5%.

The proceeds of the loans were used in the construction of its real estate projects subject to interest rate ranging from 6.0% to 8.5% per annum. The related promissory notes have terms ranging from thirty-six (36) to forty-eight (48) months and are secured by the buyer's post-dated checks, the corresponding CTS, and parcels of land held by the Company. CCDC and CLC retains the assigned receivables in the "Trade receivables" account and records the proceeds from these sales as "Long-term debt" (see Note 5).

Bank loan – Philippine Peso

In 2014, CCDC obtained loans from local banks amounting to P500.0 million to finance the construction of its projects.

In 2013 and 2012, CCDC obtained loans from local banks amounting to P533.9 million and P606.7 million, respectively to finance the construction costs of its projects at interest rate ranging from 6.25% to 8.5% payable in three to five years. In 2013, CCDC fully paid one of its bank loans.

In 2012, MDC increased their funding requirements to finance the construction of the Milano Residences. MDC obtained a peso-denominated loan from a local bank amounting to P413.4 million with a term of up to five years at interest rate of 10% per annum. In 2013, the Company fully paid the outstanding balance of this loan.

During 2013 and 2012, CLC obtained a peso-denominated loan from a local bank amounting to P322.0 million and P400.0 million, respectively, with terms of two years at interest rate of 1% per annum or the prevailing three month PDST-F on Interest Setting Date plus a credit spread of 3.5% per annum, whichever is higher. Principal repayment is scheduled within two years from and after the date of the initial borrowing, inclusive of a grace period of one year on principal repayment. Additionally in 2012, CLC obtained a P500.0 million secured transferrable term loan facility at interest rate of 2.75% per annum plus bank's cost of funds. Principal payment is scheduled within three years from the date of the agreement.

These bank loans contain negative covenant that the Group's payment of dividend is subject to certain financial ratios.

Also in 2013, CLC obtained additional loans from certain local bank amounting to P722.1 million. This loan bears a fixed interest rate of 9.00% payable within 3 years.

On June 11, 2013, the Parent Company entered into a loan syndication agreement with Standard Chartered Bank (SCB) to finance the planned construction and development of its properties. The loan has a facility agreement up to P4.2 billion. The Company has received the funds with an aggregate amount of P2,860.1 million as of June 30, 2014. The loan syndication agreement is secured by the parcels of land owned by CCDG under various Transfer Certificates of Title and various buildings under projects Century City, Azure Urban Resort Residences and Acqua Private Residences.

Consequently, the Parent Company has incurred transaction costs attributable to the loan syndication agreement totaling P72.3 million. These transactions costs that are directly attributable to the acquisition of the loan syndication agreement are currently deferred and will be recognized over the term of the loan using effective interest rate method when the loan are recognized.

These bank loans contain negative covenant that the Group's payment of dividend is subject to certain financial ratios.

Certain bi-lateral, LCTR and syndicated term loans have mortgaged property wherein such property can no longer allowed to be separately used as collateral for another credit facility, grant loans to directors, officers and partners, and act as guarantor or surety in favor of banks (see Note 7).

Certain bi-laterals have the covenants to include maintenance of a debt-to-equity ratio of not more than 2.33 and 3.0, and a debt service coverage ratio of at least 1.5x. The syndicated term loan has a covenant, specific to the projects it is financing, of having loan to security value of no more than 50% and loan to gross development value of no more than 20%. Security value includes, among other things, valuation appraised by independent appraisers and takes into account the sold and unsold sales / market value of the properties.

Car loan financing

In 2013 and 2012, the Group, through CCDG and CPMI, entered into bank financing agreement for installment payments of its transportation equipment amounting to nil and P4.7 million, respectively. The said assets were acquired under a joint financing plan between the Group and its managerial level employees and are capitalized and depreciated over their EUL of five years. The same transportation equipment is held on chattel mortgage by the bank as security. The loan, which bears interest ranging from 12.21% to 12.88% and payable within (5) years, amounted to nil and P1.13 million as of December 31, 2013 and 2012, respectively.

Bond payable

Bond payable consists of the following:

Three year bond	P	1,187.4
Five-and-half year bond		1,393.5
Seven year bond		119.1
	P	2,700.0

In 2014, CPGI raised P2.7 billion worth of SEC-registered Unsecured Fixed Rate Peso Retail Bonds due on 2 September 2017 for the Three Year Bonds, on 2 March 2020 for the Five-and-half Year Bonds and on 2 September 2021 for the Seven Year Bonds.

The CPGI bonds which were listed at the Philippine Dealing & Exchange Corp. (PDEX) on September 2, 2014, have interest rates of 6% p.a. for the Three Year Bonds, 6.6878% p.a. for the Five-and-a-half Year Bonds, and 6.9758 % p.a. for the Seven Year Bonds. The CPGI Bonds have been rated “AA+” with a Stable outlook by the Credit Rating and Investor Services Philippines Inc. (CRISP). An “AA+” reflects very strong capacity to repay debt obligations.”

Interest Expense

Interest expense recognized during the nine months ended September 30, 2014 for the short-term and long-term debts amounted to P134.70 million.

16. EQUITY

Capital Stock

The details of the Parent Company’s common shares follow:

	<u>2013</u>	<u>2012</u>	<u>2011</u>
Authorized shares	10,000,000,000	10,000,000,000	10,000,000,000
Par value per share	P0.53	P0.53	P0.53
Issued and subscribed shares	9,699,724,027	8,899,724,027	7,566,391,027

Placement and Subscription Agreement between the Parent Company and CPI

On February 18, 2012, the Parent Company entered into a Placement Agreement with CPI, UBS AG (UBS) and Macquarie Capital (Singapore) Pte. Limited (Macquarie) wherein CPI has appointed UBS and Macquarie to offer 1,333,333,000 existing common shares (the Offer Shares) of the Parent Company at P1.75 per share (the Offer Price) outside the United States in reliance on Regulation S under the U.S. Securities Act. On the same day, the Parent Company and CPI entered into a Subscription Agreement wherein CPI has agreed to subscribe for the new common shares to be issued by the Parent Company in an amount equal to the number of the Offer Shares sold by CPI at a price equal to the Offer Price.

On March 5, 2013, the Parent Company entered into a Subscription and Placement Agreement with CPI, Standard Chartered Securities (Singapore) Pte. Limited (Standard Charter) and Macquarie Capital (Singapore) Pte. Limited (Macquarie) wherein CPI has appointed Standard Chartered and Macquarie to offer 800,000,000 existing common shares (the Offer Shares) of the Parent Company at P2.05 per share (the Offer Price) outside the United States in reliance on Regulation S under the U.S. Securities Act. On the same day, the Parent Company and CPI entered into a Subscription Agreement wherein CPI has agreed to subscribe for the new common shares to be issued by the Parent Company in an amount equal to the number of the Offer Shares sold by CPI at a price equal to the Offer Price.

