NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. CORPORATE INFORMATION

Century Properties Group Inc. (the Parent Company or CPGI), a publicly-listed company, was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on May 6, 1975. The Parent Company is a 63.59%-owned subsidiary of Century Properties Inc. (CPI) and the rest by the public. The Group is primarily engaged in the development and construction of residential and commercial real estate projects.

The registered office address of the Parent Company is 21st Floor Pacific Star Building, Sen. Gil Puyat corner Makati Avenue, Makati City.

The Parent Company and its subsidiaries are collectively referred to herein as the “Group”.

1.2 RECENT TRANSACTIONS

Completion of Asian Century Center

In the fourth quarter of 2018, CPG completed its first office building in BGC, Asian Century Center. The project was launched in partnership with Asian Carmakers Corporation. The 21-storey office building will add 29,628 leasable area to CPG’s portfolio is about 70% leased as of December 31, 2018. The building is PEZA accredited and meets its strict requirements of 100-percent power backup provision for high-speed internet and infrastructure, and a building management system.

The tower has been pre-certified for the core and shell rating of LEED (or the Leadership in Energy and Environmental Design), a globally recognized green building and sustainability certification system. Precertification is awarded to projects with achievable sustainable targets that demonstrate the project’s commitment to LEED certification. Asian Century Center is working towards a LEED Silver status.

Signing of Memorandum of Agreement with Global Development Development Corp.

On January 9, Global Gateway Development Corp. (GGDC) and Century Properties Group, Inc. (CPGI) signed a memorandum of agreement (MOA) to create a Joint Venture (JV) that will develop 2.6 hectares of the 177-hectare Clark Global City into a mix of residential and office buildings. Global Gateway Development Corp. is the owner and developer of Clark Global City. It is a wholly owned subsidiary of Udenna Development (UDEVCO) Corp., the real estate and property development arm of one of the fastest growing holding companies in the Philippines Udenna Corporation.

The MOA provides for mixed use development, i.e. residential and office buildings with support retail establishments. This project will be CPGI’s first development in Clark, a former military base currently being transformed into the country’s next big metropolis and primed as the answer to Metro Manila’s congestion. CPGI is banking on the phenomenal growth of Central Luzon, which has the highest number of occupied housing units; and also Clark, which has emerged as the second largest market for office after Metro Manila.

Situated within the Clark Freeport Zone, the development offers an ideal regulatory, economic and operating environment. It is also poised to benefit from various public infrastructure projects such as the expansion of the Clark International Airport, NLEX-SLEX Connector Road, Subic-Clark Cargo Railway and PNR North Railway.

Launch of Phirst Park Homes, Inc.

On September 20, 2018, Century Properties Group Inc. (CPGI) and the global business enterprise Mitsubishi Corporation launched the newly-formed joint venture company PHirst Park Homes, Inc. (PPHI) at the Shangri-La Hotel in Fort Bonifacio and announced its plans to cater to the broader market of first homebuyers by rolling out 33,000 units in key locations outside of Metro Manila with an estimated sales value of P57 billion. The joint venture company is 60 percent and 40 percent owned by CPG and Mitsubishi, respectively.

PPHI will launch 15 masterplanned communities in Calabarzon and Central Luzon within the next 5 years. These new launches will entail capital expenditures of approximately P28 billion, of which P11 billion will be spent in the first 5 years. The company is also eyeing expansion into the Visayas and Mindanao regions once it has established technical and market scale.

PHirst Park Homes Homevisions once it has established technical and market scale. In Tanza, Cavite, which has already sold out its first phase with 1,200 units valued at approximately Php1.4 billion. In June 2018, the company also launched PHirst Park Homes Lipa, a 20-hectare development in Lipa City, Batangas with 1,867 units valued at Php2.8 billion.

PHirst Park Homes, Inc. (PPHI)	60	60	–

*non-operating CCDC subsidiaries

**formerly Century Properties Hotel and Leisure Inc. (CPHLI)

On August 31, 2018, PPHI was incorporated by the Parent Company and Mitsubishi Corporation (MC) for 60% and 40% ownership interests, respectively (see Note 20). The primary purpose of PPHI is to engage in real estate development.

On July 20, 2018, KPDC was incorporated by CLC, a wholly-owned subsidiary of the Parent Company, and TCG Holdings, Inc. (THI) for 60% and 40% ownership interests, respectively (see Note 20). The primary purpose of KPDC is to engage in real estate development. KPDC has not yet started commercial operations.

On February 2, 2018, PPHDC, a wholly owned subsidiary of CLC, was incorporated. PPHDC was organized primarily to engage in real estate development.

On October 14, 2016, TPI I, TPI II and TPI III were incorporated as wholly owned subsidiaries of CPGI. On December 30, 2016, CPGI assigned all its interest to the aforementioned companies to CLC (see Note 20).

On September 19, 2016, SCMC, was incorporated as a wholly owned subsidiary of CPMI. SCMC was organized primarily to provide professional leasing and management services to real estate properties such as building, office space, commercial lots and other related structures whether for commercial or industrial purpose except financial leasing.

On September 23, 2014, the BOD approved the cessation of operations of the non-operating CCDC subsidiaries. On the same date, the BOD approved the dissolution of these subsidiaries. Accordingly, these subsidiaries changed their basis of accounting from a going concern basis to a liquidation basis. Final dissolution will take place after the approval of the subsidiaries' application with the Bureau of Internal Revenue (BIR). As of December 31, 2018, the subsidiaries have not yet filed their application for dissolution with the BIR.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed during the year are included or excluded in the consolidated financial statements from the date the Group gains control or until the date the Group ceases to control the subsidiary.

The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company, using consistent accounting policies. All intra-group balances, transactions, unrealized gains and losses resulting from intra-group transactions and dividends are eliminated in full.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary, the carrying amount of any non-controlling interests (NCI) and the cumulative translation differences recorded in equity.
- Recognizes the fair value of the consideration received, the fair value of any investment retained and any surplus or deficit in profit or loss.
- Reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate.

Adoption of New and Amended Accounting Standards and Interpretations

The accounting policies adopted are consistent with those of the previous financial year, except that the Group has adopted the following new accounting pronouncements starting January 1, 2019. Unless otherwise indicated, adoption of these pronouncements did not have any significant impact on the Group's financial position or performance.

The nature and impact of each new standards and amendment are described below:

Effective beginning on or after January 1, 2019

- Amendments to PFRS 9, *Prepayment Features with Negative Compensation*

Under PFRS 9, a debt instrument can be measured at amortized cost or at fair value through other comprehensive income, provided that the contractual cash flows are 'solely payments of principal and interest on the principal amount outstanding' (the SPPI criterion) and the instrument is held within the appropriate business model for that classification. The amendments to PFRS 9 clarify that a financial asset passes the SPPI criterion regardless of the event or circumstance that causes the early termination of the contract and irrespective of which party pays or receives reasonable compensation for the early termination of the contract. The amendments should be applied retrospectively and are effective from January 1, 2019, with earlier application permitted.

These amendments will have no impact on the consolidated financial statements of the Group.

- PFRS 16, *Leases*

PFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under PAS 17, *Leases*. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognize the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under PFRS 16 is substantially unchanged from today's accounting under PAS 17. Lessors will continue to classify all leases using the same classification principle as in PAS 17 and distinguish between two types of leases: operating and finance leases.

PFRS 16 also requires lessees and lessors to make more extensive disclosures than under PAS 17.

A lessee can choose to apply the standard using either a full retrospective or a modified retrospective approach. The standard's transition provisions permit certain reliefs.

The Group is currently assessing the impact of adopting PFRS 16.

- Amendments to PAS 19, *Employee Benefits, Plan Amendment, Curtailment or Settlement*

The amendments to PAS 19 address the accounting when a plan amendment, curtailment or settlement occurs during a reporting period. The amendments specify that when a plan amendment, curtailment or settlement occurs during the annual reporting period, an entity is required to:

- Determine current service cost for the remainder of the period after the plan amendment, curtailment or settlement, using the actuarial assumptions used to remeasure the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event
- Determine net interest for the remainder of the period after the plan amendment, curtailment or settlement using: the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event; and the discount rate used to remeasure that net defined benefit liability (asset).

The amendments also clarify that an entity first determines any past service cost, or a gain or loss on settlement, without considering the effect of the asset ceiling. This amount is recognized in profit or loss. An entity then determines the effect of the asset ceiling after the plan amendment, curtailment or settlement. Any change in that effect, excluding amounts included in the net interest, is recognized in other comprehensive income.

The amendments apply to plan amendments, curtailments, or settlements occurring on or after the beginning of the first annual reporting period that begins on or after January 1, 2019, with early application permitted. These amendments will apply only to any future plan amendments, curtailments, or settlements of the Group.

- Amendments to PAS 28, *Long-term Interests in Associates and Joint Ventures*
The amendments clarify that an entity applies PFRS 9 to long-term interests in an associate or joint venture to which the equity method is not applied but that, in substance, form part of the net investment in the associate or joint venture (long-term interests). This clarification is relevant because it implies that the expected credit loss model in PFRS 9 applies to such long-term interests.

The amendments also clarified that, in applying PFRS 9, an entity does not take account of any losses of the associate or joint venture, or any impairment losses on the net investment, recognized as adjustments to the net investment in the associate or joint venture that arise from applying PAS 28, *Investments in Associates and Joint Ventures*.

The amendments should be applied retrospectively and are effective from January 1, 2019, with early application permitted. Since the Group does not have such long-term interests in its associate and joint venture, the amendments will not have an impact on its consolidated financial statements.

- Philippine Interpretation IFRIC-23, *Uncertainty over Income Tax Treatments*
The interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of PAS 12, *Income Taxes*, and does not apply to taxes or levies outside the scope of PAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments.

The interpretation specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately
- The assumptions an entity makes about the examination of tax treatments by taxation authorities
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
- How an entity considers changes in facts and circumstances

An entity must determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The approach that better predicts the resolution of the uncertainty should be followed.

This interpretation is not relevant to the Group because there is no uncertainty involved in the tax treatments made by management in connection with the calculation of current and deferred taxes as of March 31, 2019 and 2018.

Effective beginning on or after January 1, 2020

- Amendments to PAS 1, *Presentation of Financial Statements*, and PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors, Definition of Material*

The amendments refine the definition of material in PAS 1 and align the definitions used across PFRSs and other pronouncements. They are intended to improve the understanding of the existing requirements rather than to significantly impact an entity's materiality judgements.

An entity applies those amendments prospectively for annual reporting periods beginning on or after January 1, 2020, with earlier application permitted.

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board (IASB) completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

These amendments do not have any impact on the Group's consolidated financial statements.

Current versus Noncurrent Classification

The Group presents assets and liabilities in the consolidated statement of financial position based on current/noncurrent classification.

An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as noncurrent.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as noncurrent. Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from dates of placement and are subject to an insignificant risk of change in value.

Financial Instruments – Initial Recognition and Subsequent Measurement (upon adoption of PFRS 9)

Initial recognition

The Group classifies financial assets, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (FVOCI), and fair value through profit or loss (FVTPL).

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. Except for trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under PFRS 15.

For a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement of financial assets

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost
- Financial assets at fair value through profit or loss
- Financial assets at fair value through OCI, where cumulative gains or losses previously recognized are reclassified to profit or loss
- Financial assets designated at fair value through OCI, where cumulative gains or losses previously recognized are not reclassified to profit or loss

Financial assets at amortized cost

The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortized cost are initially recognized at fair value plus directly attributable transaction costs and subsequently measured using the effective interest (EIR) method, less any impairment in value. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired. This accounting policy relates to the Group's "Cash and cash equivalents", "Receivables" and "Due from related parties".

Financial assets at FVOCI

Debt instruments. The Group measures debt instruments at fair value through OCI if both of the following conditions are met:

- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

These financial assets are initially recognized at fair value plus directly attributable transaction costs and subsequently measured at fair value. Gains and losses arising from changes in fair value are included in other comprehensive income within a separate component of equity. Impairment losses or reversals, interest income and foreign exchange gains and losses are recognized in profit and loss until the financial asset is derecognized. Upon derecognition, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss. This reflects the gain or loss that would have been recognized in profit or loss upon derecognition if the financial asset had been measured at amortized cost. Impairment is measured based on the expected credit loss (ECL) model.

As of December 31, 2018, the Company does not have debt instruments at FVOCI.

Equity instruments. The Company may also make an irrevocable election to measure at FVOCI on initial recognition investments in equity instruments that are neither held for trading nor contingent consideration recognized in a business combination in accordance with PFRS 3. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. However, the Group may transfer the cumulative gain or loss within equity. Dividends on such investments are recognized in profit or loss, unless the dividend clearly represents a recovery of part of the cost of the investment. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

The Group elected to classify irrevocably its quoted equity investments under this category.

Financial assets at FVTPL

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortized cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognized in the statement of profit or loss.

This category includes derivative instruments which the Group had not irrevocably elected to classify at fair value through OCI.

Classification of financial liabilities

Financial liabilities are measured at amortized cost, except for the following:

- financial liabilities measured at fair value through profit or loss;
- financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the Company retains continuing involvement;
- financial guarantee contracts;
- commitments to provide a loan at a below-market interest rate; and
- contingent consideration recognized by an acquirer in accordance with PFRS 3.

A financial liability may be designated at fair value through profit or loss if it eliminates or significantly reduces a measurement or recognition inconsistency (an accounting mismatch) or:

- if a host contract contains one or more embedded derivatives; or
- if a group of financial liabilities or financial assets and liabilities is managed and its performance evaluated on a fair value basis in accordance with a documented risk management or investment strategy.

Where a financial liability is designated at fair value through profit or loss, the movement in fair value attributable to changes in the Company's own credit quality is calculated by determining the changes in credit spreads above observable market interest rates and is presented separately in other comprehensive income.

Reclassifications of Financial Instruments (upon adoption of PFRS 9)

The Company reclassifies its financial assets when, and only when, there is a change in the business model for managing the financial assets. Reclassifications shall be applied prospectively by the Company and any previously recognized gains, losses or interest shall not be restated. The Company does not reclassify its financial liabilities.

