Structural and masonry works reach the 50th floor of Century Spire; curtain wall installation now on the 25th floor

As of January 2020, structural works at Century Spire are already on the 50th floor. Interior masonry, plumbing and electrical works are in progress.

The curtain wall of Century Spire is being installed by Jangho Curtain Wall Co. Ltd. The top international façade contractor, which has worked on the curtain wall systems of the Marina Bay Sands Integrated Resort, The Land Mark of Abu Dhabi, and Saudi Arabia's tallest tower, CMA, is installing 33,594 square meters of Unitized and Semi-unitized Curtain Wall System with Insulated Glass Units, and a Storefront Curtain Wall System with glass canopies at the Ground level.

The installation of steel brackets and curtain wall panels in Century Spire have reached the 25th floor. The target is to finish the midlevel by the second quarter of 2020.

Century Spire is developed by Century City Development Corporation under Century Properties Group, Inc. and is located within the masterplanned community of premium high rises in Century City, Kalayaan Avenue, Makati City.