Treasury shares

On January 7, 2013, the BOD of the Parent Company approved a share buyback program for those shareholders who opt to divest of their shareholdings in the Parent Company. A total of P800.0 million worth of shares will be up for buyback for a time period of up to 24 months.

As of September 30, 2014 and December 31, 2013, a total of 16.2 million shares were reacquired at a total cost of P24.7 million.

Retained earnings

Retained earnings include the accumulated equity in undistributed net earnings of consolidated subsidiaries amounting to P3,743.6 million, P2,083.3 million and P321.0 million as of December 31, 2013, 2012 and 2011, respectively. These amounts are not available for dividend declaration until these are declared by the subsidiaries.

On April 30, 2014, the BOD of the Parent Company approved the declaration of P0.02 per share cash dividends amounting to P184.5 million for distribution to the stockholders of the Parent Company of record as of May 15, 2014.

On April 15, 2013, the BOD of the Parent Company approved the declaration of P0.02 per share cash dividends amounting to P184.4 million for distribution to the stockholders of the Parent Company of record as of April 29, 2013. On April 13, 2012, the BOD of the Parent Company approved the declaration of P0.01 cash dividends amounting to P86.4 million for distribution to the stockholders of the Parent Company of record as of April 27, 2012.

On May 16, 2013, the BOD by majority vote approved resolutions for the following corporate acts:

(1) Approval on the increase in capital stock from P5,300.0 million, divided into 10 billion common shares, par value of P0.53 peso per share, to P9,540.0 million divided into 18 billion common shares, par value of P0.53 peso per share;

(2) Approval on the increase in the authorized capital stock of the Parent Company at a price of P0.53 per share or at an aggregate price equivalent to P4,240.0 million and the corresponding payment thereof by way of the declaration of stock dividends equivalent to P2,000.0 million common shares amounting to P1,060.0 million to be taken out of the Parent Company's retained earnings. This amount represents at least the minimum 25% subscribed and paid-up capital for the increase of the authorized capital stock from 10 billion shares to 18 billion common shares with par value of P0.53 per share to be issued as stock dividends to all shareholders as of record date;

(3) that the Chief Financial Officer (CFO), be authorized to fix the total number of shares to be declared as dividends by the Parent Company subject to shareholders' approval on the implementation and distribution date of such dividend shares;

(4) Approval on the authority of the BOD to declare a stock dividend program for all stockholders as of record date subject to the existence of sufficient unrestricted retained earnings; and

(5) Approval of the authority of the CFO to sign, execute any documents or instruments which may be necessary or proper to implement the declaration of stock dividends under such other terms and conditions as provided by law.

On July 1, 2013, at the Annual Stockholders Meeting, the Shareholders of the Parent Company ratified and approved the resolutions as approved by the majority of the BOD at a special meeting on May 16, 2013, by a vote of the Stockholders present in person or by proxy owning at least two thirds (2/3) of the outstanding capital stock.

The shareholders of the Parent Company further approved and consented that the determination of the details of the increase in authorized capital stock and the declaration of stock dividends is delegated to the Management of the Parent Company on the implementation and distribution date of such dividend shares and that the CFO, be authorized to fix the total number of shares to be declared as dividends by the Parent Company.

Given the resolutions approved by both the BOD and stockholders, as of current date, the Management still has to finalize the implementation of stock dividends and such, the process of the increase in capital stock to warrant the declaration of dividends.

Although the amount of dividends was determined and approved by both BOD and stockholders, not all conditions pre-requisites are met by the Parent Company to subject it as a dividend declaration event, there were no actual application to the SEC on the increase in capital stock via stock dividend has been applied for, the necessary SEC Order on the approval of the increase in capital stock and record date has not been satisfied due to the fact that the Parent Company has not yet implemented such increase in capital stock application with the SEC and the Parent Company has not applied for listing of such shares and secure approval from the PSE.

At a special meeting of the Board of Directors held on June 23, 2014, the Board of Directors of Century Properties Group Inc. approved the following resolutions:

(1) Approval of the increase in the authorized capital stock of Century Properties Group Inc. (the "Corporation") from Five Billion Three Hundred Million Pesos (Php5,300,000,000.00), divided into 10,000,000,000 common shares, par value of Php0.53 Peso per share, to Nine Billion Five Hundred Forty Million Pesos (Php9,540,000,000.00) divided into Eighteen Billion 18,000,000,000 common shares with par value of Php0.53 per share

(2) Approval, ratification and confirmation; subject to the consents and approvals, of the increase in the authorized capital stock of the Corporation at a price of Php0.53 per share or at an aggregate price equivalent to Four Billion Two Hundred Forty Million Pesos (Php4,240,000,000.00) and the corresponding payment thereof by way of the declaration of Stock Dividends equivalent to Two Billion (2,000,000,000) common shares amounting to One Billion Sixty Million Pesos (Php1,060,000,000.00) to be taken out of the Corporation's retained earnings. This amount represents at least the minimum 25% subscribed and paid-up capital for the increase of the authorized capital stock from Ten Billion common shares to Eighteen Billion common shares with par value of Php0.53 per share; to be issued as stock dividends to all shareholders as of record date

The aforesaid resolutions were approved by the Stockholders during the Annual Stockholders' Meeting held last July 23, 2014.

Thus, Management intends to address the actual filing of the increase in capital stock, and execute the necessary updated resolutions subject to both the approval of the SEC and PSE.

Equity reserve

Equity reserve amounting to P7.0 million as of December 31, 2013 and 2012, is the difference between the acquisition cost and the adjusted carrying value of the noncontrolling interest in CPMI.

Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong and healthy consolidated statement of financial position to support its current business operations and drive its expansion and growth in the future.

The Group maintains its current capital structure, and will make adjustments, if necessary, in order to generate a reasonable level of returns to shareholders over the long term. No changes were made in the objectives, policies or processes during 2013 and 2012. Equity, which the Group considers as capital, pertains to the equity attributable to equity holders of the Parent Company excluding equity reserve, loss on AFS financial assets and remeasurement loss on defined benefit plan, amounting to a total of P11,501.7 million, P8,283.3 million and P4,334.4 million as of December 31, 2013, 2012 and January 1, 2012, respectively.

The Group is not subject to externally imposed capital requirements.

17. PROVISIONS AND CONTINGENCIES

Some members of the Group are contingently liable for lawsuits or claims filed by third parties (including civil, criminal and administrative lawsuits and other legal actions and proceedings arising in the ordinary course of their business that are pending decision by the relevant court, tribunal or body and the final outcomes of which are not presently determinable). In the opinion of management and its legal counsels, given the present status of these cases, legal actions and proceedings, the eventual liability under these lawsuits or claims in the event adversely determined against such member of the Group, will not have a material or adverse effect on the Group's financial position and results of operations.