Impairment of Financial Assets (prior to adoption of PFRS 9)

The Group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Loans and receivables

For loans and receivables carried at amortized cost, the Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of loss is charged to profit or loss. Interest income continues to be recognized based on the original EIR of the asset. Receivables, together with the associated allowance accounts, are written off when there is no realistic prospect of future recovery and all collateral has been realized. If, in a subsequent year, the amount of the estimated impairment loss decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in profit or loss, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

If the Group determines that no objective evidence of impairment exists for individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses for impairment. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due

according to the contractual terms of the assets being evaluated. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognized are not included in a collective assessment for impairment. For the purpose of a collective evaluation of impairment, financial assets are grouped on the basis of such credit risk characteristics as type of counterparty, credit history, past due status and term.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the Group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on historical loss experience is based and to remove the effects of conditions in the historical period that do not which the exist currently. The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Group to reduce any differences between loss estimates and actual loss experience.

Impairment of Financial Assets (upon adoption of PFRS 9)

The Group recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

Financial assets are credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of those financial assets have occurred. For these credit exposures, lifetime ECLs are also recognized and interest revenue is calculated by applying the credit-adjusted effective interest rate to the amortized cost of the financial asset.

The Group applies a simplified approach in calculating ECLs for “Receivables”. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. For leasing receivables, the Group has established a provision matrix that is based on its historical credit loss experience. For ICR, the Company uses a vintage analysis that is based on its historical credit loss experience. Both are further adjusted for forward-looking factors specific to the debtors and the economic environment.

For all debt financial assets other than receivables, ECLs are recognized using the general approach wherein the Group tracks changes in credit risk and recognizes a loss allowance based on either a 12-month or lifetime ECLs at each reporting date.

At each reporting date, the Company assesses whether there has been a significant increase in credit risk for financial assets since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Company considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and forward-looking analysis.

Exposures that have not deteriorated significantly since origination, or where the deterioration remains within the Company’s investment grade criteria are considered to have a low credit risk. The provision for credit losses for these financial assets is based on a 12-month ECL. The low credit risk exemption has been applied on debt investments that meet the investment grade criteria of the Company from the time of origination.

The Group’s “Cash and cash equivalents” and “Due from related parties” are graded to be low credit risk investment based on the credit ratings of depository banks and related parties as published by Bloomberg Terminal.

Write-off policy

The Group writes-off a financial asset, in whole or in part, when the asset is considered uncollectible, it has exhausted all practical recovery efforts and has concluded that it has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof.

Derecognition of Financial Assets and Liabilities (prior to and upon adoption of PFRS 9)

Financial asset

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired;
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial Liabilities

A financial liability is derecognized when the obligation under the financial liability is discharged or cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing financial liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new financial liability, and the difference in the respective carrying amounts is recognized in the statements of comprehensive income.

Offsetting Financial Instruments (prior to and upon adoption of PFRS 9)

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Group assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Group and all of the counterparties.

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or,
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at each reporting date.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Advances to Suppliers and Contractors

The Group recognizes advances to suppliers at the time payment has been made to specific suppliers and contractors. These are subsequently recouped upon every progress billings.

Real Estate Inventories

Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as inventory and is measured at the lower of cost and net realizable value (NRV).

Cost includes:

- Land cost
- Land improvement cost
- Borrowing cost
- Amounts paid to contractors for construction and development
- Planning and design costs, costs of site preparation, professional fees, property transfer taxes, construction overheads and other related costs.

NRV is the estimated selling price in the ordinary course of business, based on market prices at the reporting date, less estimated costs of completion and the estimated costs of sale.

Real estate inventories also consist of land held for future development. The Group has plans to construct and develop these parcels of land as a residential property for sale in the ordinary course of business. The physical construction activities have not commenced as of December 31, 2018.

Deposits for Purchased Land

This represents deposits made to land owners for the purchase of certain parcels of land which ultimate use is currently undetermined. The Group normally makes deposits before a CTS or Deed of Absolute Sale (DOAS) is executed between the Group and the land owner. These are recognized at cost.

Borrowing Costs

Borrowing costs directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

The interest capitalized is calculated using the Group's weighted average cost of borrowings after adjusting for borrowings associated with specific developments. Where borrowings are associated with specific developments, the amount capitalized is the gross interest incurred on those borrowings less any investment income arising on their temporary investment. Interest is capitalized from the commencement of the development work until the date of practical completion. The capitalization of finance costs is suspended if there are prolonged periods when development activity is interrupted. Interest is also capitalized on the purchase cost of a site of property acquired specifically for redevelopment, but only where activities necessary to prepare the asset for redevelopment are in progress.

Investments in and Advances to Joint Ventures and Associate

Investments in and advances to joint ventures and associate (investee companies) are accounted for under the equity method of accounting. A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

An investment is accounted for using the equity method from the day it becomes a joint venture or associate. On acquisition of investment, the excess of the cost of investment over the investor's share in the net fair value of the investee's identifiable assets, liabilities and contingent liabilities is accounted for as goodwill and included in the carrying amount of the investment and not amortized. Any excess of the investor's share of the net fair value of the investee's identifiable assets, liabilities and contingent liabilities over the cost of the investment is excluded from the carrying amount of the investment, and is instead included as income in the determination of the share in the earnings of the investees.

Under the equity method, the investments in the investee companies are carried in the consolidated statement of financial position at cost plus post-acquisition changes in the Group's share in the net assets of the investee companies, less any impairment in values. The consolidated statement of comprehensive income reflects the share of the results of the operations of the investee companies, if there's any. The Group's share of post-acquisition movements in the investee's equity reserves is recognized directly in equity. Profits and losses resulting from transactions between the Group and the investee companies are eliminated to the extent of the interest in the investee companies and for unrealized losses to the extent that there is no evidence of impairment of the asset transferred. Dividends received are treated as a reduction of the carrying value of the investment.

The Group discontinues applying the equity method when their investments in investee companies are reduced to zero. Accordingly, additional losses are not recognized unless the Group has guaranteed certain obligations of the investee companies. When the investee companies subsequently report net income, the Group will resume applying the equity method but only after its share of that net income equals the share of net losses not recognized during the period the equity method was suspended.

The reporting dates of the investee companies and the Group are identical and the investee companies' accounting policies conform to those used by the Group for like transactions and events in similar circumstances.

Upon loss of joint control over the joint ventures or significant influence over the associate, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the joint ventures or associate and the fair value of the retained investment and proceeds from disposal is recognized in the consolidated statement of comprehensive income.

Investment Properties

Initially, investment properties are measured at cost including certain transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the reporting date. The fair value of investment properties is determined by independent real estate valuation experts based on the “market approach” for its land properties which are based on recent real estate transactions with similar characteristics and location to those of the Group’s investment properties and the “income approach” for its income generating buildings which are based on the buildings discounted future cash flows. Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the period in which they arise.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner’s occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner’s occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of change in use.

For a transfer from investment property to inventories, the change in use is evidenced by commencement of development with a view to sale. When the Group decides to dispose of an investment property without development, it continues to treat the property as an investment property until it is derecognized and does not treat it as inventory. Similarly, if an entity begins to redevelop an existing investment property for continued future use as investment property, the property remains an investment property and is not reclassified as owner-occupied property during the redevelopment. For a transfer from investment property carried at fair value to inventories, the property's deemed cost for subsequent accounting shall be its fair value at the date of change in use.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation and amortization and any impairment in value.

The initial cost of property and equipment consists of its purchase price, including import duties, taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property and equipment have been put into operation, such as repairs and maintenance, are normally charged against operations in the period in which the costs are incurred. When significant parts of property and equipment are required to be replaced in intervals, the Group recognizes such parts as individual assets with specific useful lives and depreciation and amortization, respectively. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation and amortization of property and equipment commences once the property and equipment are put into operational use and is computed on a straight-line basis over the estimated useful lives (EUL) of the property and equipment as follows:

	Years
Office equipment	3 - 5
Computer equipment	3 - 5
Furniture and fixtures	3 - 5
Transportation equipment	5
Leasehold improvements	5 or lease term, whichever is shorter
Construction equipment	5

The useful lives and depreciation and amortization method are reviewed at financial year end to ensure that the period and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment. When property and equipment are retired or otherwise disposed of, the cost and the related accumulated depreciation and amortization and accumulated provision for impairment losses, if any, are removed from the accounts and any resulting gain or loss is credited to or charged against current operations.

Construction in progress, included in property and equipment, is stated at cost. Depreciation is computed when the relevant asset is completed and becomes available for use in operations, at which time, the asset is reclassified to its property and equipment category.

Fully depreciated property and equipment are retained in the accounts until they are no longer in use and no further depreciation and amortization is charged against current operations.

Creditable Withholding Tax (CWT)

CWTs, which are included under “Other current assets” account in the consolidated statement of financial position, are amounts withheld from income subject to expanded withholding taxes (EWT). CWTs can be utilized as payment for income taxes provided that these are properly supported by certificates of creditable tax withheld at source subject to the rules on Philippine income taxation.

Impairment of Nonfinancial Assets

The Group assesses as at reporting date whether there is an indication that its nonfinancial assets (e.g., property and equipment and investments in joint ventures and associate) may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset’s recoverable amount. An asset’s recoverable amount is calculated as the higher of the asset’s or cash-generating unit’s fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. Impairment losses are recognized in the expense categories of profit or loss consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset’s recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of accumulated depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as revaluation increase. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset’s revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Deposits for Preferred Shares Subscription

Deposits for preferred share subscription represent cash received by CALC, a subsidiary that are convertible to a fixed number of CALC's stocks in the future. CALC's preferred shares are considered as compound financial instruments which contain both liability and equity components. Since the preferred shares are non-redeemable and entitles the holder to a pro-rata share of assets upon liquidation, including 28 free nights to stay at the hotel, this financial instrument is classified as an equity instrument. However, the preferred shares establish a contractual right to a dividend [i.e. the net room rental revenue (NRRR)], thus, it contains a financial liability with respect to the share in the NRRR.

Prior to full payment and availability of the rooms, the subsidiary accounts for the amounts received from the buyers of preferred shares as "Deposits for preferred shares subscription" classified as a liability under the "Other noncurrent liabilities" account, given that based on the terms of the contract, the preferred shares shall be entitled to any of the rights and benefits as stated above upon full payment of their shares and subject to the availability of the rooms. At present, the facility relating to the generation of NRRR is under construction representing an obligation on the part of CALC to the preferred shares subscribers.

Upon full payment and availability of the rooms and when the rights indicated above vest, the amounts received from the preferred shareholders is allocated between the equity and liability components.

Equity

Capital stock and additional paid-in capital

The Group records common stock at par value and additional paid-in capital in excess of the total contributions received over the aggregate par value of the equity share. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax.

Retained earnings

Retained earnings represent accumulated earnings of the Group less dividends declared, if any.

Treasury shares

Treasury shares are own equity instruments which are reacquired and are recognized at cost and deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Parent Company's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in additional paid-in capital. Voting rights related to treasury shares are nullified for the Parent Company and no dividends are allocated to them respectively. When the shares are retired, the capital stock account is reduced by its par value and the excess of cost over par value upon retirement is debited to additional paid-in capital when the shares were issued and to retained earnings for the remaining balance.

Revenue Recognition under PFRS 15

Revenue from Contract with Customers

The Group primarily derives its real estate revenue from the sale of vertical and horizontal real estate projects. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements, except for the provisioning of water, electricity in its leasing units, wherein it is acting as agent.

The disclosures of significant accounting judgments, estimates and assumptions relating to revenue from contracts with customers are provided in Note 3.

Real estate sales

The Group derives its real estate revenue from sale of lots, house and lot and condominium units. Revenue from the sale of these real estate projects under pre-completion stage are recognized over time during the construction period (or percentage of completion) since based on the terms and conditions of its contract with the buyers, the Group's performance does not create an asset with an alternative use and the Group has an enforceable right to payment for performance completed to date.

In measuring the progress of its performance obligation over time, the Group uses the output method. The Group recognizes revenue on the basis of direct measurements of the value to customers of the goods or services transferred to date, relative to the remaining goods or services promised under the contract. Progress is measured using survey of performance completed to date. This is based on the monthly project accomplishment report prepared by the third party project engineers which integrates the surveys of performance to date of the construction activities for both sub-contracted and those that are fulfilled by the developer itself.

Any excess of progress of work over the right to an amount of consideration that is unconditional, recognized as residential and office development receivables, under trade receivables, is included in the "Contract asset" account in the asset section of the consolidated statement of financial position.

Any excess of collections over the total of recognized trade receivables and contract assets is included in the "Contract liabilities" account in the liabilities section of the consolidated statement of financial position.

Property management fee and other services

Revenue from property management and other services is recognized when the related services are rendered. Property management fee and other services consist of revenue arising from management contracts, auction services and technical services.

Interest income

Interest income is recognized as it accrues, taking into account the effective yield on the asset.

Income from forfeited collections

Income from forfeited collections recorded under "Interest and other income" is recognized when the deposits from potential buyers are deemed nonrefundable due to prescription of the period for entering into a contracted sale. Such income is also recognized, subject to the provisions of Republic Act 6552, *Realty Installment Buyer Act*, upon prescription of the period for the payment of required amortizations from defaulting buyers.

Other income

Other customer related fees such as penalties and surcharges are recognized as they accrue, taking into account the provisions of the related contract.

Cost and Expense Recognition

Cost of real estate sales

The Group recognizes costs relating to satisfied performance obligations as these are incurred taking into consideration the contract fulfillment assets such as connection fees. These include costs of land, land development costs, building costs, professional fees, depreciation, permits and licenses and capitalized borrowing costs. These costs are allocated to the saleable area, with the portion allocable to the sold units being recognized as cost of sales while the portion allocable to the unsold units being recognized as part of real estate inventories.

Contract costs include all direct materials and labor costs and those indirect costs related to contract performance. Expected losses on contracts are recognized immediately when it is probable that the total contract costs will exceed total contract revenue. Changes in contract performance, contract conditions and estimated profitability, including those arising from contract penalty provisions, and final contract settlements which may result in revisions to estimated costs and gross margins are recognized in the year in which the changes are determined.

Cost of leasing

Cost of leasing pertains to direct costs of leasing the Group's commercial properties. These costs are expensed as incurred.

Cost of services

Cost of services pertains to direct costs of property management fee and other services. These costs are expensed as incurred.

General and administrative expenses

General and administrative expenses constitute costs of administering the business and are expensed as incurred.

Contract Balances

Installment contract receivables (ICRs)

ICR represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs under the contract.

The contract liabilities also include payments received by the Group from the customers for which revenue recognition has not yet commenced.

Costs to Obtain Contract

The incremental costs of obtaining a contract with a customer are recognized as an asset if the Group expects to recover them. The Group has determined that commissions paid to brokers and marketing agents on the sale of pre-completed real estate units are deferred when recovery is reasonably expected and are recorded as "Prepaid commissions" in the consolidated statements of financial position. These are charged to expense in the period in which the related revenue is recognized as earned. Commission expense is included in the "General and administrative expenses" account in the consolidated statement of income.

