

Century Properties: Enhanced living and groundbreaking developments

The strong macroeconomic fundamentals have brought a consistent growth with an average of 6 percent in the country's GDP.

The two legs of economy, namely, the remittances of overseas Filipinos and the information-technology business-process management (IT-BPM), have a major role in the growth. The booming economy has resulted to higher disposable income of Filipinos, which, in turn, enable working-class Filipinos to acquire a home that will provide not only security and convenience but investment, as well.

To address the different needs and requirements of buyers, concept residential developments, such as Century Properties's Azure Urban Resort Residences, the Residences at Azure North and The Residences at Commonwealth in Quezon City, offer premium value with their arrays of topnotch features and topnotch amenities.

Staycation at Azure Urban Resort Residences

If you are a beach lover, you don't have to brave the monstrous traffic and travel far to enjoy beachside living 365 days in a year. Century Properties's Azure Urban Resort Residences provides the market with the ultimate staycation. The 6-hectare community in Parañaque City offers world-class beach-resort living to its residents, thanks to its tropical-inspired amenities and exceptional features.

By investing in Azure Urban Resort Residences also makes good business sense. Rather than splurge on a swanky resort club, unit owners can experience the same resort lifestyle courtesy of Azure's man-made beach club complete with fine sand, a 25-meter lap pool, a wave pool and cascading waterfalls.

Complementing Azure's tropical-themed lifestyle is the stunning Paris Beach Club—a three-level amenity area designed by international style icon Paris Hilton.

The kidney-shaped beach club offers residents a whole new level of world-class entertainment, relaxation and dining experience. Among the wide range of facilities that make for a heightened resort living is the Paris Beach Bar, an indoor restaurant, a fitness studio, a movie room, children's play center, a game area and a spa. With a unit in Azure Urban Resort Residences, a resident can enjoy these lifetime experiences without any hassle.

If you're from the north (like Jon Snow) and plans to stay there for the long haul, Century Properties has the Azure North for San Fernando, Pampanga, residents. It has same beach-oriented lifestyle with its equally lovely counterpart in Parañaque City. Comprising of seven residential towers, the 8-hectare beach has man-made beach, a wave pool, a lap pool, a reflecting pool, kiddie pool and a pool bar—a privilege that unit owners can enjoy within the development.

Furthermore, Azure North's other amenities are the intricately designed multilevel beach club, spacious multipurpose event space and a retail area.

A lifestyle suited for growth and well-being

For individuals who prefer to have a more laid-back lifestyle, Century Properties's Residences at Commonwealth is the ideal place to settle in.

Located in the sloping terrain of Don Antonio Drive in Quezon City, the 2.4-hectare residential development offers the convenience and accessibility to key locations. Moreover, it also supports a healthy and holistic lifestyle. Its well-planned-out indoor and outdoor amenities were developed to nurture and encourage interests and pursuits of the residents.

The core of Residences at Commonwealth's development is a well-designed, multilevel amenity area that houses the fitness center, a basketball and badminton court, an athletic boot camp, an arts and crafts studio, a cooking studio and kitchen, study and library, screening room, yoga and Pilates deck and a kindergarten—all built for residents to enjoy and foster different recreational pursuits.

Furthermore, it has the Orchard, an outdoor playground consisting of three apple-shaped tree houses featuring a series of ladders, ropes and slides where kids and can frolic and interact with each other.

Interestingly, the project gives you a taste of some history as the eight midrise buildings of the project are named after the presidents of the Commonwealth era. The Residences at Commonwealth also offers spacious living spaces and balconies, and a scenic view of Quezon City and the Rizal mountains.