The information usually required by PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, is not disclosed on the grounds that it can be expected to prejudice the outcome of these lawsuits, claims or assessments. No provisions were made during the period.

18. FINANCIAL INSTRUMENTS

Fair Value Information

The table below presents the carrying amounts and fair value of the Group's financial assets and liabilities are as follows:

	September 2014		December 2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Loans and receivables				
Cash and cash equivalents	P 2,853.5	P 2,853.5	P 1,438.9	P 1,438.9

Total Financial Assets	P 12,303.8	P 12,303.8	P 10,594.0	P 10,594.0
Other financial liabilities				
Accounts and other payables				
Accounts payable	3,351.6	3,351.6	4,217.2	4,217.2
Accrued expenses	52.7	52.7	142.8	142.8
Payable to MJCI	—	—	151.5	151.5
Retention payable	74.2	74.2	75.8	75.8
Other payables	22.9	22.9	41.9	41.9
Due to related parties	34.1	34.1	31.9	31.9
Short-term debt	573.5	573.5	579.7	579.7
Long-term debt	7,182.0	7,182.0	5,459.4	6,387.5
Bond payable	2,700.0	2,700.0	-	-
Liability from purchased land	30.7	30.7	30.7	30.7
Total Financial Liabilities	P 14,021.7	P 14,021.7	P 10,730.9	P 11,659.0

The methods and assumptions used by the Group in estimating the fair value of the financial instruments are as follows:

Financial assets

Cash and cash equivalents, receivables (excluding real estate receivables with more than one year tenor) and due from related parties - Carrying amounts approximate fair values due to the short term maturities of these instruments.

Noncurrent real estate receivables - Fair value is based on undiscounted value of future cash flows using the prevailing interest rates for similar types of receivables as of the reporting date using the remaining terms of maturity. The discount rate used ranged from 3.20% to 8.00% or the period ending September 30, 2014 and year ended December 31, 2013.

AFS financial assets - Fair values are based on quoted prices published in the market.

Other financial liabilities

The fair values of accounts and other payables, due to related parties and short-term debt approximate the carrying amount due to the short-term maturities of these instruments.

The fair value of long-term debt and liability from purchased land are estimated using the discounted cash flow methodology using the Group's current incremental borrowing rates for similar borrowings with maturities consistent with those remaining for the liability being valued. The discount rates used for long-term debt ranged from 2.50% to 4.44% as of September 30, 2014 and December 31, 2013.

Fair Value Hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of the financial instruments by valuation technique:

Level 1: quoted (unadjusted prices) in active markets for identical assets and liabilities

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

As of September 30, 2014 and December 31, 2013, the Group held AFS financial assets comprising of quoted equity securities which are measured at fair value. Accordingly, such investments are classified under Level 1. The Group has no financial instruments measured under Level 2 and 3. In 2014 and 2013, the Group did not have transfers between Level 1 and 2 fair value measurements and no transfers into and out of Level 3 fair value measurements.

Financial Risk Management Policies and Objectives

The Group has various financial assets and liabilities such as cash, receivables, accounts and other payables and due to related parties, which arise directly from its operations. The Group has availed short-term and long-term debt for financing purposes.

Exposure to credit, interest rate and liquidity risks arise in the normal course of the Group's business activities. The main objectives of the Group's financial risk management are as follows:

- to identify and monitor such risks on an ongoing basis;
- to minimize and mitigate such risks; and
- to provide a degree of certainty about costs.

The Group's BOD reviews and approves the policies for managing each of these risks and they are summarized below:

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group trades only with recognized, creditworthy third parties. The Group's receivables are monitored on an ongoing basis resulting to manageable exposure to bad debts. Real estate buyers are subject to standard credit check procedures which are calibrated based on the payment scheme offered. The Group's respective credit management units conduct a comprehensive credit investigation and evaluation of each buyer to establish creditworthiness.

Receivable balances are being monitored on a regular basis to ensure timely execution of necessary intervention efforts. In addition, the credit risk for real estate receivables is mitigated as the Group has the right to cancel the sales contract without need for any court action and take possession of the subject house in case of refusal by the buyer to pay on time the due installment contracts receivable. This risk is further mitigated because the corresponding title to the subdivision units sold under this arrangement is transferred to the buyers only upon full payment of the contract price.

With respect to credit risk arising from the other financial assets of the Group, which comprise cash and cash equivalents and AFS financial assets, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. The Group transacts only with institutions or banks which have demonstrated financial soundness for the past 5 years.

The Group has no significant concentrations of credit risk.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from either the inability to sell financial assets quickly at their fair values; or the counterparty failing on repayment of a contractual obligation; or inability to generate cash inflows as anticipated.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank loans and advances from related parties. The Group considers its available funds and its liquidity in managing its long-term financial requirements. It matches its projected cash flows to the projected amortization of long-term borrowings. For its short-term funding, the Group's policy is to ensure that there are sufficient operating inflows to match repayments of short-term debt.

Foreign currency risk

Financial assets and credit facilities of the Group, as well as major contracts entered into for the purchase of raw materials, are mainly denominated in Philippine Peso. There are only minimal placements in foreign currencies and the Group does not have any foreign currency-denominated debt. As such, the Group's foreign currency risk is minimal.

Interest rate risk

Interest rate risk is the risk that changes in the market interest rates will reduce the Group's current or future earnings and/or economic value. The Group's interest rate risk management policy centers on reducing the overall interest expense and exposure to changes in interest rates. Changes in market interest rates relate primarily to the Group's interest bearing debt obligations with floating interest rates or rates subject to repricing as it can cause a change in the amount of interest payments.

**Schedule of Financial Soundness Indicators
September 30, 2014 and September 30, 2013**

	As of Sept 30	
	2014	2013
Current Ratio	3.0x	2.6x
Debt to Equity Ratio	0.8x	0.5x
Total Liabilities to Total Equity Ratio	1.4x	1.3x
Asset to Equity Ratio	2.4x	2.3x
	For the nine months ended Sept 30	
	2014	2013
Return on Assets [Annualized]	7.5%	9.5%
Return on Equity [Annualized]	17.5%	21.7%
EBIT	2,414.1	2,367.6
EBITDA	2,447.8	2,407.5
Total Debt	10,452.5	5,451.2
Net Debt	7,599.0	3,663.4
Gross Profit from Real Estate Sales Margin	44.9%	45.5%
Net Income Margin	18.8%	19.6%
Net debt-to-equity ratio	0.6x	0.3x
Debt-to-EBITDA ratio	3.2x	1.7x
Net debt-to-EBITDA ratio	2.3x	1.1x

Notes:

- (1) Return on assets is calculated by dividing net income for the period by average total assets (beginning plus end of the period divided by two).
- (2) Return on equity is calculated by dividing net income for the period by average total equity (beginning plus end of the period divided by two).
- (3) EBIT is calculated as net income after adding back interest expense and provision for income tax. EBITDA is calculated as net income after adding back interest expense, depreciation and amortization and provision for income tax.
- (4) Net debt is calculated as total debt less cash and cash equivalents as of the end of the period.
- (5) Gross profit from real estate sales margin is calculated as the sum of real estate sales and accretion of unamortized discount (which we record under interest and other income), less the cost of real estate sales, as a percentage of the sum of real estate sales and accretion of unamortized discount, for the period. We believe that including accretion of unamortized discount in this calculation is a useful measure of the profitability of our real estate operations because such unamortized discount forms part of the original contract price of the sales contracts.
- (6) Net margin is calculated as net income as a percentage of revenue for the period.
- (7) Net debt-to-equity ratio is calculated as net debt divided by total equity as of the end of the period.
- (8) Debt-to-EBITDA ratio is calculated as total debt as of the end of the period divided by EBITDA for the period calculated on an annualized basis.
- (9) Net debt to EBITDA ratio is calculated as net debt as of the end of the period divided by EBITDA for the period calculated on an annualized basis.
- (10) This ratio is obtained by dividing the Current Assets of the Group by its Current liabilities. This ratio is used as a test of the Group's liquidity.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations covering 3rd Quarter of 2014 vs 3rd Quarter of 2013

Revenue

Real Estate

The Group account for real estate revenue from completed housing and condominium units and lots using the full accrual method. The Group uses the percentage of completion method, on a unit by unit basis, to recognize income from sales where the Group has material obligations under the sales contract to complete after the property is sold. Under this method, revenue is recognize as the related obligations are fulfilled, measured principally in relation to actual costs incurred to date over the total estimated costs. The Group typically requires payment of 20% to 50% of the total contract price, depending on the type of property being purchased, and buyers are given the duration of the construction period to complete such payment.

For the nine months ended September 30, 2014, the Group recorded revenue from real estate sales amounting to P7,230.2 million and posted an increase of 3.7% from P6,973.2 million in the same period of 2013. The increase was due to recognition of more real estate sales pursuant to higher pre-sales, in addition to the policies and estimates pursuant to the collectibility of sales price and the percentage of completion methods. During 2014, Century City buildings reported P2,815.0 million primarily from Knightsbridge, Trump Tower, Spire and Milano Residences including Centuria Medical Tower as compared to P2,606.0 million in the same period of 2013. CLC reported P4,394.1 million of revenue from real estate sales particularly from certain towers of Azure, Aqua and Commonwealth Residences as compared to P3,917.6 million in the same period of 2013. Moreover, CCC has reported P21.1 million of revenue from Canyon Ranch as compared to P449.6 million in same period of 2013.

Interest and Other Income

Interest and other income decreased by 4.8% to P868.0 million for the period ended September 30, 2014 from P912.0 million in the same period ended September 30, 2013. This decrease was due primarily to reduced forfeited collections during the year.

Property management fee and other services

Property management fee and other services increased by 10.0% to P217.3 million in the period ended September 30, 2014 from P197.6 million in the same period ended September 30, 2013. This increase was primarily due to management fee rate escalations for some of the projects under management ranging from 5% to 10%. The number of buildings under management as of September 30, 2014 is 51 as of September 30, 2014.

Leasing Revenue

An increase in leasing revenue by 106.0 million in the period ended September 30, 2014 from nil in the same period ended September 30, 2013 is caused by the start of operation of Century City Mall in the year 2014.

Costs and Expenses

Cost and expenses increased by 7.0% to P6,187.0 million in the nine months ended September 30, 2014 from P5,781.3 million for the period ended September 30, 2013.

- Cost of real estate sales increased by 6.9% from P4,023.1 million in the nine months ended September 30, 2013 to P4,299.1 million in the period ended September 30, 2014. This was primarily due to the corresponding growth in revenue from real estate sales as well as increased in certain components of development costs.
- Cost of services increased by 27.2% to P168.0 million in the nine months ended September 30, 2014 from P132.1 million in the period ended September 30, 2013. This was primarily due to corresponding growth in property management and other service fees.

- General, administrative and selling expenses increased by 1.6% to P1,585.1 million in the nine months ended September 30, 2014 from P1,560.0 million in the period ended September 30, 2013. The increase was primarily due to amortization of deferred marketing expenses.
- Interest and other financing charges increased by 103.8% to P134.7 million for the nine months ended September 30, 2014 from P66.1 million in the period ended September 30, 2013. This was primarily due to bank fees and other financing charges paid other than capitalized borrowing costs during the year.

Provision for Income Tax

Provision for income tax decreased by 4.0% to P687.5 million in the nine months ended September 30, 2014 from P715.9 million in the period ended September 30, 2013 as a result of lower taxable income during the period.

Net Income

As a result of the foregoing, net income increased by 0.4% to P1,591.8 million for the nine months ended September 30, 2014 from P1,585.6 million in the period ended September 30, 2013.

FINANCIAL CONDITION

As of September 30, 2014 vs. December 31, 2013

Total assets as of September 30, 2014 were P30,419.8 million compared to P26,166.0 million as of December 31, 2013, or a 16.3% increase. This was due to the following:

- Cash and cash equivalents increased by P1,414.7 million from P1,438.9 million as of December 31, 2013 to P2,853.5 million as of September 30, 2014 primarily due to issuance of bonds during the period.
- Receivables increased by 2.4% from P9,093.8 million as of December 31, 2013 to P9,229.1 million as of September 30, 2014 due to the revenue recognized during the period pursuant to higher pre-sales, in addition to the policies and estimates pursuant to the collectability of sales price and percentage of completion methods.
- During the nine months ended September 30, 2014, real estate inventories increased by 26.7% from P7,026.9 million as of December 31, 2013 to P8,902.3 million due to development of various projects during the period.
- Investment properties posted an increase of 7.0% to P4,366.8 million as of September 30, 2014 as compared to P4,080.8 million as of December 31, 2013 primarily due to completion of Century City Lifestyle Center and other costs incurred for Forbes and Spire Buildings.

Total liabilities as of September 30, 2014 were P17,579.6 million compared to P14,730.9 million as of December 31, 2013, or a 19.3% increase. This was due to the following:

- Accounts and other payables decreased by 24.4% from P4,629.1 million as of December 31, 2013 to P3,501.4 million as of September 30, 2014 due to payments made to suppliers and contractors during the period.
- Short-term and long-term debt representing the sold portion of the Company's installment contracts receivables with recourse, syndicated loans, and bi-lateral term loans increased by 28.4% from P6,039.1 million as of December 31, 2013 to P7,752.5 million as of September 30, 2014 due to draw down or availments made during the year.
- The Company issued a P2.7 billion bond during the year increasing the total liabilities of the Group.
- Pension liabilities increased by 4.7% from P142.7 million as of December 31, 2013 to P149.4 million as of September 30, 2014 as a result of accrual pension expense during the period.
- Income tax payable increased by P80.3 million from P5.8 million as of December 31, 2013 to P86.2 million as of September 30, 2013 primarily due to primarily due to accrual of income tax payments for the 3rd quarter of 2014.