Costs incurred prior to obtaining contract with customer are not capitalized but are expensed as incurred.

Amortization, de-recognition and impairment of capitalized costs to obtain a contract

The Group amortizes capitalized costs to obtain a contract to cost of sales over the expected construction period using POC following the pattern of real estate revenue recognition. The amortization is included within cost of real estate sales.

A capitalized cost to obtain a contract is derecognized either when it is disposed of or when no further economic benefits are expected to flow from its use or disposal.

At each reporting date, the Group determines whether there is an indication that cost to obtain a contract maybe impaired. If such indication exists, the Group makes an estimate by comparing the carrying amount of the assets to the remaining amount of consideration that the Group expects to receive less the costs that relate to providing services under the relevant contract. In determining the estimated amount of consideration, the Group uses the same principles as it does to determine the contract transaction price, except that any constraints used to reduce the transaction price will be removed for the impairment test.

Where the relevant costs or specific performance obligations are demonstrating marginal profitability or other indicators of impairment, judgement is required in ascertaining whether or not the future economic benefits from these contracts are sufficient to recover these assets. In performing this impairment assessment, management is required to make an assessment of the costs to complete the contract. The ability to accurately forecast such costs involves estimates around cost savings to be achieved over time, anticipated profitability of the contract, as well as future performance against any contract-specific performance indicators that could trigger variable consideration, or service credits. Where a contract is anticipated to make a loss, these judgements are also relevant in determining whether or not an onerous contract provision is required and how this is to be measured.

Commission and other selling expenses

Selling expenses such as commissions paid to sales or marketing agents on the sale of pre-completed real estate units are deferred when recovery is reasonably expected and are charged to expense in the period in which the related revenue is recognized as earned. These are recorded as "Prepaid commissions" under "Other current assets" and "Other noncurrent assets" accounts. Accordingly, when the percentage of completion method is used, commissions are likewise charged to expense in the period the related revenue is recognized.

General and administrative expenses

General and administrative expenses constitute costs of administering the business and are expensed as incurred.

Pension Cost

Pension cost is computed using the projected unit credit method. This method reflects services rendered by employees up to the date of valuation and incorporates assumptions concerning employees' projected salaries. Actuarial valuations are conducted with sufficient regularity, with an option to accelerate when significant changes to underlying assumptions occur.

Pension cost includes a) current service cost, interest cost, past service cost and b) gains and losses, and curtailment and non - routine settlement.

The liability recognized by the Group in respect of the funded defined benefit pension plan is the present value of the defined benefit obligation at the reporting date. The defined benefit obligation is calculated by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using risk-free interest rates of government bonds that have terms to maturity approximating the terms of the related pension liabilities or applying a single weighted average discount rate that reflects the estimated timing and amount of benefit payments.

Remeasurements, comprising of actuarial gains or losses, the effect of the asset ceiling, excluding net interest cost and the return on plan assets (excluding net interest), are recognized immediately in the consolidated statement of financial position with a corresponding debit or credit to other comprehensive income (OCI) in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Operating Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at inception date, whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease only if one of the following applies:

- (a) There is a change in contractual terms, other than a renewal or extension of the arrangement;
- (b) A renewal option is exercised or extension granted, unless the term of the renewal or extension was initially included in the lease term;
- (c) There is a change in the determination of whether fulfillment is dependent on a specified asset; or
- (d) There is substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment for scenarios (a), (c), or (d) and at the date of renewal or extension period for scenario (b).

Leases where the lessor retains substantially all the risks and benefits of the ownership of the asset are classified as operating leases. Fixed lease payments are recognized on a straight-line basis over the lease while the variable rent is recognized as an expense based on the terms of the lease contract.

Leasing revenue

The Group leases its commercial real estate properties to others through operating leases. Rental income on leased properties is recognized on a straight-line basis over the lease term, or based on a certain percentage of the gross revenue of the tenants, as provided under the terms of the lease contract. Contingent rents are recognized as revenue in the period in which they are earned.

Income Taxes

Current tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as of the reporting date.

Deferred tax

Deferred tax is provided using the liability method on temporary differences, with certain exceptions, at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, including asset revaluations. Deferred tax assets are recognized for all deductible temporary differences, carry forward benefit of unused tax credits from the excess of minimum corporate income tax (MCIT) over regular corporate income tax (RCIT), and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient taxable income will be available against which the deductible temporary differences and the carry forward of unused tax credits from MCIT and unused NOLCO can be utilized. Deferred tax, however, is not recognized on temporary differences that arise from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income.

Deferred tax liabilities are not provided on non-taxable temporary differences associated with investments in domestic subsidiaries and associate.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Value-added Tax (VAT)

Revenues, expenses, and assets are recognized net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable and is included as part of the “Accounts and other payables” account in the consolidated statement of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset and is included as part of the “Other current assets” account in the consolidated statement of financial position to the extent of the recoverable amount.

Foreign Currency Transactions

Transactions denominated in foreign currencies are initially recorded using the exchange rates prevailing at transaction dates. Foreign currency-denominated monetary assets and liabilities are retranslated using the closing exchange rates at reporting date. Exchange gains or losses arising from foreign currency transactions are credited to or charged against current operations.

Segment Reporting

The Group’s operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. Financial information on the Group’s business segments is presented in Note 4 to the consolidated financial statements.

Earnings Per Share

Basic earnings per share (EPS) is computed by dividing net income attributable to common stockholders by the weighted average number of common shares issued and outstanding during the year and adjusted to give retroactive effect to any stock dividends declared during the period. Diluted EPS is computed by dividing net income attributable to common equity holders by the weighted average number of common shares issued and outstanding during the year plus the weighted average number of common shares that would be issued on conversion of all the dilutive potential common shares. The calculation of diluted EPS does not assume conversion, exercise or other issue of potential common shares that would have an antidilutive effect on earnings per share.

As of March 31, 2019 and December 30, 2018, the Group has no dilutive potential common shares.

Contingencies

Contingent liabilities are not recognized in the consolidated financial statements but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits is probable.

Events After the Reporting Date

Post year-end events up to the date of auditor’s report that provide additional information about the Group’s position at the reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the consolidated financial statements when material.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the consolidated financial statements in compliance with PFRS requires the Group to make judgments and estimates that affect the amounts reported in the consolidated financial statements and accompanying notes. The judgments, estimates and assumptions used in the accompanying consolidated financial statements are based upon management’s evaluation of relevant facts and circumstances as of the date of the consolidated financial statements. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the consolidated financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements.

Existence of a contract

The Group's primary document for a contract with a customer is a signed CTS. It has determined, however, that in cases wherein CTS are not signed by both parties, the combination of its other signed documentation such as reservation agreement, official receipts, buyers' computation sheets and invoices, would contain all the criteria to qualify as contract with the customer under PFRS 15.

In addition, part of the assessment process of the Group before revenue recognition is to assess the probability that the Group will collect the consideration to which it will be entitled in exchange for the real estate property that will be transferred to the customer. In evaluating whether collectability of an amount of consideration is probable, an entity considers the significance of the customer's initial payments in relation to the total contract price. Collectability is also assessed by considering factors such as past history with the customer, age and pricing of the property. Management regularly evaluates the historical cancellations and back-outs if it would still support its current threshold of customers' equity before commencing revenue recognition.

Revenue recognition method and measure of progress

The Group concluded that revenue for real estate sales is to be recognized over time because: (a) the Group's performance does not create an asset with an alternative use and; (b) the Group has an enforceable right for performance completed to date. The promised property is specifically identified in the contract and the contractual restriction on the Group's ability to direct the promised property for another use is substantive. This is because the property promised to the customer is not interchangeable with other properties without breaching the contract and without incurring significant costs that otherwise would not have been incurred in relation to that contract. In addition, under the current legal framework, the customer is contractually obliged to make payments to the developer up to the performance completed to date. In addition, the Group requires a certain percentage of buyer's payments of total selling price (buyer's equity), to be collected as one of the criteria in order to initiate revenue recognition. Reaching this level of collection is an indication of buyer's continuing commitment and the probability that economic benefits will flow to the Group. The Group considers that the initial and continuing investments by the buyer of about 5% would demonstrate the buyer's commitment to pay.

The Group has determined that output method used in measuring the progress of the performance obligation faithfully depicts the Group's performance in transferring control of real estate development to the customers.

Incorporation of forward-looking information

The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL.

To do this, the Group has considered a range of relevant forward-looking macro-economic assumptions for the determination of unbiased general industry adjustments and any related specific industry adjustments that support the calculation of ECLs. Based on the Group's evaluation and assessment and after taking into consideration external actual and forecast information, the Group considers a representative range of possible forecast scenarios. This process involves gathering two or more economic scenarios and considering the relative probabilities of each outcome. External information includes economic data and forecasts published by governmental bodies, monetary authorities and selected private-sector and academic institutions.

The Group has identified and documented key drivers of credit risk and credit losses of each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

Predicted relationship between the key indicators and default and loss rates on various portfolios of financial assets have been developed based on analyzing historical data over the past 5 years. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

The Group has not identified any uncertain event that it has assessed to be relevant to the risk of default occurring but where it is not able to estimate the impact on ECL due to lack of reasonable and supportable information.

Definition of default and credit-impaired financial assets

The Group defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

- *Quantitative criteria*
The borrower is more than 90 days past due on its contractual payments, i.e. principal and/or interest, which is consistent with the regulatory definition of default.
- *Qualitative criteria*
The borrower meets unlikelihood to pay criteria, which indicates the borrower is in significant financial difficulty. These are instances where:
 - The borrower is experiencing financial difficulty or is insolvent
 - The borrower is in breach of financial covenant(s)
 - An active market for that financial assets has disappeared because of financial difficulties
 - Concessions have been granted by the Group, for economic or contractual reasons relating to the borrower's financial difficulty
 - It is becoming probable that the borrower will enter Bankruptcy or other financial reorganization
 - Financial assets are purchased or originated at a deep discount that reflects the incurred credit losses.

The criteria above have been applied to all financial instruments held by the Group and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD) throughout the Group's expected loss calculation.

An instrument is considered to be no longer in default (i.e. to have cured) when it no longer meets any of the default criteria for a consecutive period of six months as it has exhibited a satisfactory track record. This period of six months has been determined based on an analysis which considers the likelihood of a financial instrument returning to default status after cure using different possible cure definitions.

Operating lease commitments - Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. Based on an evaluation of the terms and conditions of the arrangements, the Group has determined that it retains all the significant risks and rewards of ownership of these properties and accounts for them as operating leases.

A number of the Group's operating lease contracts are accounted for as noncancellable operating leases and the rest are cancellable. In determining whether a lease contract is cancellable or not, the Group considers, among others, the significance of the penalty, including the economic consequence to the lessee.

Material partly-owned subsidiaries

In determining whether a NCI is material to the Group, management employs both quantitative and qualitative factors to evaluate the nature of, and risks associated with, the Group's interests in these entities and the effects of those interests on the Group's financial position. Factors considered include, but not limited to, carrying values of the subsidiary's NCI relative to the NCI recognized in the consolidated financial statements, the subsidiary's contribution to the Group's revenues and net income, and other relevant qualitative risks associated with the subsidiary's nature, purpose and size of activities.

Based on management's assessment, the Group has concluded that TP I, TP II, TP III, CCDC II and PPHI are subsidiaries with NCI that are material to the Group. Information about the subsidiaries with material NCI is disclosed in Note 20 to the consolidated financial statements.

Receivable financing

The Group has entered into various receivable financing transactions with local banks to assign its ICR and contract assets. The Group has determined that it has retained substantially all the risks and rewards of ownership of these assets. Thus, the Group still retains the assigned receivables and contract assets in the receivables account and records the proceeds from these sales as long-term debt. The gross amount of ICRs and contract assets used as collateral amounted to ₱6,584.40 million and ₱6,638.84 million as of March 31, 2019 and December 31, 2018, respectively (see Note 17).

Contingencies

The Group is currently involved in various legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with outside counsel handling the defense in these matters and is based upon an analysis of potential results. The Group currently does not believe that these proceedings will have a material effect on the Group's financial position. It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceedings.

Classification of deposit for preferred shares subscription

The Group determined that CALC's preferred shares under the "Other noncurrent liabilities" account are compound financial instruments, which contain both liability and equity components. However, prior to full payment and availability of the rooms, the Group has determined that amounts received from the buyers of preferred shares are classified as "Deposits for preferred shares subscription" under the "Other noncurrent liabilities" account since the shareholders rights to the 28 free nights to stay at the hotel and contractual right to dividends will inure to the shareholder only upon full payment and availability of the rooms.

Management's Use of Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Revenue recognition on real estate projects

The Group's revenue recognition require management to make use of estimates and assumptions that may affect the reported amounts of revenues and costs. The Group's revenue from real estate and construction contracts is recognized based on POC are measured principally on the basis of the estimated completion of a physical proportion of the contract work. Apart from involving significant estimates in determining the quantity of imports such as materials, labor and equipment needed, the assessment process for the POC is complex and requires technical determination by management's specialists (third party project engineers).

Collectability of the sales price

In determining whether the sales price is collectible, the Group considers that the initial and continuing investments by the buyer of 5% would demonstrate the buyer's commitment to pay. Based on the historical trend of cancellations of customer contracts, the management believes that 5% continues to be reasonable.

Fair value of investment properties

The Group carries its investment properties at fair value, with changes in fair value being recognized in profit or loss except for investment properties under construction. The Group determined that its investment properties under construction is to be measured at cost. During its construction phase, fair value of the investment properties is not reliably measurable. Once the construction is complete, the Group will be able to measure the property at fair value. The Group engages annually independent valuation specialists to determine the fair value. For the investment property, the appraisers used a valuation technique based on comparable market data and future cash flows available for such properties.

Evaluation of impairment of financial assets under PFRS 9

The Group uses a provision matrix to calculate ECLs for trade receivables other than ICRs. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Group’s historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information such as inflation and GDP growth rates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

The Group uses vintage analysis approach to calculate ECLs for ICRs and contract assets. The vintage analysis accounts for expected losses by calculating the cumulative loss rates of a given loan pool. It derives the probability of default from the historical data of a homogenous portfolio that share the same origination period. The information on the number of defaults during fixed time intervals of the accounts is utilized to create the PD model. It allows the evaluation of the loan activity from its origination period until the end of the contract period.

The Company defines a financial instrument as in default when a customer is more than 90 days past due on its contractual obligations. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full. An instrument is considered to be no longer in default (i.e. to have cured) when it no longer meets any of the default criteria.

The assessment of the correlation between historical observed default rates, forecast economic conditions (inflation and interest rates) and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group’s historical credit loss experience and forecast of economic conditions may also not be representative of customer’s actual default in the future.

There have been no significant changes in estimation techniques or significant assumptions made during the reporting period.

As of March 31, 2019, the allowance for impairment losses on financial assets and contract assets of the Group amounted to ₱10.99 million (see Notes 6). As of March 31, 2019, the carrying values of these assets are as follows:

	2019
Cash and cash equivalents	₱2,073,581,448
Receivables and contract assets (see Notes 6 and 15)	10,379,218,976
Due from related parties (see Note 16)	403,559,150

Estimating NRV of real estate inventories

The Group reviews the NRV of real estate inventories and compares it with the cost since assets should not be carried in excess of amounts expected to be realized from sale. Real estate inventories are written down below cost when the estimated NRV is found to be lower than the cost.

NRV for completed real estate inventories is assessed with reference to market conditions and prices existing at the reporting date and is determined by the Group having taken suitable external advice and in light of recent market transactions. NRV in respect of inventory under construction is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete construction less an estimate of the time value of money to the date of completion. The estimates used took into consideration fluctuations of price or cost directly relating to events occurring after the end of the period to the extent that such events confirm conditions existing at the end of the period.

The carrying values of real estate inventories amounted to ₱17,265.36 million and ₱17,257.48 million as of March 31, 2019 and December 31, 2018, respectively (see Note 8).

Impairment of nonfinancial assets

The Group assesses impairment on its nonfinancial assets (e.g. property and equipment and investment in joint ventures and associate) and considers the following important indicators:

- Significant changes in asset usage;
- Significant decline in assets’ market value;
- Obsolescence or physical damage of an asset;
- Significant underperformance relative to expected historical or projected future operating results;
- Significant changes in the manner of usage of the acquired assets or the strategy for the Group’s overall business; and
- Significant negative industry or economic trends.

If such indications are present and where the carrying amount of the asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The recoverable amount is the asset’s fair value less cost to sell or value in use whichever is higher. The fair value less cost to sell is the amount obtainable from the sale of an asset in an arm’s length transaction while value in use is the present value of estimated future cash flows expected to be generated from the continued use of the asset. The Group is required to make estimates and assumptions that can materially affect the carrying amount of the asset being assessed.

The carrying values of the nonfinancial assets follow:

	March 31, 2019	December 31, 2018
	(Unaudited)	(Audited)
Advances to suppliers and contractors (see Note 7)	₱2,310,426,749	₱2,236,124,707
Other current assets (see Note 13)*	710,025,949	429,324,334
Deposits for purchased land (see Note 9)	1,014,642,658	1,189,477,058
Investments in and advances to joint ventures and associate (see Note 10)	247,584,285	247,584,285
Property and equipment (see Note 12)	1,354,954,239	1,273,790,837
Other noncurrent assets (see Note 13)**	788,509,221	1,157,780,304
<i>*Excluding taxes, and deposits</i>		
<i>**Excluding rental deposits and derivative assets</i>		

No impairment was recognized for the Group’s nonfinancial assets as of March 31, 2019 and December 31, 2018.

Recognition of deferred tax assets

The Group reviews the carrying amounts of deferred tax assets at each reporting date and reduces the amounts to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. Significant judgment is required to determine the amount of deferred tax assets that can be recognized based upon the likely timing and level of future taxable income together with future planning strategies. The Group assessed its projected performance in determining the sufficiency of the future taxable income.

Estimating pension liabilities

The determination of the Group’s pension liabilities and cost of retirement benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in the consolidated financial statements and include among others, discount rates and salary increase rates. While the Group believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect the pension liabilities. The Group’s net pension liabilities amounted to ₱251.10 million as of March 31, 2019 (see Note 23).

4. SEGMENT REPORTING

Business segment information is reported on the basis that is used internally for evaluating segment performance and deciding how to allocate resources among operating segments. Accordingly, the segment information is reported based on the nature of service the Group is providing.

The segments where the Group operate follow:

- Real estate development - sale of high-end, upper middle-income and affordable residential lots and units and lease of residential developments under partnership agreements;
- Leasing - lease of the Group's retail mall;
- Property management - facilities management of the residential and corporate developments of the Group and other third party projects, including provision of technical and related consultancy services.

Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements.

The financial information about the operations of these operating segments is summarized below:

March 31, 2019

	Real Estate Development	Property Management	Leasing	Adjustments and Elimination	Consolidated
Revenue	₱2,669,926,211	90,952,041	108,852,139	(96,494,937)	2,773,235,454
Costs and expenses					
Cost of real estate sales and services	1,562,157,772	70,508,580	62,979,847	(69,175,111)	1,626,471,088
General, administrative and selling expenses	650,350,337	14,868,440	28,398,021	–	693,616,798
Operating income (loss)	457,418,102	5,575,021	17,474,271	(27,319,826)	453,147,568
Other income (expenses)					
Interest and other income	189,649,823	–	1,758,389	(25,894,228)	165,513,984
Interest and other financing charges	(135,575,193)	–	(1,354,972)	25,894,228	(111,035,937)
Income before income tax	511,492,732	5,575,021	17,877,688	(27,319,826)	507,625,615
Provision for income tax	118,130,654	–	5,363,306	–	123,493,960
Net income	₱393,362,078	₱5,575,021	₱12,514,382	(₱27,319,826)	₱384,131,655
Other information					
Segment assets	₱53,991,930,640	₱333,667,474	₱11,888,813,090	(₱16,935,823,317)	49,278,587,887
Deferred tax assets	30,669,654	17,391,784	–	–	48,061,438
Total Assets	₱54,022,600,294	₱351,059,258	₱11,888,813,090	(₱16,964,568,741)	49,326,649,325

Deferred tax liabilities	2,010,018,959	-	412,458,453	-	2,422,477,412
Total Liabilities	₱35,110,114,900	₱246,640,198	₱1,577,153,624	(₱8,091,966,643)	₱28,841,942,083

5. CASH AND CASH EQUIVALENTS

This account consists of:

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Cash on hand and in banks	₱1,532,007,059	₱1,084,410,768
Cash equivalents	541,574,389	865,978,425
	₱2,073,581,448	₱1,950,389,193

Cash in banks earns interest at the prevailing bank deposit rates. Cash equivalents are short-term, highly liquid investments that are made for varying periods of up to three (3) months depending on the immediate cash requirements of the Group.

6. RECEIVABLES

This account consists of:

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Trade receivables		
ICR	₱505,987,901	₱545,989,912
Leasing receivable	122,818,573	148,960,355
Management fees	132,585,176	145,799,956
Receivable from employees and agents (see Note 16)	407,111,156	377,764,318
Advances to condominium corporations	218,529,489	196,528,227
Advances to customers	61,227,067	53,055,951
Other receivables	672,146,883	590,017,821
	2,120,406,245	2,058,116,540
Allowance for impairment losses	(10,989,287)	(10,989,287)
	₱2,109,416,958	₱2,047,127,253

ICR pertain to receivables from the sale of real estate properties. These are collectible in monthly installments over a period of one (1) to five (5) years, bear no interest and with lump sum collection upon project turnover. Titles to real estate properties are not transferred to the buyer until full payment has been made. Upon adoption of PFRS 15, the Group records any excess of progress of work over the right to an amount of consideration that is unconditional, recognized as residential and office development trade receivables, as contract asset (see Note 15).

Leasing receivables pertain to receivables arising from leasing revenue. These receivables are billed to tenants and are expected to be collected within one (1) year.

Management fees are revenues arising from property management contracts. These are collectible on a 15- to 30-day basis depending on the terms of the management service agreement.

Receivable from employees and agents pertain to cash advances for retitling costs and other operational and corporate-related expenses. This also includes salary and other loans granted to the employees and are recoverable through salary deductions. These are noninterest-bearing and are due and demandable (see Note 16).

Advances to condominium corporations pertain to expenses paid by the Group in behalf of the condominium corporations for various expenses incurred for the projects already turned over. These receivables are due and demandable and bear no interest.

Advances to customers pertain to expenses paid by the Group in behalf of the customers for the taxes and other costs incurred in securing the title in the name of the customers. These receivables are billed separately to the respective buyers and are expected to be collected within one (1) year.

Other receivables include advances to a third party amounting to ₱400.91 million as of March 31, 2019 and December 31, 2018, for a purchase of a parcel of land to be held for future development.

Details of allowance for impairment losses in 2019 and 2018 follow:

	Management fee	Receivable from employees and agents	Total
At January 1, 2018	₱3,091,974	₱7,887,449	₱10,979,423
Provision (Written-off)	9,864	-	9,864
At March 31, 2019	₱3,101,838	₱7,887,449	₱10,989,287

Receivable financing

The Group entered into various agreements with a local bank whereby the Group assigned its ICRs and contract assets with recourse at average interest rates of 5.75% to 9.12% and 5.50% to 7.50% for the periods-ended March 31, 2019 and 2018, respectively. The assignment agreements provide that the Group will substitute defaulted CTS with other CTS of equivalent value.

The Group still retains the assigned receivables in the receivables account and records the proceeds from these sales as long-term debt (see Note 17). The gross amount of ICRs and contract assets used as collateral amounted to ₱6,584.40 million and ₱6,638.84 million as of March 31, 2019 and of December 31, 2018, respectively (see Note 17).

7. ADVANCES TO SUPPLIERS AND CONTRACTORS

Advances to suppliers and contractors amounting to ₱2,310.43 million and ₱2,236.12 million as of March 31, 2019 and December 31, 2018, respectively, are recouped and capitalized as part of inventories upon every progress billing payment depending on the percentage of accomplishment. These advances are intended for the construction of the Group's projects.

8. REAL ESTATE INVENTORIES

This account represents the real estate projects for which the Group has been granted license to sell by the Housing and Land Use Regulatory Board of the Philippines. Details of this account follows:

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Condominium units	₱14,926,241,297	₱15,253,715,791
Residential house and lots	1,313,312,988	1,152,789,848
Land held for future developments	1,025,810,197	850,975,797
	₱17,265,364,482	₱17,257,481,436

The roll forward of this account follows:

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Balance at beginning of the year, as previously reported	₱17,257,481,436	₱15,845,868,208
Effect of adoption of PFRS 15	-	(154,752,722)
Balance at beginning of the year, as restated	17,257,481,436	15,691,115,486
Construction costs incurred	1,052,976,213	5,960,617,000
Purchase of raw land		1,273,535,945
Borrowing costs capitalized (Note 17)	273,055,094	764,748,055
Transfer from deposits for purchased land (Note 9)	174,834,400	522,260,382
Transfers to investment properties (Note 11)	-	(1,299,391,797)
Cost of real estate sales	(1,492,982,661)	(5,655,403,635)
Balance at the end of the year	₱17,265,364,482	₱17,257,481,436

Real estate inventories recognized as "Cost of real estate sales" amounted to ₱1,492.98 million and ₱5,655.40 million for the three months period-ended March 31, 2019 and December 31, 2018, respectively.

Real estate inventories transferred to investment properties amounting to ₱1,299.39 million in 2018, pertain to the change in use from sale of spaces to leasing for the Knightsbridge, Gramercy, Pebble, Spire and Centuria properties.

The carrying values of inventories mortgaged for trust receipts payables and bank loans amounted to ₱6,392.02 million and ₱6,672.32 million as of March 31, 2019 and December 31, 2018, respectively (see Note 17).

Land held for future development includes the following properties wherein the Group has plans to construct and develop these parcels of land as residential or commercial property for sale in the ordinary course of business:

CCC Land

This pertains to a property with an area of 200,000 sqm located in Novaliches, Quezon City which was acquired by the Group intended for development into a mixed development housing project.

CLC Land

This pertains to a parcel of land situated in Batangas with an area of 359,677 sqm under the registered name of Citystate Nasugbu Development Corporation and an industrial lot located in Mandaluyong City with an area of 14,271 sqm.

TPI II and TPI III Land

In 2016, TPI II and TPI III purchased land amounting ₱9.07 million and ₱9.31 million, respectively, located along Governors Drive, Barangay Tanauan, Tanza, Cavite where the project will be situated.

9. DEPOSIT FOR PURCHASED LAND

This account consists of deposits made to property owners for the acquisition of parcels of land in which the use is currently undetermined. Deposits for purchased land amounted to ₱1,014.64 million and ₱1,189.48 million as of March 31, 2019 and December 31, 2018, respectively.

In 2019, CCC finalized its DOAS for the land acquired in Novaliches, hence the initial deposit for the land purchased amounting to ₱174.83 million was reclassified to inventories.

In 2018, CLC finalized its DOAS for the land acquired in Quezon City amounting to ₱1,059.61 million, hence, the initial deposit for the land purchased amounting to ₱522.26 million was reclassified to inventories (see Note 8). The difference of ₱537.35 million was directly recorded as inventory upon transfer of control to the Group.

In 2018, the Group also made additional payment for the acquisition of land located in Novaliches amounting to ₱342.17 million.

10. INVESTMENT IN AND ADVANCES TO JOINT VENTURES AND ASSOCIATE

The Group's investments in and advances to joint ventures and associate are shown below.

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Joint ventures:		
A2Global, Inc. (A2 Global)	₱3,055,000	₱3,055,000
One Pacstar Realty Corporation (One Pacstar)	189,703,620	189,703,620
Two Pacstar Realty Corporation (Two Pacstar)	46,825,765	46,825,765
Associate:		
Asian Breast Center (ABC)	7,999,900	7,999,900
	₱247,584,285	₱247,584,285

Investment in A2Global Inc.

As of March 31, 2019, A2Global is still in preoperating stage.

In 2013, the Parent Company entered into an agreement with Asian Carmakers Corp. (ACC) and other individuals which aim to create an entity with the primary purpose to develop, own and manage properties of all kinds and nature and to develop them into economic and tourism zones, golf course, theme parks and all other forms of leisure estates.

On February 26, 2013, the Parent Company acquired 122,200 shares in A2Global Inc.(A2Global) with an acquisition price of ₱3.06 million, for a 48.88% ownership. A2Global has six directors, three from the Parent Company and three from ACC.

According to its by-laws, most of the major business decisions of A2Global shall require the majority decision of the board. Because the board is equally represented, the arrangement is considered a joint venture and is measured using the equity method.