Total stockholder's equity net increased by 12.3% to P12,840.2 million as of September 30, 2014 from P11,435.1 million as of December 31, 2013 due to the net income recorded for the nine months ended September 30, 2014 net of CPGI's dividend declaration in June 2014 and additional treasury shares during the period.

	As of Sept 30	
	2014	2013
Current Ratio	3.0x	2.6x
Debt to Equity Ratio	0.8x	0.5x
Total Liabilities to Total Equity Ratio	1.4x	1.3x
Asset to Equity Ratio	2.4x	2.3x
	For the nine months ended Sept 30	
	2014	2013
Return on Assets [Annualized]	7.5%	9.5%
Return on Equity [Annualized]	17.5%	21.7%
EBIT	2,414.1	2,367.6
EBITDA	2,447.8	2,407.5

Gross Profit from Real Estate Sales Margin	44.9%	45.5%
Net Income Margin	18.8%	19.6%
Net debt-to-equity ratio	0.6x	0.3x
Debt-to-EBITDA ratio	3.2x	1.7x
Net debt-to-EBITDA ratio	2.3x	1.1x

Notes:

- (1) Return on assets is calculated by dividing net income for the period by average total assets (beginning plus end of the period divided by two).
- (2) Return on equity is calculated by dividing net income for the period by average total equity (beginning plus end of the period divided by two).
- (3) EBIT is calculated as net income after adding back interest expense and provision for income tax. EBITDA is calculated as net income after adding back interest expense, depreciation and amortization and provision for income tax.
- (4) Net debt is calculated as total debt less cash and cash equivalents as of the end of the period.
- (5) Gross profit from real estate sales margin is calculated as the sum of real estate sales and accretion of unamortized discount (which we record under interest and other income), less the cost of real estate sales, as a percentage of the sum of real estate sales and accretion of unamortized discount, for the period. We believe that including accretion of unamortized discount in this calculation is a useful measure of the profitability of our real estate operations because such unamortized discount forms part of the original contract price of the sales contracts.
- (6) Net margin is calculated as net income as a percentage of revenue for the period.
- (7) Net debt-to-equity ratio is calculated as net debt divided by total equity as of the end of the period.
- (8) Debt-to-EBITDA ratio is calculated as total debt as of the end of the period divided by EBITDA for the period calculated on an annualized basis.
- (9) Net debt to EBITDA ratio is calculated as net debt as of the end of the period divided by EBITDA for the period calculated on an annualized basis.
- (10) This ratio is obtained by dividing the Current Assets of the Group by its Current liabilities. This ratio is used as a test of the Group's liquidity.

Material Changes to the Company's Balance Sheet as of September 30, 2014 compared to December 31, 2013 (increase/decrease of 5% or more)

Cash and cash equivalents increased by P1,414.7 million from P1,438.9 million as of December 31, 2013 to P2,853.5 million as of September 30, 2014 primarily due to issuance of bonds during the period.

During the nine months ended September 30, 2014, real estate inventories increased by 26.7% from P7,026.9 million as of December 31, 2013 to P8,902.3 million due to development of various projects during the period.

Advances to suppliers and contractors decreased by 52.2% to P629.1 million as of September 30, 2014 from P1,314.9 million as of December 31, 2013 primarily due to reclassification of advances to suppliers and contractors to real estate inventory.

Derivative assets increased by 149.1% due to valuation gain recognized during the period.

Prepayments and other current assets increased by 45.0% from P1,265.9 million as of December 31, 2013 to P1,834.9 million as of September 30, 2014 due to additional deferrals of marketing expenses and higher input taxes recognized during the nine months period.

As of September 30, 2014, the Company invested in A2 Global, Inc. amounting to P164.7 million which increased by 237.7% from P48.8 million as of December 31, 2013. In addition to the investment made by the Company to A2 Global, Inc., the Company's deposits for land acquisitions increased by 149.1% to P384.9 million as of September 30, 2014 from P154.5 million as of December 31, 2013.

Investment properties posted an increase of 7.0% to P4,366.8 million as of September 30, 2014 as compared to P4,080.8 million as of December 31, 2013 primarily due to completion of Century City Lifestyle Center and other costs incurred for Forbes and Spire Buildings.

Property and equipment accounts decreased by 21.8% from P157.8 million as of December 31, 2013 to P123.3 million as of September 30, 2014 primarily due to depreciation recognized during the period.

As of September 30, 2014, intangible assets account increased by 104.0% to P36.7 million from P18.0 million as of December 31, 2013 due to acquisition of certain software and trademarks.

Other non-current assets increased by 39.9% from P758.1 million as of December 31, 2013 to P1,060.5 million as of September 30, 2014 due to rentals and other security deposits made during the year as well non-current portion of deferred marketing expenses for newly launched projects with no percentage-of-completion as of September 30, 2014.

Accounts and other payables decreased by 24.4% from P4,629.1 million as of December 31, 2013 to P3,501.4 million as of September 30, 2014 due to payments made to suppliers and contractors during the period

Customers' advances and deposits decreased by 41.7% from P2,222.7 million to P1,296.6 million since certain accounts qualified to revenue recognition during the period. Balances as of September 30, 2014 represents collection from customers which do not meet the revenue recognition criteria as of the end of the period.

Short-term and long-term debt representing the sold portion of the Company's installment contracts receivables with recourse, syndicated loans, and bi-lateral term loans increased by 28.4% from P6,039.1 million as of December 31, 2013 to P7,752.5 million as of September 30, 2014 due to draw down or availments made during the year.

The Company issued a P2.7 billion bond during the year increasing the total liabilities of the Group.

Income tax payable increased by P80.3 million from P5.8 million as of December 31, 2013 to P86.2 million as of September 30, 2013 primarily due to primarily due to accrual of income tax payments for the 3rd quarter of 2014.

Deferred tax liabilities (net of deferred tax assets) increased by 25.0% from P1,504.1 million as of December 31, 2013 to P1,879.3 million as of September 30, 2014 due to additional future taxable items during the period.

Total stockholder's equity net increased by 12.3% to P12,840.2 million as of September 30, 2014 from P11,435.0 million as of December 31, 2013 due to the net income recorded for the nine months ended September 30, 2014 net of CPGI's dividend declaration in June 2014 and additional treasury shares during the period.