Total investments in and advances made by the Parent Company to A2Global for working capital and other expenses amounted to ₱3.06 million as of March 31, 2019 and December 31, 2018.

Investment in One Pacstar Realty Corporation and Two Pacstar Realty Corporation

On October 22, 2014, CLC entered into an agreement with La Costa Development Corporation, Inc. (La Costa) to take out the loan of La Costa with Union Bank of the Philippines in its name and for its sole account. For and in consideration of the loan take out, La Costa transferred, ceded, and conveyed 196,250 shares of One Pacstar and 42,250 shares of Two Pacstar.

Provisions in the agreement grant CLC to vote using the owned shares in the meetings of the stockholders of One Pacstar and Two Pacstar. The Group currently owns 50% of the total voting shares with the remaining 50% owned by La Costa for both One Pacstar and Two Pacstar. This is tantamount to the two companies having joint control over One Pacstar and Two Pacstar. The primary purpose of One Pacstar and Two Pacstar is to acquire, own, lease, and manage lands and all other kinds of real estate properties.

One Pacstar and Two Pacstar’s principal place of business is 5th Floor, Pacific Star Building, High Rise Tower, Gil Puyat cor. Makati Avenue, Makati City.

For the year ended December 31, 2018, the Group recognized share in net earnings of the joint ventures amounting to ₱12.43 million.

Investment in Asian Breast Center, Inc. (ABC)

On January 7, 2016, the Group acquired 79,999 shares in ABC with an acquisition price of ₱8.00 million, for a 20.78% ownership. ABC has five (5) directors, one from the Group and four from ABC. Because the Group only has significant influence, this arrangement is considered as an investment in associate and is measured using the equity method.

The primary purpose of ABC is to provide comprehensive ambulatory care for women afflicted with any form of breast disease, including prevention, early detection, early diagnosis, and treatment. ABC’s principal place of business is 8th Floor, Centuria Medical Makati, Kalayaan Avenue, Makati City. Total investments in ABC amounted to ₱8.00 million as of March 31, 2019 and December 31, 2018.

The Group has not incurred any contingent liabilities as at March 31, 2019 and December 31, 2018 in relation to its interest in the joint ventures and associate, nor do the joint ventures and associate themselves have any contingent liabilities for which the Group is contingently liable. The Group has not entered into any capital commitments in relation to its interest in the joint ventures and associate and did not receive any dividends from the joint ventures and associate.

11. INVESTMENT PROPERTIES

The Group’s investment properties are classified as follows:

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Land	₱2,390,099,800	₱2,390,099,800
Building	6,460,452,416	6,460,452,416
Construction-in-progress	2,784,622,910	2,531,085,540
	₱11,635,175,126	₱11,381,637,756

Movements in this account are as follows:

	March 31, 2019	December 31, 2018
	(Unaudited)	(Audited)
Cost:		
Balance at the beginning of the year	₱8,291,938,498	₱4,945,149,725
Additions/construction costs incurred	253,537,370	1,981,590,313
Borrowing cost capitalized (Note 17)	-	130,853,284
Sale of property	-	(65,046,621)
Transfer from real estate inventories (Note 8)	-	1,299,391,797
Balance at the end of the year	8,545,475,868	8,291,938,498
Change in fair value:		
Balance at the beginning of the year	3,089,699,258	2,814,410,733
Sale of property	-	(101,610,036)
Gain from change in fair value of investment property	-	376,898,561
Balance at the end of the year	3,089,699,258	3,089,699,258
	₱11,635,175,126	₱11,381,637,756

Construction-in-progress pertains to properties being constructed that are intended to be leased out.

In 2018, the Group sold portion of its Gramercy property at a gain amounting to ₱12.94 million. Investment properties are stated at fair value, which has been determined based on valuations performed by Cuervo Appraisers, Inc., an accredited independent valuer, as of December 31, 2018. Cuervo Appraisers, Inc. is an industry specialist in valuing these types of investment properties.

The fair value of the investment properties was estimated by using the Sales Comparison Approach (SCA) and the Income Capitalization Approach (ICA). SCA is an approach to value that considers the sales of similar or substitute properties and related market data and establishes a value estimate by processes involving comparison. ICA is a method in which the appraiser derives an indicated of value for income producing property by converting anticipated future benefits into current property value. For the Group's leasing properties, the Group adopted the Discounted Cash Flow Analysis which considers the future cash flows from lease contracts.

The fair value of the investment properties classified as buildings and land in the consolidated financial statements is categorized within level 3 of the fair value hierarchy.

The key assumptions used to determine the fair value of the investment properties and sensitivity analyses are as follows:

Property	Valuation technique	Significant unobservable inputs	Range 2018
Buildings	DCF	Discount rates for similar lease contracts, market rent levels, expected vacancy and expected maintenance.	Discount rate - 10 % Market rent levels - ₱ 400 to ₱1,500/sqm per month Expected vacancy - 5% to 15%; Expected maintenance - 8% to 64%% of gross revenue
Land	SCA	Selling price for the land adjusted for external factors and internal factors External factors pertain to negative externalities outside the property limits that influence the value namely: social, economic, environmental and governmental. Internal factors include adjustments due to location, use, size and time elements	External factors: -10% to -15% Internal factors: -3% to -15%

For DCF, the higher the market rent levels, the higher the fair value. Also, the lower the expected vacancy, maintenance and discount rate the higher the fair value.

For SCA, the higher the price per sqm, the higher the fair value. Also, the higher the external and internal factors adjustments, the higher the fair value.

For the three months period-ended March 31, 2019 and 2018, the Group recognized leasing revenue from the use of the said real properties amounting to ₱108.85 million and ₱84.04 million, respectively, and incurred direct cost of leasing amounting to ₱62.98 million and ₱56.31 million, respectively, in relation to these investment properties.

12. PROPERTY AND EQUIPMENT

The composition and movements of this account are as follows:

	March 31, 2019 (Unaudited)							
	Office Equipment	Computer Equipment	Furniture and Fixtures	Transportation Equipment	Leasehold Improvements	Construction Equipment	Construction - in-Progress	Total
Cost								
At January 1	₱52,831,269	₱43,085,203	₱36,222,147	₱76,194,662	₱68,854,219	₱251,492,426	₱1,193,692,369	₱1,722,372,295

Net Book Values at December 31	₱22,703,142	₱20,745,855	₱6,884,720	₱15,395,420	₱14,365,374	₱3,957	₱1,193,692,369	₱1,273,790,837

The Group still uses fully depreciated property and equipment with a cost of ₱379.31 million as of March 31, 2019 and December 31, 2018, respectively.

13. OTHER ASSETS

This account consists of:

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Current:		
Prepaid commissions	₱619,435,953	₱366,119,945
Input taxes	560,237,513	389,052,295
Creditable withholding taxes	238,198,880	434,390,510
Marginal deposits	21,061,618	31,658,800
Prepaid expenses	13,678,257	6,553,509
Others	76,911,739	56,650,880
	₱1,529,523,960	₱1,284,425,939
Noncurrent:		
Prepaid commissions	₱325,578,029	₱581,012,743
Advances to land owners	350,000,000	350,000,000
Rental deposits	163,897,225	162,818,009
Derivative asset	112,150,368	115,791,961
Intangible assets	38,930,728	37,973,459
Deferred financing costs	3,116,451	3,116,451
Others	70,884,013	69,885,690
	₱1,064,556,814	₱1,320,598,313

Creditable withholding taxes are attributable to taxes withheld by third parties arising from real estate sale, property management fees and leasing revenues.

Input taxes are fully realizable and will be applied against output VAT.

Prepaid commissions pertain to commissions paid to brokers and marketing agents on the sale of real estate projects. These capitalized costs are charged to expense as “Commission” in the “General, administrative and selling expenses” account in the period in which the construction begins and the related revenue is recognized.

Marginal deposits represent cash hold-out for short-term loans which will be applied as payments of the related loans.

Prepaid expenses mostly pertain to prepayments of insurance premiums which will be applied throughout the remaining term of the related contracts.

Advances to land owners represent the minimum share of the lot property owners in relation to the profit sharing agreement of the Group with land owners. In accordance with the profit sharing agreement, the Group advanced this share in significant installments throughout the term of the project. The advances shall be deducted from the proceeds of the sales and collection of the land owners’ units.

Rental deposits mostly pertain to security deposits held and applied in relation to the Group’s lease contracts for its administrative and sales offices. The deposits are noninterest-bearing and are recoverable through application of rentals at the end of the lease term.

Derivative asset pertains to the cross currency and interest rate swap agreement entered by the Group for the year ended December 31, 2018 with Standard Chartered Bank (SCB) to hedge their foreign currency and interest rate risk related to the bank loan with the same bank (see Note 17). The Group will pay the principal in

a fixed amount of ₱ and interest at a fixed rate of 7.5% based on the notional amount in ₱ and will receive interest at a floating rate [USD (\$) LIBOR plus 3%] based on the equivalent notional amount in \$ until March 2020.

Intangible assets include software costs and trademarks. Software cost includes application software and intellectual property licenses owned by the Group. Trademarks are licenses acquired separately by the Group. These licenses arising from the Group’s marketing activities have been granted for a minimum of 10 years by the relevant government agency with the option to renew at the end of the period at little or no cost to the Group. Previous licenses acquired have been renewed and enabled the Group to determine that these assets have an indefinite useful life. As of March 31, 2019 and December 31, 2018, no impairment has been recognized on these assets.

Deferred financing costs pertain to transaction costs incurred in obtaining certain loan facility. These deferred financing costs will be amortized upon availment of or drawdown from the loan facility (see Note 17). Deferred financing cost was reclassified as a contra-liability under “Loans Payable” since the drawdown from the related loan facility with deferred financing costs was made in 2018.

Others include miscellaneous deposits which pertain primarily to utility deposits related to the construction activities of the Group and equity instruments at FVOCI in quoted shares of stock. The Group elected to classify irrevocably its quoted equity investments under financial assets at FVOCI.

14. ACCOUNTS AND OTHER PAYABLES

This account consists of:

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Accounts payable	₱3,077,804,943	₱3,090,029,245
Customers’ advances	1,128,439,277	1,049,494,994
Retention payable	372,881,413	353,291,867
Accrued expenses	396,123,813	421,869,393
Other payables	105,745,276	74,979,128
	₱5,080,994,722	₱4,989,664,627

Accounts payable are attributable to the construction costs incurred by the Group. These are noninterest-bearing and with terms of 15 to 90 days.

Customer’s advances pertain to funding from buyers of real estate for future application against transfer and registration fees and other taxes to be incurred upon transfer of properties to the buyer.

Retention payable are noninterest-bearing and are normally settled on a 30-day term upon completion of the relevant contracts.

Accrued expenses consist mainly of utilities, marketing costs, professional fees, communication, transportation and travel, security, insurance, taxes and representation.

15. CONTRACT BALANCES AND CUSTOMERS DEPOSIT

Contract assets and liabilities

This account consists of:

	March 31, 2019	December 31, 2018
	(Unaudited)	(Audited)
Contract assets:		
Current	₱6,601,277,017	₱6,827,207,071
Noncurrent	1,668,525,001	1,894,555,056
	8,269,802,018	8,721,762,127
Contract liabilities	(1,557,347,590)	(2,294,326,736)

Contract assets are initially recognized for revenue earned from real estate sales as receipt of consideration is conditional on successful completion of installation. Upon completion of performance obligation and acceptance by the customer, the amounts recognized as contract assets are reclassified to ICR.

Contract liabilities consist of collections from real estate customers which have not reached the 5% threshold to qualify for revenue recognition and excess of collections over the recognized receivables and contract assets based on percentage of completion.

Details of contract assets are as follows:

	March 31, 2019	December 31, 2018
	(Unaudited)	(Audited)
Gross amount of contract assets	₱22,373,998,568	₱24,527,049,970
Unamortized discount arising from contract assets	(3,247,843,305)	(3,349,772,920)
	19,126,155,263	21,177,277,050
Percentage of completion adjustment	(10,856,353,245)	(12,455,514,923)
Carrying value of contract assets	8,269,802,018	8,721,762,127
Non-current portion	(1,668,525,001)	(1,894,555,056)
Current portion of contract assets	₱6,601,277,017	₱6,827,207,071

Unamortized discounts

As of March 31, 2019 and December 31, 2018, contract assets with a nominal amount of ₱11,494.10 million and ₱12,071.54 million, respectively, were recorded at amortized cost of ₱8,269.80 million and ₱8,721.76 million. These contract assets were recorded initially at fair value which is derived using the discounted cash flow model using discount rates ranging from 4.29% to 7.03%.

Interest income from accretion of unamortized discount on contract assets amounted to ₱125.47 million and ₱189.32 million for the three months period-ended March 31, 2019 and 2018, respectively.

16. RELATED PARTY TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence which include affiliates.

Terms and Conditions of Transactions with Related Parties

The Group in their regular conduct of business has entered into transactions with related parties principally consisting of advances and reimbursement of expenses, development, management, marketing, leasing and administrative service agreements and purchases which are made at normal market prices.

The effects of the related party transactions are shown under the following accounts in the consolidated financial statements:

Due from Related Parties

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)	Amount of transaction	Terms and Conditions
Ultimate Parent	₱161,480,105	₱161,480,105	₱-	Noninterest bearing, due and demandable,
Stockholders	160,320,970	160,320,970	-	unsecured, no impairment
Other affiliates	81,758,075	72,553,433	9,204,642	
	₱403,559,150	₱394,354,508	₱9,204,642	

Due to Related Parties

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)	Amount of transaction	Terms and Conditions
Ultimate Parent	₱37,070,486	₱37,070,486	₱-	Noninterest bearing, due and demandable,
Stockholders	19,175,305	19,175,305	-	unsecured
Other affiliates	42,329,407	42,329,407	-	
	₱98,575,198	₱98,575,198		

Significant transactions of the Group with related parties are described below:

Due from related parties pertains to advances provided by the Group to the stockholders and other affiliates. These are generally unsecured, noninterest-bearing, and are due and demandable and are not impaired.

Due to related parties pertains to advances made by the Group for the capital expenditure of the affiliates. These are generally noninterest bearing and are due and demandable.

Receivable from employees and agents

The Group has advances to its employees amounting to ₱407.11 million and ₱377.76 million as of March 31, 2019 and December 31, 2018, respectively, for selling and other operational related activities. These advances also include salary and other loans granted to the employees and are recoverable through salary deductions. These are noninterest-bearing and are due and demandable (see Note 6).

Construction management contract

The Group has contracted Century Properties Management Construction Corporation (CPMCC) as the project manager that will handle the construction activities of the Group. CPMCC is owned by one of the key management personnel of the Group. As of March 31, 2019 and December 31, 2018, advances made to CPMCC recognized under the “Advances to suppliers and contractors” account amounted to ₱1,334.20 million and ₱1,146.61 million, respectively (see Note 7).

In 2017, CLC has contracted with Revolution Precrafted Properties Philippines, Inc. (RPPPI) as contractor for the Homes, Mock-up units and amenities of its project in Batangas. RPPPI is owned by the key management personnel of the Group.

Management agreement

In 2018, the Group contracted Century Integrated Sales, Inc. (CISI) to manage all of its sales and marketing activities. CISI is a fully-owned subsidiary of CPI. Prepayments to CISI for initial marketing services recognized under “Other current assets” account as of March 31, 2019 and December 31, 2018 amounted to ₱218.39 million and ₱168.28 million, respectively (see Note 13).

Transfer of pension liabilities

In 2018, the pension liability of the Parent Company was transferred to its wholly-owned subsidiaries, namely CLC, CCDC, CCC, CMDC and CISI, an affiliate. This resulted in additional liability to CISI amounting to ₱35.41 million (see Note 23).

Key management compensation

The key management personnel of the Group include all directors, executive, and senior management. The details of compensation and benefits of key management personnel for the three months period-ended March 31, 2019 and 2018 follow:

	March 31, 2019	March 31, 2018
	(Unaudited)	(Unaudited)
Short-term employee benefits	₱41,637,684	₱36,819,477
Post-employment benefits	1,505,515	1,331,301
	₱43,143,199	₱38,150,778

Terms and condition of transactions with related parties

Outstanding balances at year-end are unsecured, interest free, collectible or payable on demand and settlement occurs generally in cash. There have been no guarantees provided or received for any related party receivables or payables. As of March 31, 2019 and December 31, 2018, the Group has not made any provision for probable losses relating to amounts owed by related parties. This assessment is undertaken each financial year by examining the financial position of the related party and the market in which the related party operates.

17. SHORT-TERM AND LONG-TERM DEBT

This account consists of:

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Short-term debt:		
Trust receipts	₱828,936,465	₱805,610,954
Bank loans	1,126,000,000	1,401,000,000
	₱1,954,936,465	₱2,206,610,954
Long-term debt:		
Bank loans	₱9,208,305,930	₱9,139,599,216
Payable under CTS financing	7,799,765,603	7,875,795,684
Car loan financing	17,246,352	18,853,485
	17,025,317,885	17,034,248,385
Less current portion	7,167,585,638	5,389,150,881
Noncurrent portion	₱9,857,732,247	₱11,645,097,504

Short-term Debt

The roll-forward of the Group's short-term debt is as follows:

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Balance at January 1	₱2,206,610,954	₱1,415,894,637
Availments	574,602,003	2,298,074,664
Principal repayments	(826,276,492)	(1,507,358,347)
	₱1,954,936,465	₱2,206,610,954

Trust receipts

Trust receipts (TRs) are facilities obtained from various banks to finance purchases of construction materials for CCDC, CLC and MDC's projects. Under these facilities, the banks pay the Group's suppliers then require the Group to execute trust receipts over the goods purchased. The TRs have a weighted average interest rate 6.76% per annum in 2019, higher compared to 6.76% per annum in 2018. These are paid monthly or quarterly in arrears with full payment of principal balance at maturity of one year and with an option to prepay. Total availments of TRs during the period amounted to ₱449.60 million.

The carrying values of inventories mortgaged for trust receipts payables and bank loans amounted to ₱6,392.02 million and ₱6,672.32 million as of March 31, 2019 and December 31, 2018, respectively (see Note 8).

Bank loans

Bank loans pertain to the various short-term promissory note (PN) obtained by the Group.

On March 5, 2019, CLC availed a short-term PN with Banco De Oro (BDO) amounting to ₱62.50 million. The loan facility has a term of six (6) months with interest rate of 6.75% which are payable monthly.

On March 29, 2019, CCDC availed a short-term PN with Banco De Oro (BDO) amounting to ₱26.50 million. The loan facility has a term of six (6) months with interest rate of 6.75% which are payable monthly.

On November 22, 2018, CLC and CCDC availed a short-term PN with Banco De Oro (BDO) amounting to ₱140.21 million and ₱108.79 million, respectively. The loan facility has a term of six (6) months with principal repayment schedule of 25% on the third (3rd) month and every month thereafter, with interest rate of 6.75% which are payable monthly.

On November 27 and December 7, 2018, CLC availed a short-term promissory note (PN) with Maybank amounting to ₱250.00 million and ₱150.00 million, respectively. The loan facility has a term of 45 days and 31 days with interest rate of 2.88%, interest of which is to be paid with the principal at maturity date, respectively. The loan has already matured and paid as of March 31, 2019.

CLC has short-term promissory note (PN) with China Bank Corporation (CBC) amounting to ₱250.00 million with interest rate of 5.63%. The loan facility has a term of twelve (12) months, interest of which is to be paid quarterly and principal repayment to be made at maturity date. CLC renewed the facility on September 19, 2018.

The Parent Company renewed a short-term promissory note (PN) with China Bank Corporation (CBC) amounting to ₱497.00 million with interest rate of 5.63%. The loan facility has a term of twelve (12) months, interest of which is to be paid quarterly and principal repayment to be made at maturity date. The Parent Company renewed the facility August 6, 2018.

Bank loans of Century Properties Management, Inc. (CPMI), a subsidiary of the Parent Company, obtained a short-term promissory note (PN) amounting to ₱5.00 million from Bank of the Philippine Islands for additional working capital requirements. The PN has a term of one (1) year with a fixed interest rate of 6.50% per annum (p.a.) and principal repayment of which is to be made at maturity date.

Long-term Debt

The roll-forward of the Group's long-term debt is as follows:

	March 31, 2019 (Unaudited)			
	Bank Loans	CTS Financing	Car Loan Financing	Total
Principal:				
Balances at beginning of year	₱9,264,955,585	₱7,875,795,684	₱18,853,485	₱17,159,604,754

Bank loans

Bank loans pertain to long-term debt from various banks used to finance the construction and development of the Group's projects.

In 2019, CLC obtained additional loan from DBP amounting to ₱108.00 million, interest ranging from 7.00% to 9.27% per annum are payable quarterly. The principal amount which have maturities ranging from two (2) to four (4) years will be used to fund ongoing development of its projects and for additional working capital.

CCDC II, a subsidiary of CCDC availed ₱297.32 million and ₱1,008.44 million in 2019 and 2018, respectively, from the ₱2,200.00 loan facility with BPI. The proceeds of the loan with interest ranging from 7.4% to 7.9% will be used as additional working capital. Principal repayment will be in installments on each repayment date until its final maturity date.

For the year ended December 31, 2018, CLC, CCDC and CMDC, subsidiaries of the Parent Company, entered into an Omnibus Loan and Security Agreement with Amalgated Investment Bancorporation, for a two year term-loan with a principal amount of up to ₱500.00 million. The loan facility bears interest of 7% per annum. As of December 31, 2018 the total amount drawn by the group from the facility amounted to ₱351.10 million. In 2019, the Group availed the remaining undrawn balance from the facility amounting to ₱148.90 million.

In 2018, CLC obtained additional loan from SCB amounting to ₱471.02 million, with interest ranging from 6.46% to 7.08% per annum and will be payable in two (2) years. The proceeds of the loan will be used to fund ongoing development of its projects and for additional working capital.

In 2018, CLC availed additional loan from DBP amounting to ₱639.87 million, with interest ranging from 7.00% to 9.21% per annum. The principal amount which have maturities ranging from two (2) to four (4) years will be used to fund ongoing development of its projects and for additional working capital.

On June 29, 2018, CLC obtained a three-year loan from China Bank Savings amounting to a ₱500.00 million. The proceeds of the loan with interest of 6% per annum will be use as additional working capital.

On January 3, 2018, CLC entered into an Omnibus Agreement with Standard Chartered Bank for a senior secured dollar term loan facility up to USD 40.00 million or ₱1,990.00 million as to finance the planned construction and development of its properties and to refinance its unpaid debts. Under this agreement the utilization of the loan shall be subject to the dollar term loan facility agreement. The loan facility bears interest rate equal to the screen rate or the reference bank rate plus 3.00% margin payable quarterly. Principal repayment will be in installments on each repayment date until its final maturity on 2020.

CTS financing

CTS financing pertains to loan facilities which were used in the construction of the Group's real estate development projects. The related PNs have terms ranging from twelve (12) to forty-eight (48) months and are secured by the buyer's post-dated checks, the corresponding CTS, and parcels of land held by the Parent Company. The Group retained the assigned ICRs and contract assets and recorded the proceeds from these assignments as "Long-term debt". The gross amount of ICRs and contract assets used as collateral amounted to ₱6,584.40 million and ₱6,638.84 million as of March 31, 2019 and December 31, 2018, respectively (see Notes 5 and 13).

These CTS loans approved in 2015 bear fixed interest rates ranging from 5.75% to 9.12% in 2019 and 2018, respectively.

Car loan financing

Car loan financing pertains to the leasing facility of the Group for the purpose of renting vehicles to be used in the conduct of business. Under this facility, the lease guarantees the Group (the lessee or renter) the use of vehicles and in return, the bank (the property owner) is guaranteed regular payments for a specific period.

The car lease approved in 2018 had interest of 7.00% to 8.75%.

Security and Debt Covenants

Certain bilateral, trust receipts, payables under CTS financing and bank loans have mortgaged real estate inventories and assigned ICRs and contract assets wherein such assets can no longer be allowed to be separately used as collateral for another credit facility, grant loans to directors, officers and partners, and act as guarantor or surety in favor of banks. As of March 31, 2019 and December 31, 2018, the carrying values of these assets mortgaged for trust receipts, payables under CTS financing and bank loans amounted to ₱12,976.42 million and ₱13,311.16 million, respectively (see Notes 8 and 15).

Certain bilateral loans have the covenants including maintenance of a debt-to-equity ratio of not more than 2.33x and 3.00x, and a debt service coverage ratio of at least 1.5x. The bank loans have a covenant, specific to the projects it is financing, of having loan to security value of no more than 50.00% to 55%. Security value includes, among other things, valuation appraisal by independent appraisers and takes into account the sold and unsold sales and market value of the properties. The loan agreements require submission of the valuation of each mortgage properties on an annual basis or upon request of the facility agent.

The bank loans contain negative covenant that the Group’s payment of dividend is subject to certain financial ratios.

As of March 31, 2019, the Group has complied with the provisions of its loan covenants (see Note 20).

Borrowing Costs

Borrowing cost capitalized amounted to ₱273.05 million and ₱806.81 million for the three months period-ended, March 31, 2019 and December 31, 2018, respectively (see Notes 8 and 11).

Interest Expense and Other Finance Charges

Interest and other financing charges for the short-term and long-term debts for the periods ended March 31, 2019 and 2018 totaled to ₱107.39 million and ₱129.82 million, respectively.

18. BONDS PAYABLE

This account consists of the following:

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Five-and-half year bond	₱1,393,530,000	₱1,393,530,000
Seven-year bond	119,110,000	119,110,000
	1,512,640,000	1,512,640,000
Less: Unamortized transaction costs	(6,745,302)	(6,745,302)
	₱1,505,894,698	₱1,505,894,698

The bonds listed at the Philippine Dealing & Exchange Corp. (PDEX) on September 2, 2014 bear interest rates of 6% p.a. for the three-year bonds, 6.6878% p.a. for the five-and-a-half year bonds, and 6.9758 % p.a. for the seven-year bonds. The bonds are rated “AA+” with a Stable outlook by Credit Rating and Investor Services Philippines Inc. (CRISP).

19. LIABILITY FROM PURCHASED LAND

This account pertains to the outstanding payable of the Group for the cost of land purchases recognized under “Real estate inventories” as follows:

	March 31, 2019	December 31, 2018
	(Unaudited)	(Audited)
Current	₱67,200,000	₱67,200,000
Noncurrent	328,335,743	301,568,733

20. EQUITY

Earnings per share

Basic/diluted earnings per share amounts attributable to equity holders of the Parent Company for the three months period-ended March 31, 2019 and 2018 are as follows:

	March 31, 2019	March 31, 2019
	(Unaudited)	(Unaudited)
Net income attributable to the owners of the Parent Company	₱367,806,904	₱270,429,811
Weighted average number of shares	11,599,600,690	11,599,600,690
Basic/diluted earnings per share	₱0.032	₱0.023

Earnings per share are calculated using the consolidated net income attributable to the equity holders of Parent Company divided by the weighted average number of shares.

Treasury shares

On January 7, 2013, the BOD of the Parent Company approved a share buyback program for those shareholders who opt to divest of their shareholdings in the Parent Company. A total of ₱800.00 million worth of shares were up for buyback for a time period of up to 24 months. In 2014 and 2013, a total of 85.68 million shares and 14.44 million shares were reacquired at a total cost of ₱87.15 million and ₱22.52 million, respectively.

As of March 31, 2019 and December 31, 2018, treasury shares amounted to ₱109.67 million consisting of 100,123,000 shares.

Retained earnings

Retained earnings include the accumulated equity in undistributed net earnings of consolidated subsidiaries amounting to ₱7,957.89 million and to ₱7,590.09 million as of March 31, 2019 and December 31, 2018, respectively. These amounts are not available for dividend declaration until these are declared by the subsidiaries.

Cash dividend declaration

On June 8, 2018, the BOD of the Parent Company approved the declaration of ₱0.02 per share cash dividends amounting to ₱200.00 million for distribution to the stockholders of the Parent Company of record as of June 26, 2018 which was paid on July 6, 2018.

Other components of equity

Other components of equity mainly pertains to equity reserve recognized between the consideration paid by Mitsubishi Corporation (MC) and the carrying value of the net assets of TPI I, TPI II, TPI III and CCDC II given up amounting to ₱111.38 million as of March 31, 2019 and December 31, 2018.

Non-controlling interest and equity reserve

As disclosed in Note 2, the additional investment to PPHI and KPDC in 2018 resulted in non-controlling interests amounting to ₱205.00 million and ₱4.00 million, respectively.

In 2019, PPHI issued additional 266.63 million common share with a par value of ₱1.00 and 66,667 preferred shares with ₱1000.00 par value to MC, which resulted in increase in the non-controlling interest.