Material Changes to the Company's Statement of income for the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013 (increase/decrease of 5% or more)

For the nine months ended September 30, 2014, the Group recorded revenue from real estate sales amounting to P7,230.2 million and posted an increase of 3.7% from P6,973.2 million in the same period of 2013. The increase was due to recognition of more real estate sales pursuant to higher pre-sales, in addition to the policies and estimates pursuant to the collectibility of sales price and the percentage of completion methods. During 2014, Century City buildings reported P2,815.0 million primarily from Knightsbridge, Trump Tower and Milano Residences including Centuria Medical Tower as compared to P2,606.0 million in the same period of 2013. CLC reported P4,394.1 million of revenue from real estate sales particularly from certain towers of Azure, Aqua and Commonwealth Residences as compared to P3,917.6 million in the same period of 2013. Moreover, CCC has reported P21.1 million of revenue from Canyon Ranch as compared to P449.6 million in same period of 2013.

An increase in leasing revenue by 106.0 million in the period ended September 30, 2014 from nil in the same period ended September 30, 2013 is caused by the start of operation of Century City Mall in the year 2014.

Property management fee and other services increased by 10.0% to P217.3 million in the period ended September 30, 2014 from P197.6 million in the same period ended September 30, 2013. This increase was primarily due to management fee rate escalations for some of the projects under management ranging from 5% to 10%. The number of buildings under management as of September 30, 2014 is 51 as of September 30, 2014.

Cost of real estate sales increased by 6.9% from P4,023.1 million in the nine months ended September 30, 2013 to P4,299.1 million in the period ended September 30, 2014. This was primarily due to the corresponding growth in revenue from real estate sales as well as increased in certain components of development costs.

Cost of services increased by 27.2% to P168.0 million in the nine months ended September 30, 2014 from P132.1 million in the period ended September 30, 2013. This was primarily due to corresponding growth in property management and other service fees.

Interest and other financing charges increased by 103.8% to P134.7 million for the nine months ended September 30, 2014 from P66.1 million in the period ended September 30, 2013. This was primarily due to bank fees and other financing charges paid other than capitalized borrowing costs during the year.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations covering 3rd Quarter of 2013 vs 3rd Quarter of 2012

Revenues

Real Estate

The Group account for real estate revenue from completed housing and condominium units and lots using the full accrual method. The Group uses the percentage of completion method, on a unit by unit basis, to recognize income from sales where the Group has material obligations under the sales contract to complete after the property is sold. Under this method, revenue is recognize as the related obligations are fulfilled, measured principally in relation to actual costs incurred to date over the total estimated costs. The Group requires payment of 20% to 60% of the total contract price, depending on the type of property being purchased, and buyers are given the duration of the construction period to complete such payment. In determining whether the sales prices are collectible, the Group considers that initial and continuing investments by the buyer of about 10% would demonstrate the buyer's commitment to pay.

For the nine months ended September 30, 2013, the Group recorded revenue from real estate sales amounting to P6,973.2 million and posted an increase of 6.6% from P6,544.0 million in the same period of 2012. The increase was due to recognition of more real estate sales pursuant to higher pre-sales, in addition to the policies and estimates pursuant to the collectibility of sales price and the percentage of completion methods. During 2013, Century City buildings reported P2,606.0 million primarily from Knightsbridge, Trump Tower and Milano Residences including Centuria Medical Tower as compared to P3,515.0 million in the same period of 2012. CLC reported P3,917.6 million of revenue from real estate sales particularly from certain towers of Azure, Aqua and Commonwealth Residences as compared to P2,951.4 million in the same period of 2012. Moreover, CCC has reported P449.6 million of revenue from Canyon Ranch as compared to P72.8 million in same period of 2012.

Interest and Other Income

Interest and other income increased by 74.8% to P912.0 million in the nine months ended September 30, 2013 from P521.8 million for the period ended September 30, 2012. This increase was due primarily to non-cash accretion of unamortized discounts reflecting increased sales in the period and the increase in cumulative sales and collections from prior periods..

Property management fee and other services

Property management fee and other services increased by 25.9% to P197.6 million in the nine months ended September 30, 2013 from P157.0 million for the period ended September 30, 2012. This increase was primarily due to management fee rate escalations for some of the projects under management ranging from 5% to 10%. The number of buildings under management as of September 30, 2013 is 53.

Costs and Expenses

Cost and expenses increased by 8.1% to P5,781.3 million in the nine months ended September 30, 2013 from P5,350.3 million for the period ended September 30, 2012.

- Cost of real estate sales increased by 3.9% from P3,872.2 million in the nine months ended September 30, 2012 to P4,023.1 million in the period ended September 30, 2013. This was primarily due to the corresponding growth in revenue from real estate sales.
- Cost of services increased by 14.2% to P132.1 million in the nine months ended September 30, 2013 from P115.7 million in the period ended September 30, 2012. This was primarily related to incremental revenues in 2013.

- General, administrative and selling expenses increased by 17.7% to P1,560.0 million in the nine months ended September 30, 2013 from P1,325.9 million in the period ended September 30, 2012. The increase was primarily due to amortization of deferred marketing expenses of launched projects with no percentage-of-completion as of September 30, 2012 and those incurred by the projects during the period ended September 30, 2013.
- Interest and other financing charges increased by 81.1% to P66.1 million in the nine months ended September 30, 2013 from P36.5 million in the period ended September 30, 2012. This was primarily due to financing charges on new project level debt raised during the period.

Provision for Income Tax

Provision for income tax increased by 55.3% to P715.9 million in the nine months ended September 30, 2013 from P460.9 million in the period ended September 30, 2012. The increase was primarily due to collections on new sales during the period as well as from amortization of accounts sold in previous periods. Also, most of company's BOI exempt accounts from Rio and Santorini buildings were already declared in previous period.

Net Income

As a result of the foregoing, net income increased by 12.3% from P1,411.6 million in the nine months ended September 30, 2012 to P1,585.6 million in the period ended September 30, 2013.

Financial Condition as of June 30, 2013 vs December 31, 2012

Total assets as of September 30, 2013 were P25,724.6 million compared to P18,579.3 million as of December 31, 2012, or a 38.5% increase. This was due to the following:

- Cash and cash equivalents including short term and long-term cash investments increased by P886.0 million from P901.8 million as of December 31, 2012 to P1,787.8 million as of September 30, 2013 primarily due to receipt of proceeds from the Placing and Subscription Transaction and short-term and long-term debt.
- Receivables increased by 30.3% from P6,813.3 million to P8,875.3 million primarily due to the revenue recognized during the period.
- During the period ended September 30, 2013, Real estate inventories increased by 55.5% from P3,951.8 million to P6,144.6 million due to developments of various projects during the period.