On September 22, 2017, the SEC approved the application of TPI I to increase its authorized capital stock from ₱40.00 million, divided into 0.40 million common shares with a par value of ₱100, to ₱363.90 million, divided into 1.09 million common shares with a par value of ₱100 and 2.55 million redeemable preferred shares with a par value of 100. Subsequently, MC subscribed to 0.41 million common shares and 0.18 million redeemable preferred shares of TPI I, 0.14 million common shares of TPI II and 0.12 million common shares of TPI III at a total subscription price of ₱162.32 million for a 40% proportionate interest in TPI I, TPI II and TPI III.

The redeemable preferred shares shall have the following rights, privileges and limitations:

- a. shall have the right to receive payment in full of their par value and in preference to payment of any amount to the common shares if the Company is under liquidation;
- b. may be redeemed at the option of the Company; and
- c. shall have no voting rights except on matters upon which non-voting shares are entitled to vote.

As of December 31, 2017, the subscription price has been fully paid. This resulted in the dilution of the Group's ownership and the recognition of non-controlling interest amounting to ₱121.67 million. The difference between the consideration paid by MC and the net assets of TPI I, TPI II and TPI III given up amounting to ₱40.65 million was accounted for as equity reserve included under "Other components of equity" in the consolidated statements of changes in equity for the year ended December 31, 2017.

On June 17, 2016, the SEC approved the application of CCDC II to increase its authorized capital stock from 2.00 million shares to 1,279.88 million shares. Subsequently on August 12, 2016, MC subscribed to 511.56 million shares of CCDC II at a subscription price of ₱905.46 million for a 40% proportionate interest in CCDC II of which ₱190.52 million has been paid. This resulted in the dilution of the Group's ownership in CCDC II and the recognition of non-controlling interest amounting to ₱119.79 million. The difference between the consideration paid by MC and the net assets of CCDC II given up amounting to ₱70.73 million is accounted for as equity reserve included under "Other components of equity" in the consolidated statements of changes in equity. In 2019 and 2018, MC paid additional ₱56.63 million and ₱212.34 million, respectively, which resulted in increase in the non-controlling interest.

The Group's non-controlling interest recognized is the proportionate interests of MC and THI to CCDC II, TPI I, TPI II, TPI III and PPHI and KPDC, respectively, net of any unpaid subscription at the subscription date.

The financial information of subsidiaries that have material non-controlling interests is provided below. The information below is based on amounts after intercompany eliminations.

Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong and healthy consolidated statement of financial position to support its current business operations and drive its expansion and growth in the future.

The Group undertakes to establish the appropriate capital structure for each business line, to allow it sufficient financial flexibility, while providing it sufficient cushion to absorb cyclical industry risks.

The Group considers debt as a stable source of funding. The Group attempts to continually lengthen the maturity profile of its debt portfolio and makes it a goal to spread out its debt maturities by not having a significant percentage of its total debt maturing in a single year.

The Group manages its capital structure and makes adjustments to it, in the light of changes in economic conditions. It monitors capital using leverage ratios on both a gross debt and net debt basis.

For the period ended March 31, 2019 and 2018, the Group had the following ratios:

	March 31, 2019	March 31, 2018
	(Unaudited)	(Unaudited)
Debt to equity	112.33%	108.46%
Net debt to equity	100.96%	96.49%

No changes were made in the objectives, policies or processes for managing capital during the periods-ended March 31, 2019 and December 31, 2018. The Group has complied with the above covenants as of March 31, 2019 and December 31, 2018 (see Note 17).

21. GENERAL, ADMINISTRATIVE AND SELLING EXPENSES

This account consists of:

	March 31, 2019	March 31, 2018
	(Unaudited)	(Unaudited)
Commission	₱287,659,863	₱52,908,347
Marketing and promotions	122,659,774	469,965,270
Salaries, wages and employee benefits	137,949,806	141,980,241
Taxes and licenses	32,253,726	60,064,591
Professional fees	28,510,754	22,504,134
Entertainment, amusement and recreation	17,315,432	7,786,245
Rent	13,709,027	42,383,030
Outside services	8,514,515	5,777,677
Depreciation and amortization (Notes 12)	5,101,607	9,048,214
Transportation and travel	5,447,277	3,257,010
Communication	4,732,906	4,107,642
Utilities	4,380,169	720,835
Supplies	2,936,460	1,438,383
Miscellaneous	22,445,482	23,915,406
	₱693,616,798	₱845,857,025

Miscellaneous pertains mainly business and research development and software maintenance.

22. INTEREST AND OTHER ONCOME

This account consists of:

	March 31, 2019 (Unaudited)	March 31, 2018 (Unaudited)
Income from forfeited collections	₱125,141,626	₱89,816,472
Interest income from cash and cash equivalents (Note 4)	18,249,861	20,303,414
Other income	14,562,497	36,683,007
	₱157,953,984	₱146,802,893

Income from forfeited collections pertains to forfeited collections from reservation fees whose allowable period of completion has prescribed and terminated sales contracts.

Other income mainly consists of the penalties and other surcharges billed against defaulted installments from sales contracts. Real estate buyers are normally charged a penalty of 3.00% of the monthly installment for every month in arrears from the time the specific installment becomes due and payable.

23. PENSION COST

The Group has a funded, noncontributory, defined benefit pension plan covering substantially all of its regular employees. The benefits are based on the projected retirement benefit of 22.5 days' pay per year of service in accordance with Republic Act 7641. The benefits are based on current salaries and years of service and compensation on the last year of employment. An independent actuary conducts an actuarial valuation of the retirement benefit obligation using the projected unit credit method.

In 2018, the pension liability of the Parent Company amounting to ₱183.35 million was transferred to CLC, CCDC, CCC, CMDC and CISI. The transfer of pension liability was treated as a reversal of the Parent Company's liability.

The plan assets as of March 31, 2019 and December 31, 2018 pertain solely to bank deposits. The Group does not expect to contribute to its retirement fund in 2019.

24. INCOME TAXES

The provision for income tax consists of:

	March 31, 2019 (Unaudited)	March 31, 2018 (Unaudited)	December 31, 2018 (Audited)
Current	₱103,892,308	₱42,408,677	₱320,643,012
Deferred	19,601,652	(20,983,447)	183,127,249
	₱123,493,960	₱21,425,230	₱503,770,261

Current tax

Provision for current tax pertains to final tax and RCIT/MCIT.

Income tax includes RCIT paid at the rate of 30%, MCIT paid at the rate of 2% and final taxes paid at the rate of 20% and 10%, which is a final withholding tax on gross interest income from debt instruments and other deposit substitutes.

Interest allowed as a deductible expense is reduced by an amount equivalent to 33% of interest income subjected to final tax starting January 1, 2009.

The components of the Group's deferred tax assets and deferred tax liabilities are as follows:

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Recognized in the consolidated statements of comprehensive income:		
Deferred tax assets on:		
NOLCO	₱60,405,244	₱60,405,244
Unrealized foreign exchange loss	56,234,781	58,502,781
Accrued retirement costs	20,531,884	20,531,884
MCIT	19,767,531	19,767,531
Provisions for impairment losses	3,296,786	3,296,786
	160,236,226	162,504,226
Deferred tax liabilities on:		
Effect of difference in accounting and tax base on real estate sales (see Note 2)	(1,383,539,219)	(1,344,577,566)
Fair value gains on investment properties	(926,909,778)	(926,909,778)
Prepaid commissions	(205,318,175)	(227,933,259)
Effect of difference in accounting and tax base on investment properties	(72,530,087)	(69,218,745)
Unamortized deferred financing costs	(40,055,782)	(41,309,965)
Gain from change in fair value of derivatives	(33,645,110)	(34,737,588)
Others	(8,701,016)	(8,678,614)
	(2,670,699,167)	(2,653,365,515)
Recognized directly in equity:		
Deferred tax asset on re-measurement loss on retirement obligation	28,270,750	28,270,750
	(₱2,482,192,191)	(₱2,462,590,539)

The adoption of PFRS 15 decreased the Group's deferred tax liabilities by ₱54.45 million as of January 1, 2018.

The above deferred tax assets and liabilities are presented in the consolidated statements of financial position as follows:

	March 31, 2019 (Unaudited)	December 31, 2018 (Audited)
Deferred tax assets - net	₱48,061,438	₱61,929,417
Deferred tax liabilities - net	2,530,253,629	2,524,519,956

As of March 31, 2019, carryover NOLCO that can be claimed as deduction from future taxable income are as follows:

Year Incurred	Amount	Used/Expired	Balance	Expiry Year
2015	₱458,303,818	(₱398,290,584)	₱60,013,234	2018
2016	126,973,583	(51,135,535)	75,838,048	2019
2017	59,302,462	-	59,302,462	2020
2018	56,082,810	(12,848,765)	43,234,045	2021
	₱700,662,673	(₱462,274,884)	₱238,387,789	

As of March 31, 2019, MCIT that can be used as deductions against income tax liabilities are as follows:

Year Incurred	Amount	Used/Expired	Balance	Expiry Year
2015	₱32,695,634	(₱29,077,446)	₱3,618,188	2018
2016	27,977,254	(17,176,455)	10,800,799	2019
2017	5,314,166	–	5,314,166	2020
2018	34,379	–	34,379	2021
	₱66,021,433	(₱46,253,901)	₱19,767,532	

Unrecognized deferred tax assets

The Group has NOLCO that are available for offset against future taxable income or tax payable for which deferred tax assets have not been recognized. Unrecognized NOLCO amounted to ₱37.77 million and ₱37.04 million as of March 31, 2019 and December 31, 2018, respectively.

25. FINANCIAL INSTRUMENTS

Fair Value Information

The table below presents the carrying amounts and fair values of the Group's financial assets and financial liabilities as follows:

	March 31, 2019 (Unaudited)		December 31, 2018 (Audited)	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial assets at FVPL	₱112,150,368	₱112,150,368	₱115,791,961	₱115,791,961
Financial assets at amortized cost				
ICR	505,987,901	505,987,901	545,989,912	545,989,912
Rental deposits	163,897,225	163,897,225	162,818,009	164,738,382
	₱782,035,494	₱782,035,494	₱824,599,882	₱826,520,255
Other financial liabilities

Bonds payable	1,505,894,698	1,518,928,301	1,505,894,698	1,518,928,301
Liability from purchased land	395,535,743	395,535,743	368,768,733	370,231,832
	₱18,926,748,326	₱19,055,083,476	₱18,908,911,816	₱19,141,345,325

Fair Value of Financial Instruments

The methods and assumptions used by the Group in estimating the fair value of the financial instruments are as follows:

Financial assets

Cash and cash equivalents, receivables (excluding ICR with more than one year tenor) and due from related parties - Carrying amounts approximate fair values due to the short-term maturities of these instruments.

ICR - Fair value is based on undiscounted value of future cash flows using the prevailing interest rates for similar types of receivables as of the reporting date using the remaining terms of maturity.

Rental deposits - The fair values of rental deposits are based on the discounted value of future cash flows using the applicable market interest rates. Discount rates ranging from 1.91% to 5.00% were used in calculating the fair value of the Group's rental deposits as of December 31, 2018 and 2017.

Derivative assets - Under PFRS 9, derivative assets are classified as financial assets at FVPL. The fair value of cross currency swap transaction is determined using valuation techniques with inputs and assumptions that are based on market observable data and conditions and reflect appropriate risk adjustments that market participants would make for credit and liquidity risks existing at the end each of reporting period. The fair values of cross

currency swap transactions are determined based on changes in the term structure of interest rates of each currency and the spot rate.

Other financial liabilities

The fair values of accounts and other payables, due to related parties and short-term debt approximate the carrying amount due to the short-term maturities of these instruments.

The fair value of long-term debt, bonds payable and liability from purchased land are estimated using the discounted cash flow methodology using the Group's current incremental borrowing rates for similar borrowings with maturities consistent with those remaining for the liability being valued. The discount rates used for long-term debt ranged from 2.39% to 6.34% as of March 31, 2019 and December 31, 2018. The discount rates used for the bonds payable ranged from 2.79% to 4.52% as of March 31, 2019 and December 31, 2018.

The Group has no financial instruments measured under Level 3 of fair value hierarchy.

For the years ended December 31, 2018 and 2017, the Group did not have transfers between Level 1 and 2 fair value measurements and no transfers into and out of Level 3 fair value measurements.

Financial Risk Management Policies and Objectives

The Group has various financial assets and liabilities such as cash and cash equivalents, receivables, due to and from related parties, and accounts payable and other liabilities, which arise directly from its operations. The Group has bonds payable, short-term and long-term debt availed for financing purposes.

Exposure to credit, interest rate and liquidity risks arise in the normal course of the Group's business activities.

The main objectives of the Group's financial risk management are as follows:

- to identify and monitor such risks on an ongoing basis;
- to minimize and mitigate such risks; and
- to provide a degree of certainty about costs.

The Group's BOD reviews and approves the policies for managing each of these risks and they are summarized below:

Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss for the Company by failing to discharge an obligation.

The Group trades only with recognized, creditworthy third parties. The Group's receivables are monitored on an ongoing basis to manage exposure to bad debts and to ensure timely execution of necessary intervention efforts. Real estate buyers are subject to standard credit check procedures, which are calibrated based on payment scheme offered. The Group assessed that its customers portfolio is homogeneous. The Group's respective credit management units conduct a comprehensive credit investigation and evaluation of each buyer to establish creditworthiness.

In addition, the credit risk for ICRs is mitigated as the Group has the right to cancel the sales contract without need for any court action and take possession of the subject house in case of refusal by the buyer to pay on time the due installment contracts receivable. This risk is further mitigated because the corresponding title to the subdivision units sold under this arrangement is transferred to the buyers only upon full payment of the contract price.

With respect to credit risk arising from the other financial assets of the Group, which comprise cash and cash equivalents, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. The Group transacts only with institutions or banks which have demonstrated financial soundness for the past 5 years.

The Group's maximum exposure to credit risk as of March 31, 2019 and December 31, 2018 is equal to the carrying values of its financial assets, except for ICRs and contract assets with carrying values of ₱8,775.79 million and ₱9,267.75 million, respectively, and fair value of collateral amounting to ₱6,584.40 million and ₱6,638.84 million as of March 31, 2019 and December 31, 2018, respectively.