Total liabilities as of September 30, 2013 were P14,499.4 million as compared to P10,313.1 million as of December 31, 2012. This was due to the following

- Accounts and other payables increased by 94.5% from P2,868.9 million as of December 31, 2012 to P5,579.3 million as of September 30, 2013 due to accruals made at the end of the period.
- Customers' advances and deposits decreased by 34.8% from P2,288.4 million to P1,491.6 million since certain accounts qualified to revenue recognition during the period. Balances as of September 30, 2013, represent collections from customers which do not meet the revenue recognition criteria as of end of the period.
- Short-term and long-term debt representing the sold portion of the Company's installment contracts receivables with recourse, LCTRs and term loans, increased by 48.9% from P3,661.0 million as of December 31, 2012 to P5,451.2 million as of September 30, 2013 due to draw down or availments made during the period.
- Income tax payable increased by 37.5% from P98.1 million as of December 31, 2012 to P134.9 million as of September 30, 2013 primarily due to higher taxable income during the nine months ended September 30, 2013 as compared to full year 2012.

Total stockholder's equity net increased by 35.8% to P11,225.3 million as of September 30, 2013 from P8,266.2 million as of December 31, 2012 due to issuance of new shares and the net income recorded for the nine months ended September 30, 2013.

	As of September 30	
	2013	2012
Current Ratio	2.6x	2.4x
Debt to Equity Ratio	0.5x	0.2x
Asset to Equity Ratio	2.3x	2.2x
	For the nine months ended	
	2013	2012
Return on Assets (Annualized)	9.5%	13.8%
Return on Equity (Annualized)	21.7%	30.9%
EBIT	2,367.6	1,909.0
EBITDA	2,407.5	1,932.3
Total Debt	5,451.2	2,802.3
Net Debt	3,663.4	1,602.5
Gross Profit from Real Estate Sales Margin	45.5%	43.1%
Net Income Margin	19.6%	19.1%
Net debt-to-equity ratio	0.3x	0.1x
Debt-to-EBITDA ratio	1.7x	0.7x
Net debt-to-EBITDA ratio	1.1x	0.4x

Notes:

- (1) Return on assets is calculated by dividing net income for the period by average total assets (beginning plus end of the period divided by two).
- (2) Return on equity is calculated by dividing net income for the period by average total equity (beginning plus end of the period divided by two).
- (3) EBIT is calculated as net income after adding back interest expense and provision for income tax. EBITDA is calculated as net income after adding back interest expense, depreciation and amortization and provision for income tax.
- (4) Net debt is calculated as total debt less cash and cash equivalents as of the end of the period.
- (5) Gross profit from real estate sales margin is calculated as the sum of real estate sales and accretion of unamortized discount (which we record under interest and other income), less the cost of real estate sales, as a percentage of the sum of real estate sales and accretion of unamortized discount, for the period. We believe that including accretion of unamortized discount in this calculation is a useful measure of the profitability of our real estate operations because such unamortized discount forms part of the original contract price of the sales contracts.
- (6) Net margin is calculated as net income as a percentage of revenue for the period.
- (7) Net debt-to-equity ratio is calculated as net debt divided by total equity as of the end of the period.
- (8) Debt-to-EBITDA ratio is calculated as total debt as of the end of the period divided by EBITDA for the period calculated on an annualized basis.
- (9) Net debt to EBITDA ratio is calculated as net debt as of the end of the period divided by EBITDA for the period calculated on an annualized basis.
- (10) This ratio is obtained by dividing the Current Assets of the Group by its Current liabilities. This ratio is used as a test of the Group's liquidity.

Material Changes to the Company's Balance Sheet as of June 30, 2013 compared to December 31, 2012 (increase/decrease of 5% or more)

Cash and cash equivalents including short term and long-term cash investments increased by P886.0 million from P901.8 million as of December 31, 2012 to P1,787.8 million as of September 30, 2013 primarily due to receipt of proceeds from the Placing and Subscription Transaction and short-term and long-term debt.

Receivables increased by 30.3% from P6,813.3 million to P8,875.3 million primarily due to the revenue recognized during the period.

During the period ended September 30, 2013, Real estate inventories increased by 55.5% from P3,951.8 million to P6,144.6 million due to developments of various projects during the period.

Advances to suppliers and contractors increased by 21.9% from P925.3 million as of December 31, 2012 to P1,127.7 million as of September 30, 2013 primarily due to advances made by the Group to its suppliers and contractors at the end of the period.

Prepayments and other current assets increased by 51.4% from P2,387.0 million to P3,615.0 million due to payment of creditable withholding taxes, advances to lot owners and deferral of certain marketing expenses of newly launched projects with no percentage-of-completion as of September 30, 2013.

Investment properties increased by 28.8% from P1,920.1 million as of December 31, 2012 to P2,472.5 million due to improvements made during the period.

Other non-current assets increased by 127.5% from P25.1 million as of December 31, 2012 to P57.1 million due to deferred borrowing costs capitalized during the period.

Accounts and other payables increased by 94.5% from P2,868.9 million as of December 31, 2012 to P5,579.3 million as of September 30, 2013 due to accruals made at the end of the period.

Customers' advances and deposits decreased by 34.8% from P2,288.4 million to P1,491.6 million since certain accounts qualified to revenue recognition during the period. Balances as of September 30, 2013, represent collections from customers which do not meet the revenue recognition criteria as of end of the period.

Short-term and long-term debt representing the sold portion of the Company's installment contracts receivables with recourse, LCTRs and term loans, increased by 48.9% from P3,661.0 million as of December 31, 2012 to P5,451.2 million as of September 30, 2013 due to draw down or availments made during the period.

Income tax payable increased by 37.5% from P98.1 million as of December 31, 2012 to P134.9 million as of September 30, 2013 primarily due to higher taxable income during the nine months ended September 30, 2013 as compared to full year 2012.

Total stockholder's equity net increased by 35.8% to P11,225.3 million as of September 30, 2013 from P8,266.2 million as of December 31, 2012 due to issuance of new shares and the net income recorded for the nine months ended September 30, 2013.

Material Changes to the Company's Statement of income for the 3rd quarter ended September 30, 2013 compared to the 3rd quarter ended September 30, 2012 (increase/decrease of 5% or more)

Revenue from real estate sales amounting to 6,973.2 million for the nine months ended September 30, 2013 an increase of 6.6% from P 6,544.0 million in same period last year. Movement in this period's revenue was due primarily to full completion of Gramercy, Rio and Santorini and significant construction accomplishments of The Knightsbridge Residences, The Milano Residences, Centuria Medial Building, and the St. Tropez, Miami, Positano, Maldives and Maui Buildings in Azure Urban Resort Residences, Niagara, Sutherland Dettifoss and Livingstone Buildings of Acqua Private Residences; as well as Osmeña West, Quezon North and Osmeña East of Commonwealth Residences and Canyon Ranch.

Interest and other income increased by 74.8% to P912.0 million in the nine months ended September 30, 2013 from P521.8 million for the period ended September 30, 2012. This increase was due primarily to non-cash accretion of unamortized discounts reflecting increased sales in the period and the increase in cumulative sales and collections from prior periods.