The table below shows the credit quality and aging analysis of the Group's financial assets:

March 31, 2019

	Neither past due nor impaired		Past due but not impaired		Total
	High grade	Standard grade	Impaired	Impaired	
Cash and cash equivalents	₱2,073,581,448	₱-	₱-	₱-	₱2,073,581,448
Receivables**	1,419,231,342	-	280,275,422	3,082,110	1,702,588,874
Due from related parties	-	403,559,150	-	-	403,559,150
	₱3,492,812,790	₱403,559,150	₱280,275,422	₱3,082,110	₱4,179,729,472

**Excluding other receivables amounting to ₱400.91 million as of as of March 31, 2018.

December 31, 2018

	Neither past due nor impaired		Past due but not impaired		Total
	High grade	Standard grade	Impaired	Impaired	
Cash and cash equivalents*	₱1,949,768,503	₱-	₱-	₱-	₱1,949,768,503
Receivables**	1,356,941,637	-	280,275,422	3,082,110	1,640,299,169
Due from related parties	-	394,354,508	-	-	394,354,508
	₱3,306,710,140	₱394,354,508	₱280,275,422	₱3,082,110	₱3,984,422,180

*Excluding cash on hand amounting to ₱0.62 million as of December 31, 2018.

**Excluding other receivables amounting to ₱400.91 million as of December 31, 2018.

The credit quality of the financial assets was determined as follows:

Cash and cash equivalents and derivative assets - these are considered as high grade financial assets as these are entered into with reputable counterparties.

Receivables and contract assets - high grade pertains to receivables with no default in payments, standard grade pertains to receivables with up to 3 defaults in payment.

Due from related parties - these are considered as standard grade as these are settled on time or are slightly delayed due to unresolved concerns.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from either the inability to sell financial assets quickly at their fair values; or the counterparty failing on repayment of a contractual obligation; or inability to generate cash inflows as anticipated.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank loans and advances from related parties. The Group considers its available funds and its liquidity in managing its long-term financial requirements. It matches its projected cash flows to the projected amortization of long-term borrowings. For its short-term funding, the Group's policy is to ensure that there are sufficient operating inflows to match repayments of short-term debt.

The following table shows the maturity profile of the Group's financial assets used for liquidity purposes and liabilities based on contractual undiscounted payments:

	March 31, 2019		
	Within 1 Year	1 - 5 years	Total

*Excluding cash on hand amounting to ₱0.62 million as of December 31, 2018.

** Excluding other receivables amounting to ₱400.91 million as of December 31, 2018.

***Excluding customers' advances and statutory liabilities amounting to ₱1,049.49 million and ₱98.42 million, respectively, as of December 31, 2018.

Foreign currency risk

Financial assets and credit facilities of the Group, as well as major contracts entered into for the purchase of raw materials, are mainly denominated in Philippine Peso.

The following table shows the Group's consolidated foreign currency-denominated monetary assets and liability and their peso equivalents as of March 31, 2019 and December 31, 2018:

	March 31, 2019 (Unaudited)		December 31, 2018 (Audited)	
	Original Currency	Peso Equivalent	Original Currency	Peso Equivalent
Assets				
Cash and cash equivalents				
US Dollar	\$1,445,564	₱75,892,115	\$1,170,033	₱61,520,317
Euro	€9,974	590,912	€7,193	433,813
Loans payable				
US Dollar	\$50,000,000	(2,625,000,000)	\$55,000,000	(2,891,900,000)
Net foreign currency denominated instruments		(₱2,548,516,974)		(₱2,829,945,870)

The spot exchange rates used were ₱52.50 to US\$1 and ₱59.24 to €1 in 2019, ₱52.58 to US\$1 and ₱60.31 to €1 in 2018

The following table demonstrates the sensitivity to reasonably possible changes in foreign currency rates, with all variables held constant, of the Group's income before tax and equity.

	March 31, 2019 (Unaudited)		December 31, 2018 (Audited)	
	Increase (decrease) in foreign exchange rates	Effect on profit before tax	Increase (decrease) in foreign exchange rates	Effect on profit before tax
Dollar	5% (5%)	(₱127,455,394) 127,455,394	5% (5%)	(₱141,518,984) 141,518,984
Euro	5% (5%)	29,546 (29,546)	5% (5%)	21,691 (21,691)

Interest rate risk

Interest rate risk is the risk that changes in the market interest rates will reduce the Group's current or future earnings and/or economic value. The Group's interest rate risk management policy centers on reducing the overall interest expense and exposure to changes in interest rates. Changes in market interest rates relate primarily to the Group's interest bearing debt obligations with floating interest rates or rates subject to repricing as it can cause a change in the amount of interest payments.

The following table sets out the carrying amount, by maturity, of the Group's long term debt that are exposed to interest rate risk.

	Interest terms (p.a.)	Rate fixing period	<1 year	1 to 5 years
	2019	6.5-8%	Monthly; Annually	₱7,167,585,638
2018	6.5-8%	Monthly; Annually	₱5,389,150,881	₱11,645,097,504

The interest rate risk exposure arising from the Omnibus Agreement with SCB with carrying amount of ₱2,057.80 million as of December 31, 2018 is hedged by a cross currency and interest rate swap agreement entered with the same bank.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all variables held constant, of the Group's income before tax and equity (through the impact on floating rate borrowings).

	March 31, 2019 (Unaudited)		December 31, 2018 (Audited)	
	Increase (decrease) in interest rates	Effect on profit before tax	Increase (decrease) in interest rates	Effect on profit before tax
Basis points	0.33% (0.33%)	₱26,807,618 (26,807,618)	0.33% (0.33%)	₱26,821,680 (26,821,680)

There is no other impact on the Group's total comprehensive income other than those already affecting the net income.

26. PERFORMANCE OBLIGATION

Information about the Group's performance obligations are summarized below:

Real estate revenue

The Group entered into contracts to sell with one identified performance obligation, which is the sale of the real estate unit together with the services to transfer the title to the buyer upon full payment of contract price. The amount of consideration indicated in the contract to sell is fixed and has no variable consideration. The sale of real estate unit may cover the contract for either the (i) serviced lot; (ii) service lot and house, and (ii) condominium unit and the Group concluded that there is one performance obligation in each of these contracts. The Group recognizes revenue from the sale of these real estate projects under pre-completed contract over time during the course of the construction.

Payment commences upon signing of the contract to sell and the consideration is payable in cash or under various financing schemes entered with the customer. The financing scheme would include payment of 10%-30% of the contract price spread over a certain period (e.g., three months to four years) at a fixed monthly payment with the remaining balance payable (a) in full at the end of the period either through cash or external financing; or (b) through in-house financing which ranges from two (2) to five (5) years with fixed monthly payment. The amount due for collection under the amortization schedule for each of the customer does not necessarily coincide with the progress of construction, which results to either a contract asset or contract liability.

The transaction price allocated to the remaining performance obligations (unsatisfied or partially satisfied) as at December 31, 2018 are as follows:

	2018
Within one year	₱3,474,143,694
More than one year	7,312,045,153
	<u>₱10,786,188,847</u>

The remaining performance obligations expected to be recognized within one year and in more than one year relate to the continuous development of the Group's real estate projects. The Group's condominium units are completed within three years and five years, respectively, from start of construction while serviced lots and serviced lots and house are expected to be completed within two to three years from start of development.

Property management

Revenue is recognized from property management when the services are rendered.

27. CONTINGENCIES

The Group is contingently liable for lawsuits or claims filed by third parties (substantially civil cases that are either pending decision by the courts or are under negotiation, the outcomes of which are not presently determinable). In the opinion of management and its legal counsels, the eventual liability under these lawsuits or claims, if any, will not have a material or adverse effect on the Group's financial position and results of operations. The information usually required by PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, is not disclosed on the grounds that it can be expected to prejudice the outcome of these lawsuits, claims or assessments. No provisions were made for the period-ended March 31, 2019 and December 31, 2018 with respect to the foregoing matters.

28. NOTES TO CASH FLOWS

Below are the noncash transactions for the period ended March 31, 2019 and 2018.

- a. Accretion of unamortized discount for noninterest-bearing contracts receivable amounting to ₱125.48 million and ₱189.38 million for the three months period-ended March 31, 2019 and 2018, respectively (see Notes 6 and 15).
- b. Borrowing costs capitalized in real estate inventories amounting to ₱273.05 million and ₱135.05 million for the three months period-ended March 31, 2019 and 2018, respectively, respectively (see Note 8).
- c. Unrealized gain from change in fair value of derivatives amounting to ₱3.64 million for the three months period-ended March 31, 2019 (see Note 13).
- d. Transfer from deposit for purchased land to real estate inventories amounting to ₱174.83 million for the three months period-ended March 31, 2019 (see Notes 8 and 9).
- e. Amortization of deferred financing costs amounting to ₱10.05 million for the three months period-ended March 31, 2019 (see Note 17).

PROVISION FOR INCOME TAX	123.49	21.43	102.06	476.40%
NET INCOME	384.14	300.06	84.08	28.01%

4.44% increase in real estate revenue

The increase is due to sustained revenue contribution of affordable housing segment and additional substantial progress in construction and sales take up of on-going projects.

29.52% increase in leasing revenue

The increase were due to the start of operation and recognition of revenue of Asian Century Center.

33.72% decrease in interest income from real estate sales

Interest income from real estate sales represents interest accretion from installment contract receivables (ICR) and contract asset recognized during the year. Discount subject to accretion arises from the difference between present value of ICR and contract asset and its nominal value. Income decrease since majority of the projects are already turned over and new sales fair value upon initial recognition approximates its nominal value.

4.24% increase in Cost of Sales

The increase is directly attributable in the increase of real estate revenue.

100.00% increase in loss from change in fair value of derivatives

The increase is due to mark to market gain on non-deliverable foreign currency swap entered into by the Group to hedge its foreign currency denominated debt.

100.00% increase in unrealized foreign exchange gain

These gain are offset by the gain in fair value of derivatives arising from hedging of the dollar denominated loans.

11.85% increase in Cost of leasing

The increase is mainly due to the cost for the start operation Asian Century Center.

18.00% decrease in General, administrative and selling expenses

Decrease is due to continuous cost reduction measures to improve margins. Significant reduction is mostly from marketing and selling expenses

17.28% decrease in Interest and other financing charges

These interests came from loans that do not qualify for capitalization as borrowing costs.

476.40% increase in Provision for Income Tax

The increase was primarily due to higher taxable income during the period.

As a result of the foregoing, net income increased by 28.01%.

	₱49,326.65	₱49,366.69	(₱40.03)	-0.08%

6.32% increase in Cash and cash equivalents

Increase is primarily due to collections and net proceeds from loans during the period.

5.18% decrease in total Contract Assets

The increase is primarily due to collection and the application of deposits/contract liabilities to contract asset during the year.

14.70% decrease in Deposits for purchased land

In 2019, CCC finalized its DOAS for the land acquired in Novaliches, hence the initial deposit for the land purchased amounting to ₱174.83 million was reclassified to inventories.

6.37% increase in Property and equipment

The increase is mostly attributable to additional construction cost for Novotel Suites Manila at Acqua 6 Tower of Acqua Private Residences.

16.96% increase in deferred tax liabilities (net of deferred tax asset)

The increase is primarily due to the effect of difference in accounting and tax base on real estate sales.

32.12% decrease in total Contract Liabilities

Decrease was due to recognition of customers deposits as revenue during the period as the accounts meet the accounting criteria for revenue recognition.

1.35% decrease in total Short-term and Long-term Debt

Decrease was due to net repayment of loans during the period.

9.03% increase in other non-current liabilities

Due to the collection of its subscription of preferred shares.

36.63% increase in non-controlling interest

Primarily due to additional investment from minority interest of PPHI amounting to ₱333.33 million and collection of subscription receivable from minority interest of CCDCII amounting to ₱56.63 million.

PART II--OTHER INFORMATION

Item 3. 1st Quarter of 2019 Developments

A. New Projects or Investments in another line of business or corporation.

None

B. Composition of Board of Directors

Name of Director	Position
Jose E.B. Antonio	Chairman of the Board
John Victor R. Antonio	Director
Jose Marco R. Antonio	Director
Jose Roberto R. Antonio	Director
Jose Carlo R. Antonio	Director
Ricardo Cuerva	Director
Rafael G. Yaptinchay	Director
Jose L. Cuisia	Independent Director
Stephen T. CuUnjieng	Independent Director
Carlos C. Ejercito	Independent Director

C. Performance of the corporation or result/progress of operations.

Please see unaudited Financial Statements and Management's Discussion and Analysis.

D. Declaration of Dividends.

None

E. Contracts of merger, consolidation or joint venture; contract of management, licensing, marketing, distributorship, technical assistance or similar agreements.

None

F. Offering of rights, granting of Stock Options and corresponding plans thereof.

None

G. Acquisition of additional mining claims or other capital assets or patents, formula, real estate.

Not Applicable

H. Other information, material events or happenings that may have affected or may affect market price of security.

None.

I. Transferring of assets, except in normal course of business.

None.

Item 4. Other Notes as of 1st Quarter of 2019 Operations and Financials.

J. Nature and amount of items affecting assets, liabilities, equity, net income, or cash flows that is unusual because of their nature, size, or incidents.

None.

K. Nature and amount of changes in estimates of amounts reported in prior periods and their material effect in the current period.

There were no changes in estimates of amounts reported in prior interim period or prior financial years that have a material effect in the current interim period.

L. New financing through loans/ issuances, repurchases and repayments of debt and equity securities.

See Notes to Financial Statements and Management Discussion and Analysis.

M. Material events to the end of the interim period that have not been reflected in the financial statements for the interim period.

None

N. The effect of changes in the composition of the issuer during the interim period including business combinations, acquisition or disposal of subsidiaries and long term investments, restructurings, and discontinuing operations.

None

O. Changes in contingent liabilities or contingent assets since the last annual statement of financial position date.

None

P. Existence of material contingencies and other material events or transactions during the interim period

None.

Q. Events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation.

None

R. Material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the company with unconsolidated entities or other persons created during the reporting period.

None.

S. Material commitments for capital expenditures, general purpose and expected sources of funds.

The movement of capital expenditures being contracted arose from the regular land development and construction requirements.

T. Known trends, events or uncertainties that have had or that are reasonably expected to have impact on sales/revenues/income from continuing operations.

As of March 31, 2019, there are no known trends, events or uncertainties that are reasonably expected to have impact on sales/revenues/income from continuing operations except for those being disclosed in the 1st quarter of 2019 financial statements.

U. Significant elements of income or loss that did not arise from continuing operations.

None.

V. Causes for any material change/s from period to period in one or more line items of the financial statements.

See Notes to Financial Statements and Management Discussion and Analysis (MD&A) as material changes are described in detail in the MD&A section

W. Seasonal aspects that had material effect on the financial condition or results of operations.

None.

X. Disclosures not made under SEC Form 17-C.

None.