Property management fee and other services increased by 25.9% to P197.6 million in the nine months ended September 30, 2013 from P157.0 million for the period ended September 30, 2012. This increase was primarily due to management fee rate escalations for some of the projects under management ranging from 5% to 10%.

Cost of real estate sales increased by 3.9% from P3,872.2 million in the nine months ended September 30, 2012 to P4,023.1 million in the period ended September 30, 2013. This was primarily due to the corresponding growth in revenue from real estate sales.

Cost of services increased by 14.2% to P132.1 million in the nine months ended September 30, 2013 from P115.7 million in the period ended September 30, 2012. This was primarily related to incremental revenues in 2013.

General, administrative and selling expenses increased by 17.7% to P1,560.0 million in the nine months ended September 30, 2013 from P1,325.9 million in the period ended September 30, 2012. The increase was primarily due to amortization of deferred marketing expenses of launched projects with no percentage-of-completion as of September 30, 2012 and those incurred by the projects during the period ended September 30, 2013.

Interest and other financing charges increased by 81.1% to P66.1 million in the nine months ended September 30, 2013 from P36.5 million in the period ended September 30, 2012. This was primarily due to financing charges on new project level debt raised during the period.

Provision for income tax increased by 55.3% to P715.9 million in the nine months ended September 30, 2013 from P460.9 million in the period ended September 30, 2012. The increase was primarily due to collections on new sales during the period as well as from amortization of accounts sold in previous periods. Also, most of company's BOI exempt accounts from Rio and Santorini buildings were already declared in previous period.

There are no other material changes in the Group's financial position (changes of 5% or more) and condition that will warrant a more detailed discussion. Further, there are no material events and uncertainties known to management that would impact or change reported financial information and condition on the Group. The Subsidiaries are contingently liable for guarantees arising in the ordinary course of business, including surety bonds, letters of guarantee for performance and bonds for all its real estate projects.

The Group is contingently liable with respect to certain lawsuits or claims filed by third parties (substantially civil cases that are either pending decision by the courts or are under negotiation, the outcomes of which are not presently determinable). In the opinion of management and its legal counsels, the eventual liability under these lawsuits or claims, if any, will not have a material or adverse effect on the Group's financial position and results of operations.

There are no known trends or demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in increasing or decreasing the Group's liquidity in any material way. The Group sourced its capital requirements through a mix of internally generated cash and pre-selling. The Group does not expect any material cash requirements beyond the normal course of the business. The Group is not in default or breach of any note, loan, lease or other indebtedness or financing arrangement requiring it to make payments.

There are no events that will trigger direct or contingent financial obligation that is material to the Group, including any default or acceleration of an obligation except for those items disclosed in the 3rd Quarter of 2014 Financial Statements.

There are no material off-balance sheet transactions, arrangements, obligation (including contingent obligations), or other relationships of the Group with unconsolidated entities or other persons created during the reporting period except those disclosed in the 3rd Quarter of 2014 Financial Statements.

There are no material commitments for capital expenditures, events or uncertainties that have had or that are reasonably expected to have a material impact on the continuing operations of the Group.

There were no seasonal aspects that had a material effect on the financial condition or results of operations of the Group.

There are no explanatory comments on the seasonality of the operations. There are no material events subsequent to the end of the fiscal period that have not been reflected in the financial statements.

There are no material amounts affecting assets, liabilities, equity, net income or cash flows that are unusual in nature; neither are there changes in estimates of amounts reported in a prior period of the current financial year.

COMMITMENTS AND CONTINGENCIES

The Parent Company's subsidiaries are contingently liable for guarantees arising in the ordinary course of business, including surety bonds, letters of guarantee for performance and bonds for its entire real estate project.

PART II--OTHER INFORMATION

Item 3. 3rd Quarter of 2014 Developments

A. New Projects or Investments in another line of business or corporation.

None

B. Composition of Board of Directors

Name of Director	Position
Jose E.B. Antonio	Chairman of the Board
John Victor R. Antonio	Director
Jose Marco R. Antonio	Director
Jose Roberto R. Antonio	Director
Jose Carlo R. Antonio	Director
Ricardo Cuerva	Director
Rafael G. Yaptinchay	Director
Washington Z. Sycip	Independent Director
Monico V. Jacob	Independent Director

C. Performance of the corporation or result/progress of operations.

Please see unaudited Financial Statements and Management's Discussion and Analysis.

D. Declaration of Dividends.

The Company declared dividends amounting to Php184,471,576 for all shareholders as of record date: May 15, 2014 for P0.019046 per share. Distribution of dividends was made on June 05, 2014

E. Contracts of merger, consolidation or joint venture; contract of management, licensing, marketing, distributorship, technical assistance or similar agreements.

None

F. Offering of rights, granting of Stock Options and corresponding plans thereof.

None

G. Acquisition of additional mining claims or other capital assets or patents, formula, real estate.

Not Applicable

H. Other information, material events or happenings that may have affected or may affect market price of security.

None.

I. Transferring of assets, except in normal course of business.

None.

Item 4. Other Notes as of 3rd Quarter of 2014 Operations and Financials.

J. Nature and amount of items affecting assets, liabilities, equity, net income, or cash flows that is unusual because of their nature, size, or incidents.

None.

K. Nature and amount of changes in estimates of amounts reported in prior periods and their material effect in the current period.

There were no changes in estimates of amounts reported in prior interim period or prior financial years that have a material effect in the current interim period.

L. New financing through loans/ issuances, repurchases and repayments of debt and equity securities.

See Notes to Financial Statements and Management Discussion and Analysis.

M. Material events to the end of the interim period that have not been reflected in the financial statements for the interim period.

None

N. The effect of changes in the composition of the issuer during the interim period including business combinations, acquisition or disposal of subsidiaries and long term investments, restructurings, and discontinuing operations.

None

O. Changes in contingent liabilities or contingent assets since the last annual statement of financial position date.

None

P. Existence of material contingencies and other material events or transactions during the interim period

None.

Q. Events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation.

None

R. Material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the company with unconsolidated entities or other persons created during the reporting period.

None.

S. Material commitments for capital expenditures, general purpose and expected sources of funds.

The movement of capital expenditures being contracted arose from the regular land development and construction requirements.

T. Known trends, events or uncertainties that have had or that are reasonably expected to have impact on sales/revenues/income from continuing operations.

As of September 30, 2014, there are no known trends, events or uncertainties that are reasonably expected to have impact on sales/revenues/income from continuing operations except for those being disclosed in the 3rd Quarter of 2014 financial statements.

U. Significant elements of income or loss that did not arise from continuing operations.

None.

V. Causes for any material change/s from period to period in one or more line items of the financial statements.

See Notes to Financial Statements and Management Discussion and Analysis (MD&A) as material changes are described in detail in the MD&A section

W. Seasonal aspects that had material effect on the financial condition or results of operations.

None.

X. Disclosures not made under SEC Form 17-C.

None.
